In our advertising columns will be found an announcement of Ex-Senator John J. Ingalls' forthcoming book, entitled "America's War For Humanity." Canvassing agents will find in it a book of remarkable interest, and certainly of extraordinary salability. The history of the war is told in picture and story, and in a way that always characterizes the brilliant pen of Senator Ingalls. In narrating the incidents of this war he finds grand scope for his superb descriptive and analytical powers. The theme is worthy of the author, and the author is worthy of the theme. It is published by N. D. Thompson Publishing Co., of St. Louis, Mo. It will be a monumental work that will not only be everywhere read, but it will be a monument to his genius that will outlive in history his brilliant senatorial career. The subscription book trade and the canvassing agent are fortunate in the fact that an author of such rare ability has been enlisted in its interest.
