If you want to please some men just tell them they look like actors.

The way of truth is like a great road. It is not difficult to know it. The evil is only that men will not seek it.

To those visiting Denver we cannot say too much in praise of the American House. The table is one of the best in the country, and the service is unsurpassed any place. The artesian water used throughout the house is known everywhere for its purity. These facts and rate, \$2 per day, make it the most desirable house in Denver.

To silence the voice of conscience, follow its dictation.

Blood-Cleaning.
House-cleaning is a duty in every well-regulated household. People don't wait until the filth becomes painfully apparent, but it stands to reason that in every day use more or less dirt or dirt accumulates. It is so with the human blood. From the enormous variety of eatables taken into the stomach, a quantity of useless material is bound to accumulate in the blood and clog the free and wholesome flow in the vessels. Every person should from time to time have a "blood-cleaning" and the best cleanser and blood purifier is Cascaets Candy Cathartic. We recommend them to all our readers.

Zeal without knowledge is worse than dynamite.

COSMO BUTTERMILK TOILET SOAP makes the skin soft, white and healthy. Sold everywhere.

Departing modestly never buys a return ticket.

Beauty is Blood Deep.
Clean blood means a clean skin. No beauty without it. Cascaets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin today to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascaets—beauty guaranteed. All druggists, satisfaction guaranteed. 10c. or 25c.

STONE IN HER STOMACH.
From the Gazette, Blandville, Ill.
The wife of the Rev. A. R. Adams, past of the Bedford Christian Church at Blandville, Ill., was for years compelled to live a life of torture from disease. Her case baffled the physicians, but today she is alive and well and tells the story of her recovery as follows:

"About six years ago," said Mrs. Adams, "I weighed about 140 pounds, but my health began to fail and I lost flesh. My food did not agree with me and felt like a stone in my stomach. I began to bloat all over until I thought I had dropsy. I had pains and soreness in my left side which extended far across my back and also into the region of my heart. During these spells a hard ridge would appear in the left side of my stomach and around the left side.

"These attacks left me sore and exhausted. All last summer I was so nervous that the children laughing and playing nearly drove me wild. I suffered also from female troubles and doctored with ten different physicians without receiving any help.

"My husband having read in the newspaper of Dr. Williams' Pink Pills for Pale People, induced me to try them. I began taking them in late November but experienced no relief until I had taken six boxes. I am now taking the eleventh box and have been greatly benefited.

"I was also troubled with nervous prostration and numbness of my right arm and hand so that at times I could hardly endure the pain, but that has all passed away. I now have a good appetite and am able to do my own work. I have done more this summer than in the past four years put together. Dr. Williams' Pink Pills for Pale People cured me, and I think it my duty to let other sufferers know it."

Hundreds of equally remarkable cases have been cured by Dr. Williams' Pink Pills.

FROM TORONTO TO QUEBEC.
Something About an Attractive Pleasure Trip and How to Make It.

The famous Canadian corporation, the Richelieu and Ontario Navigation Company, has issued a Guide Book, entitled "Niagara to the Sea," which may be had by writing to the general offices of the company, 288 St. Paul street, Montreal, Canada, and which anyone who may be thinking of making a pleasure trip through Lower Canada this summer will find it advantageous to consult. The handsome and commodious steamboats of the company traverse a route which for picturesque beauty and historic interest is not surpassed, is barely equaled by any water highway in the world. Toronto, the western terminus of the line, a handsome, prosperous, bustling city, in itself is well worth a visit, is easily and expeditiously reached from Niagara Falls, and from the sail across Lake Ontario and down the St. Lawrence River, past Kingston, Brockville, Prescott and Cornwall and other well-known places to Montreal and Quebec is distinguished by a varied and abiding charm.

The tourist passes among the far-famed Thousand Islands, and, although he must not expect to see the best of them from the deck of the boat, he will be able to get an idea of the secret of their singular attractiveness. If the season is propitious—that is, during the months of July and August—he will experience the peculiar sensation known only to those who have shot the Lachine and the Long Sault Rapids, and when he reaches Montreal he will find himself in a city which combines many of the graces of the Old World with all the energetic progressiveness of the new. Should he continue his journey to Quebec, he will feel as though he had crossed the Atlantic and arrived at some ancient European capital. Montreal is in most things as modern as New York, but Quebec, although by no means wanting in the conveniences of life, seems to belong to a bygone century and to another world. It is essentially foreign in all the varied aspects of its life.

From Quebec it is but a short journey to the Saguenay River, which, in the wild and awful sublimity of its environment, is beyond compare.

ELECTRIC LIGHTING.
METHODS OF OPERATION ON STEAM RAILWAYS.

Can Not Be Run by Regular Train Power on Account of Stops—Methods in Vogue on European Railroads—Some Novel Ideas.

From the New York Tribune: The two systems of electric lighting which are best known in America rely chiefly on the generation of the necessary current by a dynamo in the baggage car. In one there is a steam engine coupled to the dynamo and taking steam from the locomotive boiler. This is the practice on the Chicago, Milwaukee and St. Paul road. On other lines the attempt has been made to drive the dynamo with belt-ing or a sprocket chain, from an extra wheel on the car axle. The latter plan would work only when the car was in motion were not a few cells of storage battery employed to supply the lights with current when the train came to a stop. This resource is also necessary in sleepers which stand in a terminal station for half an hour before the train starts or on a sidetrack at a junction, waiting for the train on the trunk line to come along. In Europe, on the other hand, it is customary to rely entirely on the storage battery, and not to generate the electricity on the train at all. At certain stations, usually terminal stations, the battery is taken out for charging, and one already charged is quickly substituted. Where runs of only 100, 200 or 300 miles are made, the number and weight of the accumulators would not be a serious consideration, perhaps, but in America, where a person rides 1,000, 2,000 or 3,000 miles in the same car, the storage battery system is almost out of the question. The cells would be so numerous and bulky as to require more space than can well be spared. In some respects America is ahead of Europe in the matter of electric conveniences on railway trains. On certain western roads the limited expresses, like first-class hotels, have electric heaters for women's curling irons. A correspondent of the Railroad Gazette, complaining of the slow progress of electric train lighting in this country, supplies some particulars as to the extent of the practice on the other side of the Atlantic. He writes from Berlin, and says: "The electric system of car lighting extends itself every day more over all Europe, and it certainly is a queer coincidence that at the same period when Secretary Thiele, in whose sphere of administration gauglight is exclusively employed, proclaimed himself against the electric system the general direction of the state railroads of Denmark resolved to introduce electric car lighting on all its lines. All the railroads on the island of Zealand, on which Copenhagen is situated, have already electric lights. A few days ago we received orders to furnish the storage batteries for lighting the trains on all the lines of the islands of Falster and Fuhnen. At the same time they resolved to establish a charging station for storage batteries at Struer, in Jutland, to enable them to begin next year with the introduction of electric car lighting on all the lines in Jutland. The railroads in Switzerland will now adopt electric car lighting, following the example of the Jura-Simplon railroad, so that in a few years all cars on the Swiss railroads will be provided with electric light. Almost all the private railroads of Sweden and Norway have electric light, also many German and Austrian private railroads, for instance the Dortmund-Gronau-Euscher, the provincial railroad of Westphalia, the Altmann-Coburg, the Marienburg-Mlawka, the Prignitzthal, the Mecklenburg-Fredrich-William, the Wittenberg-Perleberg, the Arad-Czanad, etc. The Emperor Ferdinand Northern and the Royal Hungarian railroad introduced the system more and more. While in the beginning of 1895 in all Europe about 2,000 cars had electric light, there must be now more than 6,000."

Keen One of Them.
One day a pompous little fellow at a dinner table was boasting of the great man with whom he was on intimate terms. He had been in constant correspondence with Longfellow, had lunched with Tennyson, was in friendly relations with the Prince of Wales, and, in short, knew everything and everybody. At length a quiet individual at the further end of the room broke in on the conversation with the question: "My dear sir, did you happen to know the Siamese Twins when they were in this country?"

Our hero, who evidently had a talent for lying, but no real genius, at once replied: "The Siamese Twins, sir? Yes, sir, I became very intimate with one of them, but I never had the good fortune to meet the other."

To Paint an Old House.
"I have painted all sorts of houses in my time," said the painter, "but I never had more satisfaction out of a job than I did out of the work I accomplished on Flannigan's old house. The weatherboards were old and grey. I knew they would soak up a lot of paint, and tried an experiment. Out of rye flour and glue I made a strong liquid paste, using eight pounds of glue for the whole house (which was a small one). The paste I applied as hot as possible and let it dry thoroughly. On this 'body' I painted, using good white lead and oil, and I never knew paint to look better, last longer, or in every way give more satisfaction."

THANKFUL TO MRS. PINKHAM.
Earnest Words From Women Who Have Been Relieved of Backache—Mrs. Pinkham Warns Against Neglect.

DEAR MRS. PINKHAM:—I have been thankful a thousand times, since I wrote you, for what your Vegetable Compound has done for me. I followed your advice carefully, and now I feel like a different person. My troubles were backache, headache, nervous tired feeling, painful menstruation and leucorrhoea.

I took four bottles of Vegetable Compound, one box of Liver Pills, and used one package of Sanative Wash, and am now well. I thank you again for the good you have done for me.—ELLA E. BRENNER, East Rochester, Ohio.

Great numbers of such letters as the above are constantly being received by Mrs. Pinkham from women who cheer their health and happiness to her advice and medicine.

Mrs. Pinkham's address is Lynn, Mass. Her advice is offered free to all suffering women who are puzzled about themselves.

If you have backache don't neglect it or try heroically to "work it down," you must reach the root of the trouble, and nothing will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Backache is accompanied by a lot of other aches and wearying sensations, but they nearly always come from the same source. Remove the cause of these distressing things, and you become well and strong. Mrs. S. J. SWANSON, of Gibson City, Ill., tells her experience in the following letter:

"DEAR MRS. PINKHAM:—Before using your medicine I was troubled with headache and my back ached so that I could not rest. Your medicine is the best I have ever used; it has relieved me of my troubles, and I feel like myself again. Thanks to Lydia E. Pinkham.

"I would advise any one troubled with female weakness to take your medicine. I shall also recommend it wherever I can as a great reliever of pain."

The hair

is like a plant. What makes the plant fade and wither? Usually lack of necessary nourishment. The reason why Dr. Ayer's Hair Vigor restores gray or faded hair to its normal color, stops hair from falling, and makes it grow, is because it supplies the nourishment the hair needs.

"When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald, and, for a long time, I feared I should be permanently so. Friends urged me to use Dr. Ayer's Hair Vigor, and, on doing so, my hair immediately began to grow, and I now have as luscious and fine a head of hair as one could wish for, being changed, however, from blonde to dark brown."—Mrs. J. H. ROMAN, 152 Pacific Ave., Santa Cruz, Cal.
