It was a powerful combination that Senator Thurston and his friends went up against at Lincoln, this week, but it was a glorious victory for the senator, who is several lively stages from being a dead duck yet.

THE Republicans of Nebraska must now bury completely out of sight all personal and factional differences, put on their fighting clothes, fight a good fight, and in November victory will perch high on the party's banner.

HON. W. S. MORLAN of McCook was nominated for congressman by the Republicans of the fifth district at their convention at Holdrege, this week. The "deacon" is a strong man and a sure winner. Good-bye, Mr. Sutherland, take keer o' yerself.—Palisade Press.

W. S. MORLAN is not a boy orator. He has grown gray in the practice of his profession in Southwestern Nebraska, and is recognized as the most able attorney in this section. His fidelity to a client is unquestioned. His honesty and integrity are beyond reproach. If he is elected to congress he will represent the people of this district as conscientiously as he has served his clients in the practice of his profession.—Beaver City Tribune.

IN a report to the adjutant general of the United States army, Chaplain Chas. C. Pierce states, as the result of his experience, that "the morale of our army has greatly improved in the thirteen years I have been permitted to judge of it by personal contact with its soldiers, and it gives me pleasure to refer to Bishop Potter of New York, who was my guest for six days prior to my departure from Manila, and to the surprise manifested by him at the groundlessness of many of the charges and criticisms which had been voiced in America by many persons, in connection with this subject. I think he will join me in saying that our army is composed of men of quite as high a type as the ranks in civil life from which they were recruited, and that they are men worthy of a nation's honor."

THAT our sales to the orient are rapidly growing is shown by the latest export figures of the bureau of statistics. While there has been a continued growth in our exports during the past fiscal year, by far the largest percentage of gain has been in our trade with the orient. To Europe, our exports during the eight months ending with February, increased 5.4 per cent as compared with the corresponding months of the preceding fiscal year; to South America, 8 per cent; to North America, 13.3 per cent; to Asia, 38 per cent; to Oceania, 51 per cent, or to Asia and Oceania combined, 44 per cent; while to Africa there was a slight reduction, owing to the disarrangement of commercial conditions there by reason of hostilities. Taking our exports as a whole, it is found that the increase during the eight months has been 9 per cent, while the increase to Asia and Oceania has been 44 per cent.

ONE of the most dishonest pretenses upon which the Democracy is attempting to get back into power and treat the country to another spell of the dumps, such as it went through during the last Cleveland free trade administration, is that it is necessary to overturn the Dingley law and protection in order to overturn the trusts. People should understand that it is the natural Democratic itching for free trade, and no real abhorrence of the trusts, which makes the Democratic party clamor for the destruction of the Dingley law. Democrats everywhere show that they are not afraid of the trusts. They are members of trusts themselves, stuffing their pockets with trust stock, and engaging as lustily in the business of trust promotion as any Republican. Mr. Havemeyer, who so loudly denounced the tariff as the mother of trusts, is at the head of the most arbitrary and oppressive trust in the country, the great sugar trust, and he always contributes to Democratic campaign funds. But the falsity of his declaration is shown by the fact that England, a purely free trade country, is overrun with trusts; every country in Europe, no matter what its tariff or whether it has any tariff at all, has its trusts, and usually a good many of them; and trusts are even formed in Japan. The trust movement is world wide and has no relation whatever to tariffs, a fact known as well to Democratic anti-trust howlers as to anybody under the sun; but unfortunately with them, a lie well stuck to is better than the truth.

STATE CONVENTION.

Republicans do Their Work in Fine Order.

HARMONY IS THE WATCHWORD

Thurston Wins His Fight. Dietrich for Governor by Acclamation.

The Republicans of Nebraska assembled in state convention at half past two o'clock, Wednesday afternoon, and in four hours of straightforward work, settled all of their differences, named a full state ticket, and adjourned amid the best of feeling and with a strong conviction that they had planted the seeds of a decisive victory.

The only conflict of any importance came in the selection of delegates-at-large to the national convention. An effort was made by the opponents of Senator Thurston to send Norris Brown of Kearney to Philadelphia in his stead. During the balloting on these delegates the interest was tense and the air of the vast hall was surcharged with excitement. When the roll call showed the senator to be safely in the lead his friends gave expression to their joy in a long and loud demonstration. Then the convention settled down to routine business and finished everything in a single industrious and well ordered sitting.

MR. MORLAN is a man of honor, and if sent to congress he would serve the district with unflinching loyalty, and the people ought to esteem it a great privilege to be able to vote for a man who would be such a credit to the district.—Cambridge Clarion.

W. S. MORLAN was nominated for congress by acclamation by the Republicans at Holdrege, Wednesday. His record for fairness will enable him to make the race supported by not only Republicans, but by many admirers in the Populist party.—Cambridge Clarion.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. L. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, liver and kidney remedy. Cures dyspepsia, loss of appetite. Try it. Only 50 cents. Guaranteed. For sale by McConnell & Berry, druggists.

Mr. Allison, who formerly lived on the Holland place, has moved to Indianola.

There will be Sunday-school in the Red Willow school-house, every Sunday at 2:30 o'clock. You are all urged to attend and take part. Arrangements are being made to have preaching every other Sunday by the pastor of the Congregational church of Indianola. We hope everybody will take a hand in making this a success and not a failure, as has been the case in past efforts.

W. S. Musser, Millheim, Pa., saved the life of his little girl by giving her One Minute Cough Cure when she was dying from croup. It is the only harmless remedy that gives immediate results. It quickly cures coughs, colds, bronchitis, grippe, asthma and all throat and lung troubles. D. W. Loar.

NO USE TRYING

I can't take plain cod-liver oil. Doctor says, try it. He might as well tell me to melt lard or butter and try to take them. It is too rich and will upset the stomach. But you can take milk or cream, so you can take

Scott's Emulsion

It is like cream; but will feed and nourish when cream will not. Babies and children will thrive and grow fat on it when their ordinary food does not nourish them.

Persons have been known to gain a pound a day when taking an ounce of Scott's Emulsion. It gets the digestive machinery in working order so that the ordinary food is properly digested and assimilated.
