**The Invention of the Telescope.**  
One day, nearly 300 years ago, a poor optician was working in his shop in the town of Middleburgh, in the Netherlands, his children helping him or amusing themselves with the tools and objects lying about, when suddenly his little girl exclaimed--"Oh, papa, see how near the steeple comes!" Anxious to learn the cause of the child's amazement he turned towards her, and saw that she was looking through two lenses--one held close to her eye, the other at arm's length--and, calling her to his side, he noticed that the eye-lens was plano-concave, while the other was plano-convex. Taking the two glasses he repeated his daughter's experiment, and soon discovered that she had chanced to hold the lenses at the proper focus, thus producing the wonderful effect that he had observed. His quick wit saw in this a wonderful discovery, and he at once set about making use of his new knowledge of lenses. Ere long he had fashioned a tube of pasteboard, in which he set the glasses at their proper focus--and so the telescope was invented.

**The Best Plaster.**  
A piece of flannel dampened with Chamberlain's Pain Balm and bound onto the affected parts is superior to any plaster. When troubled with a pain in the chest on side, or a lame back, give it a trial. You are certain to be more than pleased with the prompt relief which it affords. Pain Balm is also a certain cure for rheumatism. For sale by McCConnell & Berry.  
"Three more for Dewey!" shouts the Boston Herald. "Three more what? Sweetheart?"

**City Built on Islands.**  
The famous old city of Ghent, Belgium, is built on twenty-six islands, which are connected with one another by eighty bridges. Three hundred streets and thirty public squares are contained in these islands. Ghent has been the scene of many treaties, insurrections and revolts, and it was there the treaty was made terminating the war of 1812 between this country and England.

"I wouldn't be without DeWitt's Witch Hazel Salve for any consideration," writes T. B. Rhodes, Centerville, O. Infallible for piles, cuts, burns and skin diseases. Beware of counterfeits. D. Loun.
