Ordinance No. 84 was passed under suspension of the rules.

On motion of Councilman Morlan the council decided that the McCook Republican shall publish all legal notices and all other city printing at twenty-five cents a square.

On motion the report of the reorganization of the fire department was accepted and the same was adopted as the official organization of the city. The several companies are constituted as follows:

Hose Company No. 1—J. H. Dwyer, foreman; C. B. Gray, secretary; Ed. Jordan, steward and plugman; E. J. Wilcox, nozzleman; D. Crowell, nozzleman; C. A. Leach, line man; W. C. Bulger, plugman; F. D. Burgess, not assigned.

Hose Company No. 2—George Elbert, foreman; G. D. Leach, secretary; T. M. Phillippi, steward; John Muirhead, nozzleman; J. W. Spiker, nozzleman; R. B. Carlton, line man; R. J. Moore, line man; O. E. Devore, general man.

As the contract with the McCook Loan and Trust Co. for the rent of the city hall expired on the 1st day of July, a motion was passed instructing the city attorney to ascertain what the city hall can be rented six months for. There were numerous suggestions and many propositions made apropos of this matter, looking to building a city hall by the city, renting other quarters etc., but the above was the only action taken.

On motion court house bonds, second series, Nos. 1 and 2, were authorized to be delivered to George Hochmuller upon the payment of \$1,000 and accrued interest, and bond No. 3 was duly cancelled in the presence of the city council and the city clerk was instructed to file the cancelled bond with the county treasurer. The money derived from the sale of bonds Nos. 1 and 2 to be delivered to the city treasurer for the purposes for which said bonds were voted and issued.

A motion was carried authorizing the making of a contract with the Nebraska Brigade band for two monthly concerts to be given by band during the ensuing three months at \$25 per month. The concerts to be given by not less than thirteen pieces on the second and fourth Saturday nights of the month. (However, in order to make it possible to give two concerts under this contract during the month of July, the first concert will be given on the third Saturday evening, July 15th.)

## A Confidence Game.

A casual perusal of the article in last week's Bartley Inter-Ocean describing the 4th of July celebration in McCook discloses the fact that the successor of the late and sincerely lamented Editor Smith has been made the victim of a confidence game by Colonel Jeffries, whose efforts to belittle and misrepresent the celebration in McCook only lacks success perforce of the impotence and insignificance of the writer. The article discloses the mendacity and ignorance of the colonel, and in no way necessarily reflects upon what was one of the most successful celebrations held in this section of the state.

## Swift as a Post.

The sporting editor of the Comfort is as swift as a post when it comes to "doing" the base ball critique. For real, pure, genuine, unselfishness and unsophisticatedness, the colonel, in his report of the base ball game on the 4th, took every vestige of the bakery. But, forsooth, the colonel must not be taken seriously, without doing violence to one's sense of the humorous—for the colonel is really funny, if anything.

I have lived too long in Red Willow county to forget it or its people, and the many kind acts shown me."

THE TRIBUNE understands the sentiment of all his Red Willow county friends in wishing John and his family every success, contentment and prosperity.

## Car-load Shipments.

A comparison of the car-load shipments from Red Willow county in 1898 show a marked increase over the 1897 shipments, as the following figures indicate:

From McCook in 1898—Live-stock, 356; grain, 327; total, 708. In 1897—Live-stock, 176; grain, 247; total, 423.

From Lebanon in 1898—Live-stock, 164; grain, 136; total, 300. In 1897—Live-stock, 60; grain, 61; total, 121.

From Danbury in 1898—Live-stock, 193; grain, 216; total, 409. In 1897—Live-stock, 102; grain, 92; total, 194.

From Bartley in 1898—Live-stock, 208; grain, 172; total, 380. In 1897—Live-stock, 90; grain, 99; total, 189.

From Indianola in 1897—Live-stock, 145; grain, 248; total, 393. In 1897—Live-stock, 117; grain, 144; total, 261.

The total of live-stock for 1898 is, 1,066; of grain is, 1,124; grand total, 2,190. In 1897 the figures are: Live-stock, 633; grain, 545; grand total, 1,178. It is interesting in this connection to note that the comparatively insignificant station of Wilsonville is the heaviest stock shipping point on the Burlington in this state, while Holdrege is the largest grain shipping station on the line in Nebraska. Wilsonville shipped 442 cars of stock in 1898.

## McAdams Got the Contract.

At the last meeting of the board of county commissioners bids were opened for the completion of the rear portion of the first story above the basement of the new court house. The Barnett Lumber Co. and James McAdams were the only bidders, and the contract was awarded McAdams, who agrees to perform the work required for about \$1,300. Work is now progressing on the vaults for the county clerk and treasurer and on the brick partition on that floor. Appropriations have been made, which, together with the proceeds of the McCook city bonds sold, will complete the entire first story and thus provide fine quarters for each of the county officers. Commissioners Robinson and Bolles are following the proper course in this matter and are to be commended in the interest of the county's handsome new court house.

## Twelve Summers.

Twelve summers have brought joy to the young life of little Ruby Fitzgerald and the happy event was celebrated, Tuesday afternoon of this week, by the young miss, who invited in a company of young friends to make merry over the joyous occasion. Games were played with the zest and abandon of childhood and refreshments enjoyed with all its vigorous appetite.

## Red Letter Days in the Black Hills.

Hot Springs, Sylvan Lake and Spearfish are three Black Hills summer resorts that are as attractive in their way as any places of their kind in the west. And they are as different as any three places can be.

Hot Springs is a health resort—a good place to get rid of one's rheumatism and to enjoy life while renewing one's youthful vigor.

Sylvan Lake is a pretty nook in the heart of the Hills, an easy-going, cool, dreamy spot, where hot weather is unknown.

Spearfish is a thrifty town of perhaps 1,500 people, not particularly notable except in one respect—the beauty of the railroad ride to it. You should make the trip to realize how fine it is. There is nothing more exhilarating, even in the Rockies.

During July, the Burlington Route will run two cheap excursions to Hot Springs and Custer (Sylvan Lake)—one on the 4th, the other on the 18th. One fare, plus \$2, for the round trip. Tickets good 30 days—long enough to enable you to visit every point of interest in the Black Hills, as well as to receive untold benefit from the crisp air and healing waters of this northern sanitarium.

For tickets call at nearest Burlington ticket office.

For beautifully illustrated advertising matter about the Black Hills, write to J. Francis, General Passenger Agent, Omaha, Neb. 6-30-38

We have placed in our store cosy tete-a-tete tables and easy chairs and hope the ladies will make our room a resting place when down town. Come in and meet your friends there.

A dog fight recently disturbed the usual quiet of Indianola, and Colonel Phillips could not describe the stirring event in space short of a half column. Colonel Phillips, even Colonel Comfort will allow, knows news when he sees it.

The Republican managers stoutly deny the Populist suspicion that the Comfort is in the employ of the G. O. P. They don't want the Jonahs.

Isn't it about time that you purchased that hammock you have promised yourself so long? See McCONNELL & BERRY about it.

## ADDITIONAL RAILROAD NEWS.

Conductor W. D. Beyer will move his residence out onto Manchester street and face it east instead of south as at present.

The new time card which goes into effect Sunday, makes no change in time at this place, but extends No. 5 and 12 to Wray, Colorado. This is done to relieve Nos. 1 and 6 from making these stops, and in the future these fast trains will practically make no stops between McCook and Akron.

Denials have not silenced the rumor that the Burlington's extension to Hartville, Wyoming, is merely a start on a line to Salt Lake City. For some time past the Salt Lake City papers have been filled with articles showing that Burlington agents are trying to purchase terminal property there, and that some property has already been purchased. It is believed that next season the Burlington will begin active work in pushing this line through the Mormon city.

It is now said that eight large passenger engines are to be constructed at the Havelock shops. Orders increasing the number to be built from four to eight have been received, and it is promised that all twelve of the locomotives ordered to be built on the system will probably be built there, although the order for the last four has not been received. Some of the castings for the new engines have been received at the Havelock shops.

It is claimed that the pouring of oil kills the weeds, preserves the ties and prevents dust from arising from the road bed when passed over by trains. Should the experiment now being tried prove successful it is said the company contemplates oiling the road bed from Lincoln to Billings.—Alliance Grip.
