

Men who are always in a hurry, and most men are, want a soap for the toilet that will lather quickly and freely in hot or cold water. Other soaps than Ivory may have this quality, but will likely contain alkali, which is injurious to the skin. Ivory Soap is made of pure vegetable oils, no alkali, produces a white, foamy lather, that cleanses thoroughly and rinses easily and quickly. Money cannot buy a better soap for the toilet.

FOR BLOOD POISON

Patchwork; You Can Cure Yourself at Home.

Beware of the Doctors' There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off to-day if they had never allowed themselves to be dosed on mercury and potash, the only remedies which the doctors ever give for blood poison.

The doctors are wholly unable to get rid of this vile poison, and only attempt to heal up the outward appearance of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat and other delicate parts then break out into sores, and the fight is continued indefinitely, the drugs doing the system more damage than the disease itself.

Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dollars with the doctors, when I realized that they could do me no good. I had large spots all over my body, and these soon broke out into running sores, and I endured all the suffering which this vile disease produces. I decided to try S. S. S. as a last resort, and was soon greatly improved. I followed closely your 'Directions for Self-Treatment,' and the large splottees or many selections for Self-Treatment, and the large splottees or the selections for Self-Treatment, and the large splottees of the selections for Self-Treatment, and the large splottees of the selections for Self-Treatment, and the large splottees of the selections for Self-Treatment, and the selection is selected to the selection of the selection of the selection is selected to the selection of the se chest began to grow paler and smaller, and before long disappeared entirely. I was soon cured perfectly and my skin has been as clear as glass ever since. I cured my-self at home, after the doctors had failed completely." It is valuable time thrown away to expect the doctors to cure Contagious Blood Poison, for the disease is be-

The Shadeland Stock Sale.

The Shadeland stock farm dispersion sale at South Omaha stock yards, last Friday, was a most satisfactory success, the forty head sold bringing \$7,620.00. or an average of \$190.50 a head, "Govenor" sold for \$500 00 even, and \$750 00 was offered for "Anxiety Monarch," the famous head of the Shadeland herd, but Mr. Rogers refused to let him go at that price. Mr. Rogers is very well pleased with the result of the sale, taking into consideration the fact that this was the Shadeland farm have ever been on sale. It was Mr Rogers' first appearance as it were, and the impression that his Herefords made is most gratifying to him. Being situated so far west, comparatively many expressions of surprise were uttered that such superior animals could "Anxiety Monarch" back home with wonderful results," him, and with the young stock still remaining on the farm and the new blood he will add, he expects in due time to be able to make another offering that will excel his first effort. Mr. Rogers will go to Kansas City, next week, in quest of some additions to his herd.
