should have been credited with according to said canvass books as made by said canvassing board, and is the same and identical number of votes that said Norris was shown to have received by the said books at the time the said canvassing board had adjourned for said Sunday, and the same votes were shown to have been added to the said canvass books after the said change in said Union precinct was made as above described.

Subscribed in my presence and sworn to before me this 6th day of November, 1897.

THOS. M. DAVIS, Notary Public.

My commission expires July 16, 1901.

State of Nebraska, Furnas county, ss. T. H. Francis being first duly sworn, deposes and says: that he was a member of the Furnas county canvassing board in the year 1896, and as such member of said canvassing board assisted in canvassing the votes cast in said county at the general election held on November 5, 1896; that in making the said canvass the said Francis did the writing in one of the canvass books of said county, and the writing in the other canvass book of said county was done by David E. McClelland, another member of said canvassing board; that the county clerk, H. W. McFadden, did not do any writing in either one of said canvass books in making said canvass, but that in making said canvass said county clerk took the poll books of the different precincts and read the results of the votes cast in said poll books and this affiant wrote the same down in one of said canvass books, and the said McClelland wrote the same down in the other of said canvass books; that while making said canvass, the said county clerk, in one of the precincts where the tally of the votes cast did not correspond with the certificate in said poll book, written out in the back of the poll book, discovered that affiant and the said McClelland had in one place in said canvass books a cipher where the said county clerk said there should be a six; that the said county clerk called the attention of this affiant and the said McClelland to the discrepancy and thereupon this affiant said that he would scratch out said cipher and place a six in its place, and this affiant took a knife intending to erase said cipher on the canvass book, whereupon the said county clerk made the following remark: "don't do that, but simply take your pen and make a tail to the cipher and that will make a six of it"; that this affiant then and there followed the instructions of said county clerk and made a six of said cipher by adding a perpendicular line to said cipher. Affiant has no recollection as to what precinct this discrepancy occurred in nor as to what office, but it was the only occurrence of this kind that occurred during the making of said canvass.

Subscribed in my presence and sworn to before me this 3d day of January, 1898.

The political situation hereabouts is quiet, but the indications are favorable for a good Republican plurality in these parts.

Herbert Labanch and cousin Mattie Ireland of Omaha were the guests of their uncle and cousin, E. A. Sexson and son Will, recently.

Arthur Ingles says that Uncle Sam's money is good in the Philippines, because your uncle has something to back it up with. Hurrah for Uncle Sam and his sound money!

Remember T. A. Endsley with your vote for assessor, November 7th. His election means a just and equitable assessment. And, by the way, why not vote the Republican ticket straight? It's all right.

W. J. Bryan stated that this Republican administration is bleeding the people. How about the \$500 he is said to be getting daily for his vocal exercises, with car-fare and special train thrown in? Think on this, ye Populists!

Chairman Babcock of the Republican county central committee was in town, Tuesday, on political business. He reports the outlook as most encouraging for the Republican ticket, this fall, and forecasts a victory all along the line.

The Bryan meeting here, Saturday, was a success. Perhaps a thousand people listened to his address, which, while it may have been somewhat inspiring to the Fusionists, had little or nothing in it to make a Republican fail to vote his ticket, next Tuesday.

The vote here, next Tuesday, will demonstrate that the people of this vicinity are not in sympathy with Colonel Phillips' attack on E. S. Hill, W. O. Bond and Republicans of that stripe. Not by a jugful! This thing of playing second fiddle in the Fusion orchestra went go; not any longer.

A little before 8 o'clock, Thursday evening, fire was discovered in the back room of T. F. Welborn's store, and in a few minutes the two store-rooms occupied by him and both of Wadsworth's adjoining were entirely consumed. With the exception of some buggies belonging to Wadsworth, the contents of both buildings were destroyed. The blacksmith shop across the alley was scorched, but hard work saved it, and during the early part of the fire every one despaired of saving the Leland hotel, and the fact that no wind prevailed alone prevented its destruction. Powder in the Welborn building deterred any attempt at saving the contents, and when it exploded burning embers were thrown west of Main street. Wadsworth carried \$2,100 on building and contents, and as soon as a settlement with the insurance companies is effected will rebuild and resume business. Welborn has insurance amounting to \$4,000, and estimates his loss at \$6,000 or \$7,000.
