J. C. Berry, one of the best known citizens of Spencer, Mo., testifies that he cured himself of the worst kind of cough and cold by DeWitt's Witch Hazel Salve. He had been troubled with piles for over thirty years and had used many different kinds of so-called cures; but DeWitt's was the one that did the work and he will verify this statement if any one wishes to write him. ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.
Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy is soon realized. If you need a medicine you should have the best. At all druggists fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention THE TRIBUNE and send your address to Dr. Kilmer & Co., Binghamton, N. Y. MAY THINK!

when the Creator said to woman, "In sorrow shalt thou bring forth children," that a curse was pronounced against the human race, but the joy felt by every Mother when she first presses to her heart her babe, proves the contrary. Danger and suffering lurk in the pathway of the Expectant Mother, and should be avoided, that she may reach the hour when the hope of her heart is to be realized, in full vigor and strength.

MOTHER'S FRIEND

so relaxes the system and assists Nature, that the necessary change takes place without nausea, Headache, Nervous or Gloomy Foreboding of danger, and the trying hour is robbed of its pain and suffering, as so many happy mothers have experienced. Nothing but "Mother's Friend" does this. Don't be deceived or persuaded to use anything else.

Vick's Garden and Floral Guide.

The annual catalogue sent out by the old reliable seed establishment of James Vick's Sons, comes to hand in a dainty and tasty cover of blue, pink, yellow and orange. The Golden Lily, the Pink Day-break Aster, a brace of bluebirds, and the artistic lettering in black, blue, green, crimson and gold, all in harmonious combinations, make a cover of exquisite design and appearance. Many of the illustrations are fine half-tones. Four handsome colored plates of begonias, dahlias, nasturtiums and sweet peas add to the attractions. The list of seeds and plants covers a large and varied assortment, including nearly everything that can be desired for the garden, the lawn, the greenhouse. Valuable new varieties are offered as well as the thoroughly tried and proved standard sorts. Vick's novelties are noted for their uniform excellence.

In vegetables the Gradus pea is a great advance over all other "extra early" varieties. The Jones Wax Bean is an essential gain in that line. Potato growers are offered the "White Beauty" as a new variety with model qualities, combining size, high quality and great productiveness. But it is impossible here to note the many valuable offerings of this firm. Send for their catalogue. It is free to all applicants. Address James Vick's Sons, Rochester, N. Y.

Attracts Much Attention.

The 1897 crop reports recently printed in THE TRIBUNE are attracting more than local attention. The Lincoln Journal remarks about it as follows:

Frank Kimmel of the McCook TRIBUNE has inaugurated a column in his paper that is of unusual interest and one to be adopted in other papers with profit and value. This column is made up of what farmers in the neighborhood produced in 1897, what was their increase in stock and the individual profit that came and the value received for their labor. It will be readily seen that after this column has been published for a few months that it will be a compendium of facts and what the country can do for an industries man that cannot be questioned in authenticity and that will carry great emphasis.

The McCook Tribune is running a very valuable department. It interviews with farmers of that vicinity showing what they raised in 1897 and the profits which came to them. Many of the statements are beyond any yet put in print.

Collier's Weekly.

The current number of Collier's opens with a truthful picture of a vehicle of which all Americans have heard yet not one of them has seen—the horseless carriage, as it appears with its occupants and driver in the streets of New York. There is a double-page plate of the handsome new park which Chicago recently wrested from the bottom of Lake Michigan and the clutch of a railroad company. Other striking illustrations accompany a travel-sketch, "In the Path of the Prophet," and "The Wreck of the 'Royal George.'" The strained relations of Germany with China are the subject of a strong editorial, the quarrels of European powers in Africa are described, and the several departments are as full and entertaining as usual. With the succeeding number Collier's Weekly will introduce a brilliant group of new contributors and make notable changes of appearance, all of which will be for the better.

Pay Your Delinquency.

In view of the better times, and higher prices for grain etc., the publisher expects those indebted to THE TRIBUNE for subscription to make good their delinquencies at once. During the continued hard times and failures no effort was made to force the collection of subscription accounts, but now that the conditions have changed greatly for the better it is expected that these delinquencies will be promptly paid up. Statements will be sent out to all in arrears and with the expectation that all will appreciate our past indulgence and respond at once. THE PUBLISHER.

Convention Notes.

C. H. Roberts of Hastings has entered 25 chickens of various breeds.

George Randell of Earl enters Buff Leghorns, Black Minorcas, Plymouth Rocks.

Entries will be made from Minden, Oberlin, Stamford, Nelson, Mt. Claire, Imperial, Wauneta, Palsade, Lawrence, Indianola, Pearl, Neb., and Wray, Colo.

L. P. Ludden, ex-Secretary of the State Poultry association, writes that he expects to be here on the 2d, and will address the convention on the subject of poultry raising in Nebraska.

Frank T. Hawks and others from Orleans have signified purpose to enter chickens—there will be 6 or 8 pens of birds; C. T. Simpson, pen Wyandottes; Al Wicken, pen Black Minorcas; Mrs. L. J. Matu, White Plymouth Rocks; A. M. Beresford, Partridge Cochins; Oscar Devoe, Brown Leghorns; Frank T. Hawks, White Leghorns.

Peter Younger of Geneva, this state, was in McCook, Wednesday, and says the Farmers' convention and Poultry exhibit to be held here on the 2d and 3d of February, is attracting much attention and that we may look for a large attendance from abroad. Younger Bros. are successful farmers on the intensive plan of sub-soiling as well as surface cultivation. Peter Younger is Superintendent of the Horticulture department of the Omaha exposition. He was on his way to Colorado, and will arrange to be at McCook if possible.

That sterling farm journal, The Iowa Homestead, seems to be improving every week, even after further improvement seems impossible. We do not hesitate to say to the farmers of this county that they are not "living up to their privileges" if they fail to read it regularly, because nothing equals it as an agricultural paper for the western farmer, so far as our observation has gone, and our opportunities have been unusually good. The Special Farmers' Institute edition for February will discuss winter dairying, beef production, grain feeding and two interesting home topics. Everyone should read it, for remember that these discussions are not mere theory, but are carried on by actual farmers who live on the farm and give their own experience. The Homestead is only \$1, which price includes the Special Institute editions monthly. Send subscriptions or requests for free sample copies to Homestead Co., Des Moines, Ia.

During the past two years, Mrs. J. W. Alexander, wife of the editor of the Waynesboro, (Miss.) Times, has, in a great many instances, relieved her baby when in the first stages of croup, by giving it Chamberlain's Cough Remedy. She looks upon this remedy as a household necessity and believes that no better medicine has ever been put in bottles. There are many thousands of mothers in this broad land, who are of the same opinion. It is the only remedy that can always be depended upon as a preventive and cure for croup.
