Great interest is being manifested in a lecture of Dr. J. P. D. John, ex-president of DePaul university, which is to be given in this city, Tuesday evening, November 15th, at the Methodist church. This great lecture, which has attracted world wide attention and called forth thousands of columns of favorable criticism from the daily press, is in the nature of a reply to the teachings of agnosticism in general and to the essays and lectures of Col. R. G. Ingersoll in particular. Dr. John is a man of magnificent brain power and is everywhere recognized as a careful and profound thinker, and an eloquent and most entertaining speaker. We trust that our people will avail themselves of the opportunity of hearing a great theme discussed by one of our greatest platform orators.

DeWitt's Colic & Cholera Cure.

Pleasant, Quick Results, Safe to take.

"I can't see how any family lives without Chamberlain's Colic, Cholera and Diarrhoea Remedy," says J. R. Adams, a well known druggist of Geneva, Ala., in a letter inquiring the price of a dozen bottles, that he might not only have it for use in his own family but supply it to his neighbors. The reason some people get along without it, is because they do not know its value, and what a vast amount of suffering it will save. Whenever it becomes known and used, it is recognized as a necessity, for it is the only remedy that can always be depended upon for bowel complaints, both for children and adults. For sale by L. W. WOMEN IN TROUBLE.

The Approach of Motherhood is the Occasion of Much Anxiety to All.

Every woman dreads the ordeal through which she must pass in becoming a mother. The pain and suffering which is in store for her is a source of constant anxiety, fear and dread, to say nothing of the danger which the coming incident entails. The joyous anticipations with which she looks forward to baby's coming gives way to an indescribable dread of the ordeal when she fully realizes the critical and trying event which will soon approach and have to be endured.

Women should hail with delight a remedy which insures to them immunity from the pain, suffering and danger incidental to child-bearing. Such a remedy is now offered, and women need not fear longer the hour of childbirth. "Mother's Friend"—is a scientific liniment—and if used before confinement, gently and surely prepares the body for the great requirements and changes it is undergoing, insures safety to both mother and child, and takes her through the event with comparative ease and comfort. This wonderful remedy is praised by every woman who has used it.

What woman is not interested in "Mother's Friend"? This wonderful remedy has been tested and its priceless value proven by the experience of thousands of happy mothers who have used it during the most critical period of woman's life—the approach and culmination of motherhood.

It has won their everlasting praise, for it gave them help and ease in their most trying hour and when most needed. Every woman may some day need "Mother's Friend." The little book, "Before Baby is Born," telling all about it, and when it should be used, will prove of great interest and benefit to all expectant mothers, and will be sent free to any address upon application to the Bradfield Regulator Company, Atlanta, Ga.
