years previous. He went away a happy, healthy farmer boy in the first flush of vigorous manhood; he came back a ghost of the self that answered to President Lincoln's call for "300,000 more."

To-day he is an alert, active man and tells the story of his recovery as follows: "I was a great sufferer from sciatic rhenmatism almost from the time of my discharge from the army. Most of the time I was unfitted for manual labor of any kind, and my sufferings were at all times intense. At times I was bentalmost double, and got around only with the greatest difficulty. Nothing seemed to give me permanent relief until three years ago, when my attention was called to some of the wonderful cures effected by Dr. Williams' Pink Pills for Pale People. I had not taken more than half a box when I noticed an improvement in my condition, and I kept on improving steadily. I took three boxes of the pills, and at the end of that time was in better condition than at any time since the close of my army service. Since then I have never been bothered with rheumatism, Dr. Williams' Pink Pills for Pale People is the only remedy that ever did me any good, and to them I owe my restoration to comparative health. They area grand remedy."

CLEVER SCHEME OF A SAN FRANCISCO MAN.

Almed to Get the Insurance-Story Lacked Coherence and the Detectives Managed to Convince the Would-Br

The police detectives have proved that W. S. Wood's thrilling tale of burglary, with its chloroform accompaniment, is a clumsy fabrication. The diamond-studded watch, valued at \$175, which was said to be a part of the booty taken by the burglars, has been found by the police and Wood has identified it and has been compelled to put himself on record as a confessed fraud, says the San Francisco Chronicle.

The Wood couple occupy a very modest 4-roomed flat of which the furniture is appraised by the police at about \$200. The husband has had but uncertain employment, and is not a person whom thieves would ordinarily select as a promising prey. That criminals so ingenious and desperate as those must have been to make the clean-up described by Wood, his wife and their boarder, Halverson, should take so much trouble to ransack a humble flat was considered incredible from the start and at variance with the habits of burglars. The circumstances that the bunch of skeleton keys was found dangling from the door of the adjoining flat and a black bag containing plated ware at the fcot of the stairs were also regarded with suspicion. Nor were the police ready to believe that chloroform had been used, as the symptoms described were not those usually observed in such cases. In addition to all these reasons for incredulity was the fact that Wood admitted that all the doors of the flat were open.

When it was learned that Wood had

aken out on May 4 a policy for \$1,000

with a New York company against

burglars the story of the alleged rob-

bery was regarded with even greater

suspicion and Detectives Fitzgerald

and Graham were detailed to make a

thorough investigation. They found

that Wood had never been regularly

employed by a certain firm which he

claimed to be working, but had done

some work for it on commission, his

connection with it having been com-

pletely severed some time ago. He

said that it was fortunate that his firm

## Stop! Women. And Consider the All-Important Fact

That in addressing Mrs. Pinkham you are confiding your private ills to a woman-a woman whose experience in treating woman's diseases is greater than that of any living physician-male or female.

> You can talk freely to a woman when it is revolting to relate your private troubles to a man-besides, a man does not understand-simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered; accept it in the same spirit:

MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance .- Lydia E. Pinkham Medicine Co., Lynn, Mass.

"The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year."

important still was the information that on June 14 Wood had borrowed from a member of the firm the sum of \$40 on a diamond-studded watch, which was safely reposing in the company's safe. Inquiry of the burglary insurance company revealed the fact that on the day the watch was pawned Wood had paid the premium on his policy, amounting to \$12.75.

Wood and his wife were summoned the other night by the captain of police to appear at his office. After verifying the description of the watch alleged to have been stolen they were confronted with the time piece that had been pawned and were forced to admit that it was the same watch. Then the captain indignantly charged them with their duplicity and dismissed them from his office.

It has not been announced by the insurance people what action they will take, but as Wood made application for \$737, the value he placed upon the articles said to have been stolen, and as they had detectives working on the case, it is presumed by the police that Wood has not yet heard the last of the experience with fictitious burglars.

## She and the Hog.

Into the hands of an elderly matron of much dignity and some distinction came, not long ago, the diary kept by her father, a worthy but imperfectly literate farmer of a remote country village. With a cluster of her own children gathered about her and peeping over her shoulder, she turned the faded leaves of the little volume containing the records of the year in which she was born, and paused finally at the day of her birth. This is what she read: "Nov. II killed the hogg the scales bruk wen whaying so do not nowe exact wayt but he was a very fine hevy hogg darter Loisa b. 71/2 pounds." It was not an entry to enhance the self-esteem of "darter Loisa," perhaps, but it is one now often hilariously quoted by her children and never resented by herself. even though it relegates so unmistakably to second place after the hog in the ancestral annals, such a trifle as the advent of a baby not heavy enough to break any scales, or merit a commendatory adjective.
