Nebraska is All Right.

Auditor Cornell has issued a statement for the fiscal year ending November 30, 1897, showing that the sate debt has been reduced over \$500,000 during the year. IS EBRIGHT SHORT?

The Committee of Investigation Cou-Concludes that He Is.

The investigating committee is about to submit a report in which a shortage of about \$2,000 will be charged against William Ebright, a former superintendent of the institute for the bind at Nebraska City. The report will show that after Mrs. Ebright had been promoted from matron to assistant superintendent of the institution a young woman who was an inmate was carried on the rolls as matron, and the vouchers at the rate of \$50 per month were drawn in her favor for about eight months. The committee has discovered that the young woman did not receive the money, athough the vouchers are indorsed by her.

Another instance is that of a boy inmate who was on the pay roll as a teacher, and whose vouchers were at the rate of \$25 per month. The boy testifies that he was not employed as a teacher and did not receive this money; that he was during that time employed as a bell boy and received \$5 per month.

Two girls reported as teachers, and 594,184.33 for whom warants were drawn at the 10,879.00 rate of \$30 per month each for two or 136,073.77 three months, testify that they did 1,040,046.90 not receive the money.

These items foot up to about \$1,000. According to the committee the other \$1,000 shortage comes from Se padded bills made out by a man named Shuman, who operated a drug store at Nebraska City at the time ed youth fund......\$ 15,086.96 and who furnished the drugs for the institution. Schuman made up his bill at the end of each month, giving 1,647.62 the numbers of the prescriptions and making a total charge without itemizing each account. His bills were audited and paid.

It has been ascertained from the books turned over to the committee by the successor of Schuman in the drug business that all the prescriptions made out for private individuals during each month were again charged against the state, the numbers of the prescriptions in the bills rendered at the end of each month being in a majority of cases, as those which had been ordered and paid for by private parties. The overcharge in the drug item is found to amount to about \$1,00.

Sheriffs' Fees Reduced.

Auditor Cornell has decided that here is no law for the payment of 75 cents a day for the board of convicts who are kept by sheriffs after sentence, so he will reduce the payment to 50 cents a day except for the first six days. The auditor will enforce this rule hereafter. Under this ruling if a sheriff keeps a prisoner six days he may draw \$4.50,

The attorney general gave an opinion also in regard to mileage of sheriffs. He had decided that the old mieage act, under which sehriffs drew 10 cents a mile each way and \$3 a day, was repealed by the act of the late legislature. A sheriff is now allowed actual expenses and \$3 a day.

THE CANADIAN GOLD FIELDS. They Do Not All Lie in the Yukon.

But in order to get there it is necessary that a man should be possessed of the best of health, strong powers of endurance and considerable means. He leaves his wife and his family for a considerable period, and the hardships he has to endure are all unknown to him. Canada has other gold fields, though. They are the fields that produce her golden grain. This year the crop of Manitoba, lying directly north of North Dakota, yielded 21,000,000 bushels of wheat alone. The current price averages 76 cents, which, as a local paper puts it, "makes the product in gold this year, for wheat alone, equal to a value of \$15,960,000." Twenty thousand farm-

They have also beef, butter, potatoes, oats, barley and poultry to sell, and sometimes other things, so that it may be fairly estimated that their incomes will average at least \$1,000 per farmer. Thus Manitoba's fields have yielded this year fully \$20,000,000 in gold, divided among 20,000 actual producers, and a general population of about 200,-
