

IF...
 "Ifs and ands were pots and pans, beggars might ride," is an old saying. Refers in a hopeless sort of way to a much wished for but unexpected era of...

Cheap Tinware.

That period has arrived. We are its introducers. The American tin and the skill of the American workmen has produced a high grade of household utensils which it is possible to sell at a very low price. For every use we have a neat article, cunningly adapted for its particular work. Now is the time to get a full supply for the kitchen.

A handsomely illustrated weekly. Largest circulation of any scientific journal. Terms, \$3 a year; four months, \$1. Sold by all newsdealers.

MUNN & Co., 361 Broadway, New York

Branch Office, 625 F St., Washington, D. C.

THE TRIBUNE and The Cincinnati

Weekly Enquirer for \$1.50 a year, strictly in advance.

Latest Fashion Fads.

Lace tunics are worn with silk dresses, and silk tunics with lace dresses. The newest wrap is a scarf-shaped affair, having a hood. Cloth gowns in pale yellow or primrose are trimmed elaborately with lace insertions. Blouses, or bachelor's buttons, are far more fashionable, this year, than violets. Barege and light-weight poplins are being much used for summer wool gowns. Pokey bonnets of black tulle are trimmed with clusters of Japanese red roses. A new open-work canvas is of silk and linen. Fringes are much in vogue to trim the new shawl-shaped draperies. Tailor gowns of silk are a summer-time novelty.—From "Fashion Notes," in Demorest's Magazine for August.

What among human ills are more annoying than piles? The afflictions that prevent active exercises are bad enough, but one that makes even rest miserable is worse. Women are among its greatest martyrs. Tabler's Buckeye Pile Ointment will cure the most obstinate cases. Price, 50 cts. in bottle, tubes 75c. at L. W. McConnell & Co.'s.

Exposition an Assured Success.

The Greater America Exposition in successful operation in Omaha, is making a good record in spite of the difficulties it has had to overcome. Every available foot of space for exhibits has been taken and most of them are installed. The Cuban and Hawaiian villages are ready for inspection. The Filipinos will be here next week. Pain's fireworks, the Indian congress, the War exhibit and scores of other special features can be seen daily. The night scene on the lagoon surpasses in brilliant beauty anything ever seen of its kind. The Midway is good, but the big show is in the main tent.

25c for the Campaign.

The Twice-a-Week State Journal, printed every Tuesday and Friday, will be sent postpaid with all of the news of the world from now until after election for only 25c. It is worth that much to read about the Fighting First regiment's return. The Journal, printed at the state capital, is the leading Nebraska paper and it's mighty cheap at a quarter.

Bismarck's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where stomach, liver kidneys and bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at McConnell & Berry's.

SOUTH SIDE.

Plenty of picnics at present. Rain is needed very urgently. The grasshoppers have begun on the corn. W. S. Fitch is putting up the second crop of alfalfa. Gerald Wilcox has started his threshing machine. Linford Fitch is helping B. C. Bowman, this week. Chintz bugs are plentiful in some parts of this vicinity. J. E. Ludwick was a South Side visitor, first of the week. Three new members have been taken into the South Side Endeavor Union lately. John Randall's team ran away with the mowing machine, Tuesday, and did considerable damage. It being time to elect new officers at the Endeavor, Sunday evening, there was a good turnout and the election went off quietly.

IMPREGNABLE PARIS.

The City Could Easily Now Withstand Any Siege.

The French have been taught wisdom by past experience, and as a result have planned, and a few years ago finished, a system of fortifications around Paris, which are probably unequalled for the purposes for which they are intended by any similar fortifications in the world. A well-informed military writer, a member of the general staff of the German army, has given it as his opinion that a successful siege of Paris would be, under present conditions, an impossible undertaking, says a writer in Pearson's. The new fortifications that surround the French capital are some fifteen or twenty miles from the city, and are connected with Paris, and with each other, by a railway system which would enable the French commander to quickly mass at one point a very large body of men, while the general of the besieging army, if he wished to prevent the city from obtaining supplies, and thus shut in the people and the army that was defending it, would have to occupy a line extending over 100 miles, and hence could not, by any possibility, collect a large number of his force at any one point to resist, with even a shadow of hope, an attack of the enemy. It required a German army of, approximately, 500,000 men to lay siege to Paris from Sept. 19, 1870, to Jan. 30, 1871; but the authority we refer to is of the opinion that to repeat the same operation a German besieging army would have to number more than 2,000,000 men, and the work of maintaining such a force and properly handling its parts would be something which few governments would care to undertake and few military commanders would be able to efficiently perform. The French have spent upon these new fortifications an amount variously estimated at from £6,000,000 to £10,000,000, and hence can well afford to sell the land occupied by some of the now obsolete fortifications of a generation ago.

One Pound of Honey.

It is estimated that to collect one pound of honey from clover 62,000,000 heads of clover must be deprived of nectar, and 3,750,000 visits from bees must be made.

DANBURY.

Corn west of town is in need of rain.

Ed. Ruby and wife left, Sunday, for a week's visit among friends in Dundy county via overland.

Danbury is booming, this week. New sidewalks are being put in across Main street, which have long been needed.

Central Granaries company is giving the elevators a new coat of paint, this week. J. Heathcoat and Mose Young are doing the work.

It is reported that the grasshoppers are becoming very numerous, west of town, and are damaging the corn very much; they seem to have left the hail district and gone west for greener fields.

T. J. and Ed. Van Pelt and wives left, Monday, overland, for the Rockies on a month's visit among relatives near Fort Collins, Colo. Mrs. A. C. Furman also left, Monday, for that place via McCook on the train.

The people south and east of town had a good rain, last Saturday evening, and also had some hail—enough to cut up the corn considerably; this makes the fourth time that they have had hail in this district, this summer, but it has been light and has not done so very much damage.

Sunday, August 6th, is the day set for the dedication of the Congregational church here. Rev. W. J. Turner, the eloquent pastor of the McCook Congregational church, will preach the dedicatory sermon. Delegates from the several Congregational churches of the county are expected and the event will be a notable one in the history of the denomination.

BOX ELDER.

Corn looks fine along the Willow.

Dick Brower has just finished stacking rye. The girls will not have to walk in future as Dewitt Wildman has a brand new carriage.

Mrs. Dick Brower will leave, the last of the week, for Wisconsin, to spend the rest of the summer.

Tom Ruggles and Iafe Miller are heading wheat for Messrs. Oakley and Dague, north of the store, this week.

Dave Little has gone to the new town at the mouth of the Willow to lay the foundation of an elevator at that place.

William Walters has gone just over the line in Frontier county to harvest his wheat. He has a fine crop of wheat there, he says.

We understand Miss Hannah Barnes is about to purchase the entire stock of millinery goods of Mrs. M. E. Barger of McCook. Success to her.

John Johnson and Anna R. Irwin were married at the M. E. parsonage in McCook, last Wednesday evening, by Rev. J. A. Badcon. The young people need no introduction to the people of Box Elder. Mr. Johnson has resided in this vicinity for years, and Miss Irwin has taught several terms successfully in this neighborhood. They will be at home, to their many friends, one mile south of William Johnson's. We extend our heartiest congratulations to the happy couple.

TYRONE.

Many are up to their ears in wheat harvest.

Rev. Robertson filled his appointment here, Sunday.

District 20 desires an experienced school teacher.

Florence Moore is visiting friends here during the summer vacation.

Pete has bought a binder, Joe a new mower, and Frank an all-steel hayrake.

Those who contemplated buying a steam threshing outfit seem to have subsided.

Word comes from G. W. Kimpton's, in Belleville, Arkansas, that they got through safely and like their new location.

Volcanic Eruptions are Grand. But skin eruptions rob life of joy. Bucklen's Arnica Salve cures them; also old, running and fever sores, ulcers, boils, felons, corns, warts, cuts, bruises, burns, scalds, chapped hands, chilblains. Best pile cure on earth. Drives out pains and aches. Only 25c a box. Cure guaranteed. Sold by McConnell & Berry.

THE FIRST BABY.

's Coming is Looked Forward to

With Both Joy and Fear and its

Safe Arrival is Hailed With

Pride and Delight by All.

The arrival of the first baby in the household is the happiest and most important event of married life. The young wife who is to become a mother delights to think of the happiness in store for her when the little one shall nestle upon her breast and latterly she shall hear it hiss the sweet and holy name, "mother."

But her happy anticipation quickly vanishes when she realizes the terrible pain and suffering through which she must pass while bringing the little one into the world. An indescribable fear of the danger attendant upon the ordeal soon dissipates her joyfulness.

Thousands of women have learned by experience that there is absolutely no necessity for the sufferings which attend child-birth; they know that by the use of "Mother's Friend"—a scientific liniment—for a few weeks before the trying hour, expectant mothers can prepare themselves for the final hour that the pain and suffering of the dreaded event are entirely obviated and it is safely passed through with comparatively little discomfort.

All women are interested, and especially expectant mothers who for the first time have to undergo this trial, in such a remedy; for they know the pain and suffering, to say nothing of the danger, which is in store for them. "Mother's Friend" is woman's greatest blessing, for it takes her safely through the severest ordeal of her life. Every woman should be glad to read the little book "Before Baby is Born," which contains information of great value to all. It will be sent free to any one who sends their address to The Bradford Regulator Co., Atlanta, Ga.
