

# FIFTY YEARS OLD

Why let your neighbors know it? And why give them a chance to guess you are even five or ten years more? Better give them good reasons for guessing the other way. It is very easy; for nothing tells of age so quickly as gray hair.

## Ayer's Hair Vigor

is a youth-renewer. It hides the age under a luxuriant growth of hair the color of youth. It never fails to restore color to gray hair. It will stop the hair from coming out also. It feeds the hair bulbs. Thin hair becomes thick hair, and short hair becomes long hair. It cleanses the scalp; removes all dandruff, and prevents its formation. We have a book on the Hair which we will gladly send you. If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address, Dr. J. C. Ayer, Lowell, Mass.

Lorenzo Snow, the new head of the Mormon Church, is 84 years old and is a graduate of Oberlin College.

**The Cost of Freeing Cuba.**  
The United States are entitled to retain possession of the Philippine Islands if the peace commissioners so decide, for the cost of the war runs far into the millions. To free the stomach, liver and bowels from disease, however, is not an expensive undertaking. A few dollars invested in Hostetter's Stomach Bitters will accomplish the task.

Don't judge a poet by his dress; fine feathers don't make fine bards.

**Bleed is Blood Deep.**  
Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic cleans your blood and keeps it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets,—beauty for ten cents. All druggists, satisfaction guaranteed, 10c, 25c, 50c.

Don't take your watch to a physician because it is run down.

**A DOMESTIC INCIDENT.**  
From the Observer, Flushing, Mich.  
"Early in November, 1904," says Frank Long, who lives near Lennon, Mich., "on starting to get up from the dinner table, I was taken with a pain in my back. The pain increased and I was obliged to take to my bed. The physician who was summoned pronounced my case muscular rheumatism accompanied by lumbago. He gave me remedies and injected morphine into my arm to ease the pain.  
"My disease gradually became worse until I thought that death would be welcome release from my sufferings. Besides my regular physician I also consulted another, but he gave me no encouragement.

**On Getting Up from the Table.**  
"I was finally induced through reading some accounts in the newspapers regarding the wonderful cures wrought by Dr. Williams' Pink Pills for Pale People, to try them. I took the pills according to directions and soon began to notice an improvement in my condition. Before the first box was used I could get about the house, and after using five boxes, was entirely cured.  
"Since that time I have felt no return of the rheumatic pains. I am confident that Dr. Williams' Pink Pills saved my life and I try to induce my friends who are sick to try the same remedy. I will gladly answer inquiries concerning my sickness and wonderful cure, provided stamp is enclosed for reply.

**Do Your Laundry Work at Home—How to Get the Best Results.**  
You should use the latest improved Cold Water Laundry Starch for fine work. Keith's Enamel Starch gives a most beautiful, clear, pearl-like finish, and an elastic stiffness that will stand any amount of bending, and an enamel gloss that will stand damp, foggy weather. Will not blotch and will not stick to the iron. Can be used on black, red or other colored goods without the faintest trace of white, and on white goods finishes whiter in color than any other starch. It shows every thread of linen, thus giving a high polish and a beautiful finish. Enamel Starch contains no ingredients which can injure any fabric. Some think that the starch they have been using is all right. We used to think the tallow candle gave a very good light, but after using electric light, we wonder how we ever got along with the candle light. It is the same with starches; you have used the lump and common cold water starches and made no complaint because you have never had the genuine Keith's Enamel Finishing, Labor Saving, Cold Water Starch, but after you once get accustomed to using it you will wonder how you ever got along with the other starches. Keith's Enamel Starch will do more work, do it with less labor and do it better than any other starch. Ask your grocer for Keith's Enamel Starch; a trial will convince you that it is in every respect the most perfect starch made.

**GOWNS FOR KLONDIKE BELLES**  
Sells Silks, Flimsy Laces and Lingerie at Fabulous Prices.  
A solid little fortune with shimmering silks, flimsy laces and dainty lingerie for its basis, the result of thirty days spent in Dawson last summer, is the modest boast of Mrs. Nellie Humphrey, a pretty, black-eyed young woman who has been in Seattle preparing for another trip into the metropolis of the far north.  
It was the quick wit, business sagacity, and, last but not least, the pluck of Mrs. Humphrey that enabled the fair sex of Dawson to revel again after months of deprivation in the frills and fancies of dress so dear to the feminine heart. That masculine pocket-books were quick to open in response to such demands was evidenced by the way in which Mrs. Humphrey's stock in trade disappeared. It melted away as did the snows in the arctic sunshine. Mrs. Humphrey says she is really ashamed to tell what her goods brought her—that it would be ridiculous. But it is a fact that her entire capital risked on the one lucky venture did not exceed \$2,000. She sailed from Seattle last Wednesday with a far larger stock of the finest goods of the kind mentioned. Her faith in the gold fields is evidenced by the fact that she says she will stay in Dawson but four months, and intends to bring back to Seattle just \$65,000. Dawson's belles simply went crazy over Mrs. Humphrey's stock, and asked the price of nothing. Here is the way the latter tells about it: "The prices I got for some of my goods were simply shameful; so exorbitant that I can't bear to tell of them. But what else could you expect when flatirons were selling for \$65 a pair, brooms for \$16 each, and moose-steak cut as thin as a bridal veil for \$2 an invisible pound? I was almost forced to sell the very clothes off my back. One old habit I had almost worn out sold for \$200. Several hats brought as high as \$125 each. Ladies' shoes I sold for \$50 a pair."—Seattle Post-Intelligencer.

**HOW TYPHOID FEVER IS SPREAD**  
Typhoid fever is generally regarded at the present day, along with cholera and some other diseases, as belonging to the class of "water-borne" affections. In other words, it is believed that the germs of such diseases are carried, and perhaps propagated, in water. There is little doubt that this theory of typhoid fever is correct, and that in tracing any extended epidemic of the disease to its source we must first of all examine into the condition of the water supply.  
Drinking water has been proved to be the cause of the spread of typhoid fever in many epidemics in this country and England; but there is little comfort in this for those who habitually drink something stronger than water, because, although during an epidemic the drinking water may be made safe by boiling, this is not enough.  
If the water is contaminated, the germs may be introduced into the body while brushing the teeth or washing the face. Or again, salads and fruits which are eaten raw may be contaminated by the water in which they are washed. Typhoid fever has sometimes been spread in a city whose water supply was above reproach by means of milk or ice.  
Milk need not be watered in order to become a vehicle for typhoid germs; the germs may be introduced into cans and bottles while these are being washed in water drawn from a contaminated well or brook at the dairy. Although destroyed by boiling typhoid germs will resist a freezing temperature for a long time, and have been found in ice cut from a pond poisoned with sewage containing the bacilli of this disease.  
Another means of the spread of typhoid has recently been discovered in oysters. Oystermen frequently place oysters in brackish water near the mouth of a creek or river in order to fatten them before they are brought to market. If this place happens to be near the mouth of a sewer containing typhoid poison, or if the creek water be contaminated, the oysters will take the virus within their shells, and so revenge themselves on those who eat them raw.  
In some puzzling cases of typhoid it has been supposed that the food was infected by flies, which had carried the germs a long distance on their feet—a strong argument for the proper care of food in the fly season.  
These are only a few of the ways in which this disease may be spread, but they are enough to show that, so far from feeling surprise that the disorder should be so common, we may rather wonder that we are not all its victims.

**Coughs of an Engine.**  
The cough, or puff, of a railway engine is due to the abrupt emission of waste steam up the chimney. When moving slowly the cough can be heard following each other quite distinctly, but when speed is put on the puffs come out one after the other much more rapidly, and when eighteen coughs a second are produced they can not be separately distinguished by the ear. A locomotive running at the rate of nearly seventy miles an hour gives out twenty puffs of steam every second that is, ten for each of its two cylinders.

**MRS. PINKHAM TALKS TO THE FUTURE WOMAN.**

Will the New Generation of Women be More Beautiful or Less So? Miss Jessie Ebner's Experience.

A pleasing face and graceful figure! These are equipments that widen the sphere of woman's usefulness. How can a woman have grace of movement when she is suffering from some disorder that gives her those awful bearing-down sensations? How can she retain her beautiful face when she is nervous and racked with pain?

Young women, think of your future and provide against ill health. Mothers, think of your growing daughter, and prevent in her as well as in yourself irregularity or suspension of nature's duties.

If puzzled, don't trust your own judgment. Mrs. Pinkham will charge you nothing for her advice; write to her at Lynn, Mass., and she will tell you how to make yourself healthy and strong.

Lydia E. Pinkham's Vegetable Compound strengthens the female organs and regulates the menses as nothing else will. Following is a letter from Miss JESSIE EBNER, 1712 West Jefferson St., Sandusky, Ohio.

"DEAR MRS. PINKHAM:—I feel it my duty to let you know of the great benefit your remedies have been to me. I suffered for over a year with inflammation of the ovaries. I had doctored, but no medicine did me any good. Was at a sanitarium for two weeks. The doctor thought an operation necessary, but I made up my mind to give your medicine a trial before submitting to that. I was also troubled with leucorrhœa, painful menstruation, dizziness, nervousness, and was so weak that I was unable to stand or walk. I have taken in all several bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and am now in good health. I will always give your medicine the highest praise."
