Mrs. Anton Sada, of Cumings county, who went to Germany to reside several months ago, is back again, the German government refusing her permission to remain in that country. This refusal is said to be based on the ground that no immigrant is permitted to remain in that country who does not come provided with at least \$500 in cash for each member of the family.

A royal welcome was given at Loup City to Ashley F. Conger on his return from Santiago de Cuba, where he was Loup City's only hero of the battle of El Caney. About one hour before the arrival of the B. & M. train Senator Conger received a telegram that his son was coming. Over 200 citizens, headed by fire and drum, went to the depot to join in the reception.

The horned rabbit which was captured some time ago in the country east of this city, says the Lincoln Journal, has been prepared and preserved at the state farm. The rabbit is not the representative of any particular class but it is a freak. The growth of horns upon its head is an abnormal peculiarity such as a three legged calf. The animal will be placed in the museum.

J. C. Pugh of Cedar Rapids, Iowa, arrived in York and identified one of the horses found in Henry Getchell's possession when arrested at Hastings a few weeks ago, as one of a team Getchell stole from him since the Miller team was stolen from here, some seven months ago. Getchell seems to have quite a record as a horse thief. While at Marysville, Kas., with the team he stole from Pugh, he traded the horse identified in York, to a farmer and then afterwards stole the horse from the man.

The new Christian church at Fremont was dedicated last Sunday. Work was begun on the building May 14 and it was completed a short time ago and opened for worship last Sunday. It is a commodious, though unadorned structure sixty-four by thirty-eight feet, with a vestibule eight by ten and a robing room and study twelve by thirty-two feet. It presents a striking appearance owing to the fact that it much lower than ordinary churches. The furnishings are in keeping with the building.

A quarter section of land lying west of Nebraska city, which was the property of the late Dana Beasley, has been sold to Henry Heye, Jr., for \$10,000. Messrs. Various newspaper reports have mentioned the illness and death of Sergeant Evans, but located him in another company. It appears from what can be learned that he had a leg amputated and that death resulted from the shock.

A case of desertion was brought to light at Fremont. THE WOMEN KISSED SCHLEY.

Enthusiastic Ovation Tendered to the Hero of Santiago.

NAVY DEPARTMENT CROWDED.

Admirers of the Sailor Cheer Him and Shake Him by the Hand—In Striking Contrast to the Chilly Greeting Accorded Sampson a Few Days Ago.

WASHINGTON, Aug. 29.—Admiral Schley received a great demonstration at the navy department to-day. He came to the navy department quite early, and after a call upon Acting Secretary Allen he emerged from the main door of the secretary's office. His presence in the building had become known, however, and as soon as he was seen cheers came from the clerks, who assembled to catch a glimpse of the hero of Santiago. The officers and clerks from the navy, state and war departments crowded the corridors leading up to the navy department until it was impossible to pass through. They crowded around the admiral, eagerly reaching forward to shake his hand. The women clerks were even more demonstrative, and the admiral was kissed by old and young without discrimination. It was finally necessary to form a line and pass the crowd around through the large rooms of the secretary's office in order to give them a chance to shake hands with the admiral.

Many prominent army officers took part in the demonstration. The admiral finally escaped into Captain Crowninshield's office.

The ovation given Admiral Schley was in striking contrast with the chilly greeting accorded Admiral Sampson a few days ago, when he visited the navy department.

Admiral Schley will leave Washington this afternoon for Annapolis. After a short stay there he will proceed to Baltimore before starting for Porto Rico. His visit to the department this morning was for the purpose of meeting his old friends and making a few minor requests in behalf of officers and men of his fleet.

He expects to sail for Porto Rico next Wednesday with the military commission.

THE VESUVIUS HOME AGAIN.

Officers Say the Dynamite Cruiser Proved a Complete Success.

NEW YORK, Aug. 29.—Admiral Sampson's squadron down the bay has been increased by the arrival of the Vesuvius. The dynamite cruiser—"hurler of earthquakes," as the Spaniards christened it—came up from Guantanamo, Cuba, whence it sailed August 18. "Its guns were effective in their work," said Commander John E. Pillsbury. "You can say the Vesuvius is a great success," added another officer. Twenty-six shots in all were fired by the dynamite cruiser at the batteries commanding the entrance to Santiago harbor. They contained charges of gunpowder varying from 100 to 200 pounds.

As to the alarm the Vesuvius' shots created and the damage they caused, abundant evidence was obtained from captured officers and men of Cervera's fleet. Captain Concas of the Spanish flagship, the Maria Teresa, told Commander Pillsbury that one of the Vesuvius' shells struck the barracks between the lighthouse and Moro castle and killed over 100 soldiers.

NEW YORK, Aug. 29.—A dispatch from Ponce, Porto Rico, says: General Stone, who has just returned from the vicinity of Arecibo, reports that a state of anarchy exists in the country districts. General Stone says that the people are terrorized and are praying for American protection. The Spaniards formerly covered the country with a mounted police. Our forces have not yet been put in charge. It is said the natives and the Spaniards "are busy cutting each other's throats."

SECRETARY ALGER TALKS.

Conditions at Camp Wikoff Not as Bad as He Expected.

NEW YORK, Aug. 29.—Secretary Alger arrived in this city last night, and is at the Fifth Avenue hotel. In an interview he said:

"I did not find the condition of Camp Wikoff nearly as bad as I had expected. I cannot see that there is any justification in the talk that neither the ill nor well soldiers are properly treated. I think there are splendid accommodations for all soldiers who will go to Camp Wikoff, and especially now that so many have been given furloughs. Thursday I received offers from New York and Brooklyn hospitals to take at least 300 sick from the camp."

Secretary Alger was asked: "How do you account for the confusion and lack of facilities at Camp Wikoff?"

To this General Alger replied: "Did you ever go into camp with 100 or even fifty men? If so, you know there is much confusion with that number of men. What do you suppose it must be then with thousands of men who know but little about soldiering? There may appear to be much confusion and privation, but it is only what is to be expected in roughing it. On many occasions I myself have been in camp and have encountered these things. I found many soldiers lying with nothing but a blanket between them and the ground. Still there were thousands of bags in camp. I asked the men why they did not fill the bags with straw, of which there was a large quantity in camp, and so make beds for themselves. They said they had not thought of such a thing."

CASE OF THE OLIVETTE.

Surgeon in Charge Says the Ship Was in Terrible Condition.

TOLEDO, Ohio, Aug. 29.—Dr. Phil Reig, surgeon in charge of the Olivette on its last trip, said last night:

"The Olivette was certainly in terrible condition. It had more patients than it should have had. I was the only surgeon working, and I had no medicines for the fever patients. All I could do was to let them die. As far as provisions were concerned, they were plentiful, but not of the proper kind. When we reached Boston, many had died of exhaustion. I do not know who was to blame for loading the transport in such a manner."

Dr. Reig, whose home is in Toledo, is chief surgeon of the Marine hospital at Boston. He was on the Olivette twenty-two days.

SITUATION HAS BECOME ACUTE

Relations Between England and China Exceedingly Strained.

LONDON, Aug. 29.—The Pekin correspondent of the Daily Mail says: The situation has become acute. The relations between the Tsung Li Yamen and Sir Claude MacDonald, the British minister, are strained to the point of rupture. Sir Claude MacDonald has intimated that any failure by China to observe Great Britain's wishes will be accepted as a casus belli.

In support of Sir Claude MacDonald, the fleet has been concentrated at Wei Hai Wei and Hankow, and all the war ships under 5,000 tons have been mobilized in the Yangtze river. The naval demonstration is solely directed against China, as it is semi-officially stated that the existing relations with Russia are cordial.

There were eleven cases in the regiment when it arrived, and to-day there are over thirty, many of them very serious. The physicians lay the blame on the unsanitary conditions at Chickamauga. The entire regiment is in bad shape, many of the men who are not in hospitals being so weak that they are almost unable to move around.

FIVE YEARS FOR DR. DUNCAN

Surgeon of Twenty-Second Kansas Sentenced.

CONVICTED BY COURT-MARTIAL

Dug Up the Grave of a Confederate Officer on the Battle Field of Bull Run—Was a Graduate From the Kansas Medical College of Topeka.

CAMP MEADE, Middleton, Pa., Aug. 29.—The court-martial in the case of Dr. Louis C. Duncan of the Twenty-second Kansas, found him guilty of desecrating the grave of a Confederate officer at the Bull Run battlefield and he was sentenced to an imprisonment of five years. The sentence must be submitted to the President for approval.

The offense for which Dr. Duncan was convicted was committed the first of the month when the Kansas regiment was near Union Mills, Fairfax county, Va., on the march from Camp Alger to Manassas. Soldiers were found digging up the graves of Confederate soldiers on the battle field of Bull Run. An officer, whom several witnesses claimed to have recognized as Dr. Duncan, was with the grave diggers and at times handled a shovel. Two soldiers of an Indiana regiment, Masons, recognized Masonic emblems on the foot stone and protested. When their protests were unheeded they went to the officer of the day, who reported the matter to the colonel. Dr. Duncan's arrest followed shortly.

Charges were filed charging the surgeon with desecrating the grave of Major T. J. Duke of the Cabane rifles, an Alabama regiment. The court-martial was composed of thirteen officers: Brigadier General Cole, Colonel Abbott, Hoffman and Kavanagh, Lieutenant Colonel Petterson and Waggar, Majors Fee, Slavin and Fleming and three captains. General Cole was president and Major Stringfellow of Missouri judge advocate. Major Harvey, lieutenant governor of Kansas, acted as Duncan's counsel. Duncan tried to prove an alibi, but failed, in the judgment of the court.

Dr. Duncan was ranking surgeon of the Twenty-second. He was graduated from the Kansas Medical college of Topeka and was assistant surgeon in the state asylum for the insane for several months. Afterwards he was government surgeon at an Indian school at Anadarko, I. T. He was appointed to his position from Meriden, Kan. It is said that he had trouble in Kansas over the desecration of graves while a medical student.

PRESIDENT AT CAMP MEADE.

Hurried Inspection of the Grounds Made by Mr. McKinley and His Party.

CAMP MEADE, Middleton, Pa., Aug. 29.—President and Mrs. McKinley spent an hour to-day at Camp Meade on the way to Somerset, Pa., for a short vacation. General Graham had ordered a marching review in honor of his distinguished guests, but at their request the order was revoked.

The President and Mrs. McKinley reached here at 1 o'clock on a special train from Washington and were met by General Graham and staff and the First Delaware regiment, which was detailed as guard of honor.

After a hurried inspection of the quarters of the general and his staff, President and Mrs. McKinley were driven through the camp. The company streets were scrupulously clean and the men looked their best. The President was much pleased with the location of the camp and the appearance and condition of the men. The various regiments were drawn up in line to receive the party when they arrived at their quarters. The President visited the division hospital and the hospital which the Red Cross society of Philadelphia has established for the care of the most serious cases.

HITCH OVER SAMOA.

Serious Trouble With Germany Seems Possible.

NEW YORK, Aug. 29.—A dispatch to the Herald from Washington says: "Trouble is brewing over the Samoan islands, which under the treaty of 1890 are governed under a joint protectorate by the United States, Germany and Great Britain. Germany had marked the islands for her own before the treaty was negotiated, but her scheme for absorbing them was blocked chiefly by the United States, which, by the treaty of 1878, had acquired the right to establish a naval station at Pago-Pago harbor, and had virtually established a protectorate over the islands."

"Under the tripartite arrangement, Germany has been a disturbing factor and has endeavored to procure advantages superior to those of the United States and Great Britain. Mr. Cleveland favored withdrawing from the joint protectorate, but President McKinley is determined to retain all rights in Samoa guaranteed to this country by the treaty. He is now taking steps to improve and fortify Pago-Pago harbor, and dispatches from Europe show that Germany does not like this action."

SPANIARDS COMPLAIN.

Bitterly Accuse the Americans of Breaking Promises.

LONDON, Aug. 29.—The Madrid correspondent of the Daily Mail says the officers and soldiers who have returned from Santiago de Cuba bitterly accuse the Americans of unfulfilled promises made at the time of the capitulation of Santiago. The Americans, they say, forced the Spanish troops to encamp on a spot where hundreds of corpses of the Spanish defenders of El Caney were buried. The rains allowed the unburied bodies, the stench from which produced an epidemic. The Americans, the Spaniards assert, kept the latter without food, and the officers received only tinned sardines. Most of them returned seriously ill from the results of prolonged hunger. Several died daily.

The government has resolved, the correspondent says, "to appoint the ex-Spanish consul at Key West as diplomatic agent at Washington until peace shall have been signed."

THEY BEGRUDGE US LUZON.

The President's Intention to Hold the Island Arouses Spain.

LONDON, Aug. 26.—A dispatch to the Standard from Madrid, by way of France, says: "A very unfavorable impression has been caused in Madrid by telegrams attributing to President McKinley the intention of instructing the peace commissioners to insist upon the cession of Luzon, that American commerce should have the same footing as Spanish in the Philippines, and that Spain should pledge itself that none of the Spanish colonies should be ceded to European powers. If such are the intentions of the United States government, the negotiations are sure to be laborious, even if an understanding is ever arrived at. The Spaniards consider the cession of Luzon, their best and most important island, to be a death blow to their prestige and sovereignty in these regions, and that this would be irretrievably weakened and crippled by the presence of Americans in the heart of their colonies."

"Commercial equality with the United States in the archipelago would annul the only advantage and compensation which they might have expected to have derived from the cost and sacrifices which have been necessary to maintain their rule in the archipelagoes. The separation of church and state would be most unpalatable to most Spaniards, and would create grave difficulties in their relations with the Vatican and the church, let alone the powerful religious orders in Spain, which are always disposed to side with Don Carlos against the present dynasty."

"Last, but not least, any pledge to refrain from ceding any part to the powers would displease many statesmen and people of all classes who are daily more and more inclined to advocate the sale of the Spanish archipelagoes to the highest bidder, especially to Continental powers most likely to be in position to arrest the growth of American political and commercial influences in the far East."
