Judge Kimball decided that the sale of liquors on Sunday in Washington hotels was legal under the act of 1893, which he holds was not repealed by the law passed by the last congress prohibiting such sale.

The National Federation of Miners on April 16 issued orders for a general strike in the four coal mining districts of Belgium to enforce a demand for an increase of wages. The strike resulted in the closing of a great many factories in Belgium on account of the lack of coal. Between 40,000 and 50,000 workmen have been idle on account of this strike.

The kiss of true love sounds like a zephyrus sigh, 'tis said. And not like a clapping rudely ripped From the side of an empty shed. —Detroit Journal.

"The way to sleep," said the scientist, "is to think of nothing." But this is a mistake. The way to sleep is to think it is time to get up.—Tid-Bits.

Commodore Gerry, owner of the Windsor hotel, has suits piled up against him to the tune of \$12,000,000, the plaintiffs being the relatives of those who perished in the Windsor fire.

George Huff, of Portland, Ind., claims to have discovered a new gas which is suitable for use as fuel for illuminating purposes, and which costs very little to manufacture. He says that water and air are the only ingredients used, and that the results are obtained by compressing the air and forcing it through water.

A curious phase of the concert season in London is noted by Mr. Labouchere in Truth. For the last week in April and first week in May no less than seventy concerts were announced which might be called public. Then there is a class of concerts in which the performer or singer pays for an appearance as assistant to the principal artist. The most lucrative of all the concerts are those given by rich hostesses, newly created millionaires, and aspirants to social position.

Prof. David Starr Jordan having repeated in a lecture story that one of the peace commissioners at a banquet in Paris was guilty of expectorating tobacco juice on the floor, Mrs. William P. Frye, wife of the senator, has written a sharp open letter to the professor, denouncing the report as a "vulgar story, which has not even the merit of freshness or the appearance of truth." Then she proceeds to show that none of the peace commissioners chews tobacco and that none of them attended a banquet while abroad.

There is now in Philadelphia a Buddhist temple as complete in every essential detail as any of the shrines of Buddha in the far countries of the Orient. It was put together by Professor Maxwell Sommerville, of the department of archaeology and paleontology of the university of Pennsylvania, and occupies a portion of the new archaeological building. Professor Sommerville collected all the material from which the temple was constructed while on a recent tour of the world, buying the idols and all the objects of worship and religious rites from the priests of Buddhist temples in China, Japan, Korea, India, Siam and Burma.

In a description of the marvelous products of a Tennessee boom town, a lady eulogist, quoted by the court in a recent case, said: "As to strawberries, I heard the Hon. Benton McMillin remark at a dinner that 'two wouldn't leave room in a tumbler for a stick!'" On this the court said: "By way of annotation, we might add that the full significance of the remark of the Hon. Benton McMillin might not be appreciated by the uninitiated, who might wonder what connection there could be between strawberries in a tumbler and a stick. The inference that we draw from the remark, evidently made with pardonable pride by Mr. McMillin, is that mint is also indigenous to that locality, and, indeed, we could conceive that, with the proper proportions, one strawberry and a stick would have been sufficient."

Lots of animated thinkers are poor talkers.

London coroners are sticklers for their rights. A box held at a railroad station recently, owing to the railroad officials having lost the waybill, was opened, though it was consigned to a Hamburg museum, and the body of a young woman and two skulls were found inside. The young woman was a mummified Peruvian and the skulls were prehistoric, yet the coroner of the district insisted on holding inquests on both mummy and skulls unless the museum people would have them removed.

Women seldom live to be 100 years old; they linger around 30 too long.

No More "Ordinary" Sleepers.

Some time ago the Pullman Company, as an experimental measure, introduced "Ordinary" sleeping car service on the Baltimore and Ohio Railroad between Baltimore and Newark, and Pittsburg and Chicago. The results to the Railroad Company were very gratifying, but subsequently it was ascertained the Pullman Company was not in position to furnish this class of equipment to all roads operating Pullman cars east of Chicago and St. Louis, and to allay any friction that might result from this inequality of service, the Pullman Company requested the Baltimore and Ohio Railroad to resume the standard cars previously in service, which will be done commencing April 10.

U. S. Patent Office Business.

Patents are granted for inventions in many instances that have never been tested, but are theoretically operative and practical. In a recent decision by Judge Morris in the court of appeals of the District of Columbia occurs the following:

"There is a great difference between inoperativeness and imperfection. It is well known that many inventions were extremely crude in their inception, and it is not always easy to recognize the original conception in the perfected device."

As a rule inventions are not born perfect and the evolution of important inventions and industries is highly interesting. Where two or more inventions contribute to the perfection of a machine or art each has rights that will be respected by the courts.

The following is one of the claims allowed to C. H. Connelly of Fort Madison, Ia., for a combined lock and seal, in which a key cannot enter the lock without breaking the fragile seal: A lock casing, a latch-bolt therein, a lock bolt engaging said latch-bolt, a seal box within the casing engaged by the lock-bolt and a seal in said seal box registering with the key hole of the lock casing.

Dr. John Duncan Quackenbos, emeritus professor of Columbia university, asserts that hypnotism may be employed not only to alleviate pain in some cases—which he thinks is about all there is to Christian science—but that it may also be used to reform criminals and to remove criminal tendencies through "suggestion." He instances some cases where he has cured boys of the confirmed habit of cigarette smoking by this method.

500,000 FAMILIES RELY ON PE-RU-NA.

W. H. B. Williams, publisher of The Farmers' Industrial Union, in a recent letter to Dr. Hartman says: "I have used Pe-ru-na as a family medicine for several years. I find it of especial use for myself. I have had several tedious spells with systemic catarrh and before using Pe-ru-na I had tried several

Mr. W. H. B. Williams, Columbus, O., other remedies with little or no success. But in Pe-ru-na I found a prompt and sure cure. I always keep the remedy which promptly relieves any attack of the same malady.

"My wife also uses Pe-ru-na. She finds it of especial use for severe spells, to which she is subject. We always keep it in the house as a family medicine. We think it an excellent remedy for the various ills to which children are subject, especially climatic diseases. Address Dr. Hartman, Columbus, Ohio, for a free book on family medicine."

Rev. L. L. Carpenter, Wabash, Ind., is President of the Bethany Assembly at Brooklyn, Ind. He is perhaps the most prominent clergyman in the Christian Church today. He has dedicated about 300 churches and baptized 7000 converts. He writes:—"It affords me great pleasure to give my testimony as to the efficiency of Dr. Kay's remedies. Dr. Kay's Lung Balm is the very best cough, cold and throat remedy that I ever used."

I have also received great benefit from the use of Dr. Kay's Renovator. My son had for years been greatly afflicted with the piles; he commenced the use of Dr. Kay's remedies and experienced relief almost from the first.

We have no words to express our thankfulness for the benefit we have received as the result of using these remedies. I take great pleasure in commending them to the suffering." L. L. CARPENTER, Missionary and S. S. Evangelist, Christian Church.

A coffee house should make a man rich, declares Victor Smith in the New York Press. The finest Santos can be bought for 19 cents a pound, Maracaibo for 25 and Mandehing Java for 32. The largest demi tasse in the city restaurant holds a trifle less than two ounces of the beverage; but suppose we call it two. That would give us sixty-four half cups to the gallon, or 123 to two gallons. One pound of berries roasted and ground will make easily two gallons of drink, and at 10 cents a cup the profit is anywhere between \$12.47 and \$12.61 per pound, or about 4,300 per cent.

Dr. Charleton M. Lewis, the new Emil Sanford professor of English at Yale, is the youngest full professor in the faculty. His age is 33. He has not been a prolific author, his only published work being a Ph. D. thesis in 1898 on "Foreign Sources of Modern English Versification, with Special Reference to the So-called Iambic Lines of Eight and Ten Syllables," published both in this country and in Germany.

WOMEN are assailed at every turn by troubles peculiar to their sex. Every mysterious ache or pain is a symptom. These distressing sensations will keep on coming unless properly treated.

The history of neglect is written in the worn faces and wasted figures of nine-tenths of our women, every one of whom may receive the invaluable advice of Mrs. Pinkham, without charge, by writing to her at Lynn, Mass.

MISS LULA EVANS, of Parkersburg, Iowa, writes of her recovery as follows:

"DEAR MRS. PINKHAM—I had been a constant sufferer for nearly three years. Had inflammation of the womb, leucorrhoea, heart trouble, bearing-down pains, backache, headache, ached all over, and at times could hardly stand on my feet. My heart trouble was so bad that some nights I was compelled to sit up in bed or get up and walk the floor, for it seemed as though I should smother. More than once I have been obliged to have the doctor visit me in the middle of the night. I was also very nervous and fretful. I was utterly discouraged. One day I thought I would write and see if you could do anything for me. I followed your advice and now I feel like a new woman. All those dreadful troubles I have no more, and I have found Lydia

E. Pinkham's Vegetable Compound and Sensitive Wash a sure cure for leucorrhoea. I am very thankful for your good advice and medicine."

What "Kalsomines" Are.

"Kalsomines" are cheap temporary preparations manufactured from chalks, clays, whiting, etc., and are stuck on the wall with decaying animal glue. They bear no comparison with Alabastine, which is a cement that goes through a process of setting, and hardens with age. Consumers, in buying Alabastine, should see that the goods are in packages and properly labeled. Nothing else is "just as good" as Alabastine. The claims of new imitations are absurd on their face. They cannot offer the test of time for durability.

Dry plates are all well enough in a photograph studio, but ministers do not think favorably of them in churches.
