FROM a state point of view, Nebraska Republicans may feel a trifle "broke up" over the result; but an outlook over the national result is most satisfactory to the Republican cause, and gives a bright promise for victory complete in 1900.

THE "militarism" bugaboo of the Little American party was knocked out in one round by ex-Senator Manderson the other day, who showed that a United States regular army of 65,000 men today is proportionally smaller than an army of 20,000 was in 1849, or 25,000 in 1870.

The prosperous workingmen of the country evidently remembered on the last election day the failure of an experiment in change of administration made in 1892, and this accounts for the unexpectedly large Republican vote in the great manufacturing sections where protection has brought prosperity to every line of industrial enterprise.

THE price of greatness is high. Admiral Dewey and his bride, the widow of the late General Hazen, can't eat a little toast and porridge at breakfast at the Waldorf-Astoria, without the intrusion of the omnipresent reporter and his describing how they laughed merrily and chatted gaily over their coffee in handsome apartments adorned with chrysanthemums etc.

The "Star" lodge gave an entertainment and oyster, Thursday evening. The affair was on quite an elaborate scale and the pleasures were shared by a large crowd.

J. R. Sipe shipped three cars of hogs, this week, and has shipped a car every week for three weeks that topped the Omaha market. Red Willow county produces as fine hogs as are marketed.

A. C. Walsworth of Cambridge has disposed of his 800-acre ranch south of town to Asa McCord of Albion, Missouri. Consideration \$7,000. Mr. McCord expects to make this his home in the near future.

A crowd of young people entertained themselves, Tuesday evening, by riding around in a wagon until about two o'clock, waiting for the meteoric shower. Some of the boys remarked that if the stars didn't fall by Thursday evening they would throw some out of the window.

Election day has passed away, and Willie's won the tin; Some politicians smoked cigars, Some drank a little gin; Our customers drank water And claimed 'twas rather thin, But the tender, juicy meat we sell Caused them to loudly grin.

So everybody, great and small, Come in and see our goods this fall; Tho' we may fail, we'll surely try To merit confidence while you buy,— For all our goods will stand the test, Game, beef, pork, mutton and the rest; And the poultry is the very best At the market of Marsh & Everist.

Glorious News

Comes from Dr. D. B. Cargile of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50c. Sold by McConnell & Berry. Guaranteed.

We welcome new competitors. Every additional store enlarges the importance and fame of McCook as a trading center, and widens the circle tributary to this metropolis of the Republican valley. So here's to them all!

May they live long and prosper!--and May McCook's influence continue to widen!

Mrs. MINNIE FINITY, Press Supt.

"God, Home and Native Land."

The writer made a pleasant acquaintance with one of our "White Ribboners" while she was visiting her cousin, Mrs. Howe Smith. She is the president of a prosperous union in a suburban town of New York City. And it is with enthusiasm she speaks of the temperance work of which she is an earnest worker.

The good citizens of the Hawaiian Islands want whiskey and morphine outlawed. A petition has been forwarded to the United States congress praying that prohibitive laws may be made part of the constitution given the islands by our government. The document is signed by several hundreds of the most influential citizens of Honolulu. But will this receive recognition?

The eight principal causes of insanity have been tabulated, and the results presented to a London scientific society. Drink stands at the top, and directly accounts for one-third of all the cases.

A general prosecution of violators of the Illinois flag law, which prohibits the use of the flag for advertising purposes, has been started, and will be pushed to a finish unless the law is declared unconstitutional.

The Young People's Temperance federation of Chicago proposes a new scheme to fight intemperance. Ten well equipped coffee saloons are to be opened this fall. There is to be no charity, and no ministerial management.
