**A BIG DIFFERENCE**

There's a big difference in ways of doing business. Some dealers simply strive to get a customer in their place, sell as much as they can at one sale by misrepresentation and never expect to see that customer again. Our way is to always satisfy a buyer, no matter how small the profit. This method makes permanent patrons, and our trade is largely made up of customers who have been coming back to our shop month after month. Try our way once, and you'll keep coming back the same way, too.

**THE AMERICAN SAILOR.**

Jacky Has Become a Specialist and a Credit to the Navy.

Jacky, who used to be more sailor than gunner, is now more gunner than sailor. Just in proportion as he has ceased to be a part of the great engine on which he lives, so he has come more and more into the control of it, and as the cardinal purpose of a warship is to hit things with her projectiles Jacky has become a specialist in getting that work out of her. He does it in two places—at the guns and at the engines. Correctly pointed guns are of no use unless the platform on which they rest is put in proper relation to the thing to be hit and kept there. Equally it is useless to get the ship into proper places unless the guns are correctly pointed. Men who can do either of these things must have natural capacities and be susceptible to education, and only men of this sort are eligible for our navy. Accordingly the "beach comber," or the "rock scorpion," or any other variety of that ruck of marine refuse which drifts around the great maritime ports and ships in any craft where "grub" is plenty and work light, no longer slings his hammock on Uncle Sam's berth deck, as he used to do, to the shame of the service, in years gone by. Nor can the tramp nor the jailbird nor even the incorrigible black sheep of the family thus be provided for, to the relief of constables and long suffering relatives. No man or boy can now pass a United States naval recruiting officer unless he is clean, healthy, honest, young, strong and intelligent, nor can he afterward get that advancement, which is certainly open to him without fear or favor, unless he continues to show aptitude and ability.—Park Benjamin in Independent.

**ARMY AND NAVY GUNS.**

A Vast Difference in the Number of Men Required to Handle Them.

The number of men required to man naval guns of the British, French, German and American navies is about the same, although the French are understood to have more men as a rule for some of the larger guns.

For the 4 inch and 5 inch all services require four men to work each piece; for the 6 inch, six men are needed, and for the 10, 12 and 13 inch the same number.

As nearly all our 8, 10, 12 and 13 inch guns are used in pairs and mounted in turrets the 12 men working them are protected by heavy plates of steel. For the little 1 pounders three men are necessary to work them rapidly, and for the 3 pounders and 6 pounders four men are assigned, and for the Hotchkiss three men.

Treble the number of men seem to be required to work the same caliber of guns in our coast defense system, although there is no special reason for this, unless it be due to the fact that the army guns are mounted on disappearing carriages and are not provided with turrets, which naturally limits the space of the operators. An army 8 inch gun takes 15 men to work it; a 10 inch gun requires 18 men, and a 12 inch gun, the largest now constructed by the army, calls for 21 men.

It will be seen, therefore, that a 13 inch naval gun is operated by six men, while an army gun of one inch less caliber calls for 21 men. The navy gun can be fired just as rapidly with its six men as the army gun can be fired with its larger number.—Boston Herald.

**At Sea on Maskat.**

A funny scene occurred many years ago in congress. A present of Arabian horses, a sword, etc., arrived from the imam of Maskat for President Adams. A western member with some heat moved that the gift should be sent back, with a letter from congress, informing the ruler of Maskat that the president of the United States was no king, but the servant of the people, and was not permitted to give or receive presents.

Another member rose. "Such a letter, Mr. Speaker," he said, "can easily be written. But where is it to be sent? Where is Maskat?" There was no response. Apparently not a member of the house was prepared to answer, nor could Maskat then be found in any atlas published in this country. It was found at last on a German map. A civil answer was returned, and the geographers made haste to insert Maskat in the next edition of their maps.—Exchange.

**The Other Way Around.**

The loyalty of the Scottish highlander to his kilt is a picturesque thing. He will never admit that it makes him cold, and highlanders who were suffering from cold in the ordinary dress of civilization have been known to substitute the kilt for it in order to get warm, though this would be much like removing one's coat and waistcoat and rolling up one's shirt sleeves for the same purpose.

It is said that a stranger, seeing a soldier in full highlander uniform shivering in a cold wind, asked him: "Sandy, are you cold with the kilt?" "Na, na, mon," the soldier answered indignantly, "but I'm nigh kilt with the cauld!"—Exchange.

**Turning the Stock.**

A writer in The Dry Goods Chronicle says: "A good point for the retail merchant to remember is that it is not how large a business he does, but how many times his stock is turned in the course of the year, that really indicates the successful merchant."

There are many white soaps, each represented to be just as good as the Ivory; they are not, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine.

**NEVER TOO OLD TO BE CURED.**

S. S. S. is a Great Blessing to Old People. It Gives Them New Blood and Life.

Age does not necessarily mean feebleness and ill health, and nearly all of the sickness among old people can be avoided. Most elderly people are very susceptible to illness, but it is wholly unnecessary. By keeping their blood pure they can fortify themselves so as to escape three-fourths of the ailments from which they suffer so generally. S. S. S. is the remedy which will keep their systems young, by purifying the blood, thoroughly removing all waste accumulations, and imparting new strength and life to the whole body. It increases the appetite, builds up the energies, and sends new life-giving blood throughout the entire system.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. When I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by L. W. McConnell & Co.
