M'COOK TRIBUNE. FAIR HAS AN ACCIDENT

Nine Nives Are Snuffed Out and Nine Other People Are Injured.

BRIDGE FALLS UPON THE THRONG

Structure Connecting a Sideshow With the Exposition Collapses - Condemned as Unsafe Shortly Before-Worse Disaster Averted by Keeping People Off the Bridge.

PARIS, April 30 .- An accident within the exposition grounds this afternoon caused the death of nine persons and injured nine others. A temporary bridge broke, falling upon the crowds underneath.

The dead are six men, two women and one child. One woman and a child are uniden-

tified. The accident threw a pall over the happiness of an immense throng which profited by the magnificent had weather to visit the exposition. Today's was probably the record attendance. Not merely the interior of the grounds but the precincts also were crowded and the concourse was particularly great along the Avenue de Sufren, which forms the northern boun-

dary of the grounds. Here is situated a big sideshow—the Celestial Globe. A footbridge, on which the finishing touches were being put today, crosses the Avenue de Sufren, connecting the sideshow with the exhibition. It was constructed of wood, with a stucco facade and with a plaster-made tower at each end.

Strangely enough, the bridge had been condemned only this morning as unsafe by the exposition authorities. The public was therefore not allowed to go upon the structure and in this way a disaster even more terrible than that which occurred was averted.

The gay crowd was passing along the avenues and some hundred or more persons were walking beneath the bridge when suddenly an ominous fell with a fearful crash, burying near- | Cleveland's cabinet, said: ly fifty.

A shout of horror rose from the specvictims. For a moment nothing could be distinguished but a cloud of dust and plaster. A scene of the greatest excitement and confusion followed.

But this was only for a few seconds. Almost imediately the crowd attacked the debris in an effort to release those lying beneath.

The workmen within the grounds who had witnessed the accident, the police and the republican guards, together with quite a number of soldiers, miral Dewey. joined in the rescue work. The promecovered themselves with dirt and his bluntness, as blunt people often do. poles were brought from the half finished buildings near by and were used as levers to raise the fallen mass.

The victims first recovered were mostly only the injured, the dead being found later beneath the center of the structure. Messengers were dispatched to bring firemen and sappers with their equipments and the first body was found after a quarter of an hour's frantic labor. It was that of a little girl about 7 years of age, whose head was horribly crushed. If the concessions are not made by that time it is the intention of the strike leaders to extend the strike and they predict that it win be the largest in the history of railroads of the east. DEWEY'S TRIP NONPOLITICAL

His Western Journey, He Says, Will Be Made as Admiral.

WASHINGTON, April 30.-Admiral Dewey was seen today at his home just before leaving the city for Chicago and was asked if he had any statement to make about the presidency.

"No," said he. "I think it would be in bad taste for me to say anything of a political nature just at this time. As the admiral of the navy I accepted the invitations to visit Chicago, Jacksonville, St. Louis, Memphis, Nashville and Knoxville, which cities had asked me to be their guest; and I do not wish anything political to enter into

Accompanied by Mrs. Dewey and his private secretary, Lieutenant Caldwell, the admiral left here today at noon in a special train over the Baltimore & Ghio railroad for Chicago, to participate in the celebration of the second

anniversary of the battle of Manila. The train was one of the finest which has ever left the capital city and is scheduled to reach Chicago at 11 o'clock tomorrow morning. It consisted of three handsome cars, fitted with every luxury to insure the greatest possible comfort for the travelers. Upon the central windows on either side of the three cars was painted the admiral's flag and the hotel car was profusely decorated with flowers and potted plants.

Just before the train pulled out of the station, Mrs. Dewey was presented with a handsome bouquet of American Beauty roses. Probably 1,000 people were on hand and a cheer went up as the train pulled out. J. H. Maddy of the Baltimore & Ohio railroad accompanied the party in order to give his personal supervision to the trip.

OUR CLAIM OF TURKEY

Uncle Sam's Representative Instruct of to Press It Vigorously.

INSTRUCTIONS NOT MADE PUBLIC

Efforts of Turkey to Pay This Claim Under Cover of an Order for a War Ship to Be Built in the United States-No Law for Doing This.

WASHINGTON, D. C., April 28.-Beyond the statement that Mr. Gris com, United States charge d'affaires at Constantinople, has been instructed to press vigorously for the payment of the American claims for indemnity, the officials here decline to divulge the nature of his instructions. They say that Mr. Griscom does not need express instructions to forward the claims, for he had of his own volition taken a rather advanced attitude in this matter and the presentations he is now making, though this time by express insruction, are in no respect more peremptory than his own preceding deliveries to the Turkish government.

Novel though the proposition was from a diplomatic standpoint, yet it is learned to be true that the effort was made by the porte to pay this American claim under cover of an order for a war ship to be built in the United

States for Turkey. The reasons for the failure of the project were several. The United States government has no war ships for sale, and is not authorized to build any for foreign order. Then there is no warrant of law for entering into an arrangement with a private ship building concern for the collection of an international obligation in the manner purposed. Lastly, judging by the experience of concerns that have had dealings with the Turkish government, any shipbuilder accepting the order from Turkey would require a guaranty from the United States government, and the net result of the transaction might be the assumption by the United States of an obligation as much larger than the original claims as the price of a battleship exceeds the \$90,000.

English Forces Enter the High Mountains of Thaba N'Chu.

LONDON, April 27 .- The Bloemfontein correspondent of the Daily Teleg.aph, under Wednesday's date, says: "Our mounted infantry entered the

high mountain plateau of Thata N'Chu today almost without opposition. As Thabu N'Chu is a natural fortress this must mean that the Boers have practically thrown up the sponge in this section. If the force presses on to Ladybrand the whole country south of that point and in line with Bloemfontein will be in our hands.

"One difficulty is that many of the Boers forming commandos, in mediately on finding themselves beaten, retreat to their farms and resume the roles of peaceful citizenship, hiding their rifles."

The Bloemfontein correspondent of the Standard, telegraphing Thursday

"General Ian Hamilton, with mounted infantry, naval guns and a howitzer battery, advanced from the water works in the direction of Thabu N'Chu. A large force of infantry supported him. He met with no opposition and the mounted infantry occupied a position dominating the Ladybrand district."
