

ANOTHER severe blow has been aimed at Populism in a western Kansas town.

A MISSISSIPPI court has ruled that "damn" is a profane word and punishable under the laws, and the politicians of that state are searching the vocabulary for something just as good.

THE latest trusts are in prunes, buggy whips and derby hats. The blow has fallen like a bolt from a clear sky upon a prune-loving public.

THE fact is being accentuated in several states of the union, just now, that United States senators ought to be selected by the direct vote of the people.

CAMBRIDGE is evidently making substantial arrangements to have a new paper published in that enterprising town.

THE world owes every man a living—if the man can get it. But if he happens to seek a livelihood in a vocation controlled by some great captain of industry who needs the money with which to advance the cause of higher education the man is very likely to meet with some difficulty.

Following is a letter received recently by Dr. Hartman from St. Vincent's Orphan Asylum, Columbus, Ohio: "We first used Pe-ru-na some years ago for influenza, and experienced such wonderful results that since then Pe-ru-na has become our favorite medicine for influenza, catarrh, coughs, colds and bronchitis."

CHARLES BAKER is at home for a brief season.

Mrs. Woodworth is recovering from grip and the children are again in school.

ARTHUR CULLEN of McCook taught school in his sister's place, Monday. There is a rumor that he was too strict.

BENNIE and Ellen Baker were the last pupils in district 72 to succumb to grip. The school has been somewhat demoralized for some time past.

Wm. Byfield is bringing home more stock, this week. He is somewhat anxious lest the new sidetrack be not ready for his next cattle shipment.

We attended the institute at Indianola, last week, but failed to hear the strawberry paper from which we meant to profit so much. We did not even see J. F. Helm.

This abominable, down-east weather comes unseasonably when we and all our neighbors want to be sipping up our chickens for the coming great show.

A Successful Institute.

The Farmers' Institute held in Indianola, January 26th and 27th, was a great success. Former institutes have been partial failures in this county; first, because of the lack of interest taken by the farmers and producing classes, and partially because of the lack of educated speakers and lecturers on the subjects discussed.

The state university has been doing good work at its experimental farm, and its representatives, Professors Lyon and Hunter, in the discussion of the different subjects before the institute, were practical and instructive.

Uncle Ed. S. Hill presided with his usual grace and dignity, and the foundation work of the gentlemen having the institute in charge seems to have been well laid.

Prof. Lyon discussed the dairy question, illustrating his topic, "The Dairy Cow," by scoring three cows on the street. The members of his audience were provided with score cards, and each one interested followed him in making the score. He also spoke on the conservation of moisture in farming, and his lecture showed large experience and deep research into the subject treated.

Prof. Hunter lectured on the grasshopper pest and how to exterminate them. The lecture was replete with practical suggestions along that line.

Mrs. Phoebe Taylor and Mrs. William Byfield read practical papers on poultry raising, and LeHew spoke of the new methods of farming in this locality; gave a picture of the successful farmer and gave the kind of material that it takes to make one; advocated the raising of poultry in large numbers as one of the best methods of exterminating the hopper, giving practical results, and referring to the plan of Hon. W. S. Morlan to protect his orchard and crops by building tight woven wire-fences about his farm and stocking the same with a large number of turkeys and chickens of various thoroughbred breeds for that purpose.

Novelties in Valentines at the "Bee Hive."

SISTERS OF ST. FRANCIS USE PE-RU-NA FOR COUGHS AND COLDS.

By no means the least service the Sisters of Charity render helpless humanity is their dispensation of medicine. Their experience among the sick, and their anxiety to be of assistance to them, soon lead them to know the most efficient and safe remedies. It would be impossible that so popular and valuable a remedy as Pe-ru-na would escape their attention.

Following is a letter received recently by Dr. Hartman from St. Vincent's Orphan Asylum, Columbus, Ohio: "We first used Pe-ru-na some years ago for influenza, and experienced such wonderful results that since then Pe-ru-na has become our favorite medicine for influenza, catarrh, coughs, colds and bronchitis."

Coughs and colds disappear under the use of Pe-ru-na as if by magic. Every household should be supplied with a bottle of it during the winter months. Pe-ru-na cures recent cases of catarrh very quickly. A copy of Dr. Hartman's latest book on chronic catarrh will be sent free by addressing The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

All kinds of Valentines at the "Bee Hive."

THE senatorial situation in Nebraska remains practically unchanged. Yesterday's vote gave Hayward 35 votes, Webster 10, and Thompson 8. Israel in his famous swing around the circle landing in the Thompson column, where it is generally conceded he really belongs.

GENERAL GOMEZ of the Cuban army has finally come to his senses and cables that he will accept the three millions offered them to help the Cuban soldiers to return to their homes and work, and squarely places himself on the side of Uncle Sam in pushing the work of disbanding the Cuban army.

GENERAL EAGAN was found guilty of action unbecoming a soldier and a gentleman, and dismissal from the service recommended.

INDIANOLA.

THE FARMERS' INSTITUTE. The Farmers' Institute, last Thursday and Friday, was a success, and is a source of satisfaction to those having the matter in charge, as well as an item of profit to all who attended.

The programme carried out is as follows:

PROGRAMME—THURSDAY. Music—"Care and Management of the Dairy Cow".....D. P. Ashburn General Discussion.....P. J. Hickman Discussion—"Alfalfa on the Divide"....."Growing Fruit Trees on the Divide".....John Longnecker.

FRIDAY. Music—"Pleasure and Profit of Agricultural Education".....D. P. Ashburn Address—"Poultry Raising".....Mrs. Phoebe Taylor and Mrs. Wm. Byfield Discussion—"Grasshoppers and Methods of Destroying Them".....Prof. P. L. Lyon.

FRIDAY. Music—"Birds and Insects".....Prof. P. L. Lyon. The music was the product of the band and the glee club, and it brightened the occasion pleasantly.

Previous to the afternoon session, Friday, Prof. Lyon gave a practical illustration of marking dairy cows by points. Three cows were marked, animals belonging to George Smith, Eli Akers and George Jarvis were scored. Smith's cow scored 77 1/2 points out of 100 possible. Mr. Smith claims to have the best cow in the county. He is now making fourteen pounds of butter a week from her.

An organization was effected with the following officers: L. J. Holland, president; W. O. Bond, secretary.

That the meeting was a helpful and profitable one is admitted, and it is hoped to make the future sessions of the institute even more practical to the husbandman and stock-grower.

H. H. Berry was in town, today, on business.

Dan Harrison worshiped at St. Patrick's church, McCook, Sunday.

Frank Strout was down from McCook over Sunday, visiting the wife and child.

Frank Allen of McCook, through his son Charlie, is conducting a livery barn here.

Brakeman and Mrs. William Washburn of McCook were guests of Indianola friends, Saturday and Sunday.

Laying aside all local prejudices, THE McCOOK TRIBUNE is the paper for the news of the whole county, every time.

J. H. Bayston, late of the Kearney reform school for boys, spent Saturday in the city visiting oldtime friends.

W. George Sheppard moved to McCook, this week. Mrs. Sheppard went up, last week, together with some of the goods.

Miss Lulu and Fred Beardslee were the guests of Mrs. George S. Hill, their sister, over Sunday, returning home to McCook, Monday.

BARTLEY.

Good morning! Have you had the measles?

T. F. Welborn of Indianola was viewing the sights in our village, Monday.

A number of cases of measles are reported, but none are of a serious nature.

J. F. Utter was down from McCook looking after his farm, first of the week.

Father Sproll of Indianola was the guest of J. F. Farrell and family, Thursday.

Wm. Conrad is again one of the B. & M. gang here under Foreman Kern vice P. Krieger, laid up with an injured foot.

W. A. Lyman, A. L. Thornton and Howard Jones are answering "Present" during the roll-call of the measles brigade.

Lisle and Dale, little sons of Mr. and Mrs. C. W. Keys, who have been very sick for some time, are slowly recovering.

Representative Hathorn took advantage of the Saturday adjournment of the legislature and spent a couple of days at home, leaving for the capital city, Sunday evening.

Charles Jackson returned from McCook, Monday morning, having been compelled to lay off on account of rheumatism contracted after beginning work in the round-house.

J. H. Bayston, formerly principal of the schools here and lately instructor in the reform school at Kearney, spent Sunday with his sister, Mrs. Albert Burton, and other friends in this section.

R. S. Baker insists that he would rather serve his country "toting" mail at so much per "tote" these zero mornings than to wade knee-deep in sunshine on any "rare day in June" ever described by the "Hoosier Poet."

The young people of the village made Charles Kerst a surprise visit, Friday evening of last week, to impress upon him the fact that he was considered a year older than he was the day before. A thoroughly pleasurable evening is reported by all concerned.

The Star of Jupiter lodge held high carnival at its last meeting. After the installation of officers for the ensuing year the lady members served a banquet of the usual high standard of excellence, such as may always be expected at their hands. About sixty-five members were present, each being prepared to do ample justice to the spread, with one exception—Mr. Ritchie—who expressed regret that he was ill, but promised to be in repair for the next meeting, which is to be concluded with (fresh) fruit for all.

The medicine venders who held forth in the hall, last Saturday evening, were not compelled to hire a dray to cart away the gate receipts. Quite the contrary, it is likely that after squaring themselves with the creditors they had to hang on to the family purse to keep it from going up. The entertainment was very satisfactory to the doctor and his wife and they were of the unanimous opinion that some applause should be forthcoming, and the main squeeze had no hesitancy in conveying the thought to the twenty-seven hearers assembled, either. He insisted that his wife was an "artist" and the audience was wanting in musical culture, but nevertheless the natives opine that the mournful notes of a homesick "purp" baying at the moon would be a dream of bliss as compared to the prima donna's efforts.

DANBURY.

Joseph Boos drove over to the county seat, Tuesday, on a little business.

Harry, the young son of Mr. and Mrs. Paulson, was laid away in the Oberlin cemetery, Tuesday of last week.

F. F. Davis of Lebanon, Kansas, brother-in-law of John Haun, died of consumption about 6 o'clock on Sunday morning and was buried in the Hamburg cemetery on Monday.

The Epworth League gave a penny social at the home of W. H. Harrison, last Tuesday evening. A good attendance was present and all enjoyed a pleasant evening.

Rev. J. W. Windell, pastor of the M. E. church will preach here every other Saturday evening commencing February 4th. This will give Danbury people an opportunity to hear him once a week, as he preaches at Lebanon every other Sunday.

We are still having plenty of moisture. Sunday night we were visited by about three inches more. This kind of weather is what the farmer depends upon for the next crop. The more moisture in the winter the larger the yield the next year.

The measles have been working around this part of the country all winter, and have at last gained admittance to our town. A. C. Furman, our editor, was taken down with them, last Sunday, but at present is getting along nicely. No other cases have been reported here yet.

A. J. Metcalf marketed fifty head of two-year-olds at Kansas City, last week, which brought him \$5.85 per hundred. He has fed these cattle for about a year, and they made the finest-looking bunch that has ever left this part of the country. Mr. Metcalf also has about 250 head which he recently purchased and will feed in the same way.

The new officers of F. M. Graham post, G. A. R., are as follows: S. W. Stilgebauer, Post Commander; E. M. Woods, Senior Vice; L. Kennedy, Junior Vice; U. W. Oblinger, Adjutant; A. Garten, Quartermaster; William Hindman, Chaplain; E. Strain, Officer of the Day; J. Newbery, Guard; William Remington, Sergeant.

Dow & Sargent have their first carload of implements now on the road. This business is one which has been very much neglected in the past and we see no reason why it should not prove a profitable one. The surrounding country has developed wonderfully in the past five years, and the people are able to pay cash for most all their purchases. Dow & Sargent have many friends in this locality who will wish them success.
