

A Word to Doctors

We have the highest regard for the medical profession. Our preparations are not sold for the purpose of antagonizing them, but rather as an aid. We lay it down as an established truth that internal remedies are positively injurious to expectant mothers. The distress and discomforts experienced during the month's preceding childbirth can be alleviated only by external treatment—by applying a liniment that softens and relaxes the over-strained muscles. We make and sell such a liniment, combining the ingredients in a manner hitherto unknown, and call it

Mother's Friend

We know that in thousands of cases it has proved more than a blessing to expectant mothers. It overcomes morning sickness. It relieves the sense of oppression. Headaches, hard and rising from Swollen, Hard and Rising Breasts is avoided. Labor itself is shortened and short of the pain. We know that many doctors recommend it, and we know that multitudes of women go to the drug stores and buy it because they are sure their physicians have no objections. We ask a trial—just a fair test. There is no possible chance of injury being the result, because **Mother's Friend** is scientifically compounded. It is sold at \$1 a bottle, and should be used during most of the period of gestation, although great relief is experienced if used only a short time before childbirth. Send for our illustrated book about **Mother's Friend**.
