TROOPS GO TO CHINA

Ninth Regiment, United States Infantry, Ordered There From Manila.

ENGLAND SENDS NATAL DIVISION

Part of Buller's Forces Will Sail From Durban — Dowager Empress Holds Key—Has to Decide Whether to Defy the World or the Boers.

MANILA, June 18.—9 a. m.—The Ninth regiment has been ordered to Manila, whence it will proceed to China.

WASHINGTON, June 18.—Adjutant General Corbin late tonight would neither affirm nor deny the Manila advices that the Ninth infantry would go to China, but it is known that the troops are being assembled in Manila for this purpose and transports made ready for their occupancy, though it cannot be learned that orders to sail for China have been given. If not already sent such orders doubtless will be issued unless reassuring news comes tomorrow.

If the gunboat Concord, reported from Manila as sailing with marines aboard under sealed orders, is leaving for China she will be a valuable addition to Admiral Kempff's fleet rendezvoused at Taku. The Concord is of light draft and it may be she will be able to ascend the Pei-Ho river as far as Tien Tsin, substantially augmenting the force now there. Admiral Remy had not reported her departure late tonight, but the presumption here is she is going to China.

Up to a late hour tonight the foreign embassies and legations, like the American government, were without advice. Some comfort was obtained by the officials of this government, as well as by the members of the diplomatic corps, from the Associated Press dispatches from Paris that negatively cast a shadow of doubt as to the accuracy of the reported burning of the legations and the murder of the German minister in Peking. They feel that surely happenings of such great import as those stated to have taken place in Peking should have reached the outside world by this time. At the same time there is a great deal of apprehension existing in all circles regarding what may have happened.

SENT FROM NATAL TO CHINA.

England is Dispatching Troops From South African Field.

LONDON, June 18.—The extreme gravity of the Chinese crisis in the eyes of the British government is shown by the decision to detach a division and three batteries, with a siege train, from the Natal forces for immediate dispatch to China. Roberts first replied he could not spare a man until a decisive battle with Botha was fought. If part of the British forces were removed the Boers would prolong their resistance, but on the government further pressing the demand Roberts consented to place the above mentioned force from Buller's command at the disposal of the war office for service in China.

Sufficient transports are ready at Durban to convey these troops away as soon as they are got aboard. The bulk of the division is already at Pietermaritzburg.

There is no alleviation whatever to the critical nature of the Chinese outlook, which is undoubtedly causing the deepest alarm and apprehension in political and commercial quarters here. The fate of the international force is a matter of subsidiary moment; the really crucial period will be when the disturbance being quelled the future government of China becomes a matter for discussion and settlement. It is in view of that contingency that England is accumulating military and naval forces in the far east.

STRIVE TO ARREST TAYLOR.

Effort Will Be Made to Catch Him on His Trip.

FRANKFORT, Ky., June 18.—The state officials, as well as representatives of the prosecution, will neither affirm nor deny the report that requisitions on the governors of Ohio, West Virginia and Pennsylvania for the arrest of W. S. Taylor have been made out in anticipation of his trip through those states to the national convention.

It is the general belief here that the effort to arrest him will be made after his arrival at Philadelphia. A large number of letters from persons in this state have been written to Governor Stone of Pennsylvania, urging him to follow the position taken by Governor Mount in the event Taylor is arrested. Governor Taylor's friends say they have assurances from leading republicans of Pittsburgh that a requisition will not be honored in that state.

FIGHT WITH FORCE OF ASHANTIS.

LONDON, June 18.—The Daily Express has the following dispatch from Prah Su, dated yesterday: "There has been another fight on the line of communications of the Kumassi relief expedition. There are 5,000 of the enemy facing the relief forces. The leaders of the rebellion include Ashanteh, queen of the Ofotus."

KANSAS CITY ELEVATOR.

KANSAS CITY, June 18.—The big Union grain elevator located on the west river bottoms but a few blocks from the union depot was destroyed by fire this afternoon, causing a damage of over \$100,000. The building was valued at \$70,000 and it contained \$30,000 worth of wheat, all of which was destroyed. J. K. Davidson, principal owner of the property, states the loss is covered by insurance. The A. C. Brockett Cement company, whose warehouses adjoined the elevator, sustained a damage of \$15,000. Several freight cars also burned.

STRIKERS ARRANGE BOYCOTT.

Gompers Urges Friends of Labor to Refuse to Patronize Cars.

ST. LOUIS, June 18.—The long-drawn-out controversy between the St. Louis Transit company and the striking employes has now simmered down into a struggle between capital and labor along the lines of a boycott. The submitting of the question of reinstatement of the former employes of the company to arbitration has been the bone of contention in the recent negotiations for a settlement of the strike, but like all former contentions it has resulted in nothing, the railway officials demanding an unconditional surrender on the part of the men.

As a result of the company's action President Gompers of the American Federation of Labor has declared that he will do all in his power to bring the influence of the whole body of organized labor in America to bear on the local situation in an effort to win the strike for the union. Mr. Gompers urges the strikers to be lawabiding, but advises them to make the operation of the cars as expensive as possible by refusing to patronize them. The boycott to be declared, strike leaders say, will apply not only to the St. Louis Transit company, but to every person, every business man, every association and, in fact, any corporation or individual favoring it in any way.

RUNS ON AMERICAN WHEELS.

Longest Underground Railroad in the World Soon to Operate.

LONDON, June 18.—Beginning in July, London will have in operation the longest electrical underground railway in the world. It runs from Shepherdshush, the extreme western suburb, to the Mansion house, six miles. The fare will be 4 cents and the trip will be made in sixteen minutes. By the present mode of transit it takes thirty minutes.

The tracks run eighty feet below the surface, the passengers being raised and lowered in lifts capable of carrying 100 people. It has taken five years to construct the line.

It will be opened by the Prince of Wales on June 27. All the rolling stock and engines were manufactured in America.

Work on St. Louis Fair.

ST. LOUIS, June 18.—At a conference between the chairmen of the executive and finance committees of the World's Fair, it was decided that the reconvaning of the city for the purpose of obtaining additional subscriptions from firms and corporations to the local fund begin vigorously as soon as conditions in St. Louis would permit such action.

Not much has been done for a month past in the way of soliciting aid for the project because of the street car strike which has filled the public mind to the exclusion of everything else. As soon as the present chaotic conditions are eliminated to some extent the world's fair management will resume work with renewed vigor. Citizens continue to increase their holdings and letters of congratulation reach the chairman of the various committees in every mail.

Big Battle Near Panama.

KINGSTON, Jamaica, June 18.—The Royal Mail steamer Don, Captain Davis, which arrived here today from Colon, brings news of an important battle fought on Friday last about ten miles outside of Panama. According to this information the insurgent forces were victorious and some 200 of the government troops were killed. It is inferred that Panama may already be in possession of the rebels. The latter are strongly entrenched at San Joaquin, near Santa Marta, and all the government troops at Baranquilla had been dispatched to Santa Marta when the Don left Colon.

SPRINGVILLE, N. Y., June 18.—Buffalo, Rochester & Pittsburgh trains No. 5, southbound, which left Buffalo at 5:40 p. m., and train No. 8, northbound, collided head on at West Falls tonight. HONG KONG, Monday, June 18.—All the unprotected foreign buildings in Peking have been destroyed. Hundreds of natives have been murdered. The Boxers have cut the railway behind the column of British, American and other foreign marines sent by (British) Admiral Seymour to the relief of Peking. This has shut off the column's supplies.

AMERICANS MOVE SLOW

War Officials May Possibly Draw Upon Remy's Marines.

ADMIRAL KEMPFF MAY NEED MEN

The Chinese Trouble Attracting Attention at the Navy Department — Belief That It Will Be Necessary to Take Immediate Action—Root Silent.

WASHINGTON, June 16.—Owing to their natural reluctance to employ troops save as a last resort, and the disinclination of the War department to supply such troops except under pressure, the officials this afternoon were considering an alternative proposition. This contemplated the putting out of commission of several of the big ships attached to Admiral Remy's fleet, notably the Oregon and the addition of the sailors and marines so released to Admiral Kempff's landing force.

There is a growing belief that it will be necessary to organize another expeditionary force at Tien Tsin to assist Admiral Kempff's column, which, with limited supplies, will be in severe need very shortly unless it can force its way through to Peking. The Monocacy arrived this afternoon at Taku and if there were an emergency by pushing on up the river she could have reached Tien Tsin before dark. The Monocacy on such a short trip could easily carry fully 500 men in addition to her own crew, so that the safety at Tien Tsin probably is assured.

Secretary Root declines to discuss the military aspect of the situation. To the newspaper men this afternoon he admitted that the general Chinese situation was discussed at the meeting of the cabinet today and Secretary Hay furnished all the information he had on the subject. The secretary was asked whether it had been finally decided to send any troops to China from the Philippines and replied that it had not.

The celebration reached its climax in the parade which took place in the afternoon. The United States army was represented by about 1,200 men of the Fifteenth infantry, the Fifth and Seventh artillery, the regimental band of infantry heading the regulars. The marine band from Washington was also a feature of the procession.

Quemados Infested, Where the American Troops Are Stationed.

HAVANA, June 16.—Yellow fever has broken out at Quemados, where the United States troops are stationed. Thus far there have been fourteen cases, three of which proved fatal. At present only six are under treatment and all are expected to recover. Two soldiers, who married Cuban women, were attacked, but they recovered. A sergeant of the signal service died. Major Frank Edmunds and Mrs. Edmunds were both stricken. Captain Cues of the signal service is in the detention hospital under suspension, but it is likely his disorder is not more serious than malaria.

Senor Pedro Baterno, former president of the so-called Filipino cabinet, has been released temporarily and is now conferring with Senor Felipe Burcanaro, former minister of commerce, with reference to the latter's peace platform.

Two hundred men of the Eighteenth infantry who are sick are returning by the transport Hancock in charge of Captain Lewis.

EMPRESS DOWAGER IS EQUIVOCAL.

Several of European Powers to Send Forces.

LONDON, June 15.—4:25 a. m.—Observers at Cheyenne and Tien Tsin think there is a great deal more trouble ahead for the concert of powers than merely reaching Peking with 2,240 men. Serious disturbances are taking place at Yunnan-Fu and Meng-Tse, as well as at other points at a considerable distance from the capital. The whole Chinese empire seems to be in a ferment. The intentions of the empress dowager are still equivocal, with a balance of testimony on the side of a determination to expel the appropriators of a part of her country or to lose her dynasty in the attempt. It is related of her that on Monday following the murder of the chancellor of the Japanese legation she was roused to a sense of danger and went personally to the Yung Ting gate of Peking, where she advised the rioters to disperse. But she took no steps to apply force and the appearance of things is more threatening than before.

WAR IS NOT YET OVER.

England Awakes to Fact that South Africa is Not All Hers.

LONDON, June 15.—3:30 a. m.—That Commandant General Louis Botha should have been able to stand for two days against Lord Roberts and then to retreat without losing any guns of having any of his men captured is taken to mean that he has a force which the British must not reckon as formidable when acting defensively. The pacification of the whole Transvaal, especially the wide spaces far from the railway, is reckoned a business requiring months, rather than weeks. Meanwhile everything goes well for the British arms. A Boer bulletin issued June 12, at Machadorp, said:

"Both wings of the federal forces touched the advancing enemy at 10 a. m. east of Pretoria. Fighting continued until dark. The enemy, though in overwhelming numbers, was checked along a line of thirty-six miles and the burghers succeeded in driving back their right wing five miles. Two burghers were killed and ten wounded."

COMING ELECTION IN HAVANA.

Cuban Capital Taking Great Interest in Majority Race.

HAVANA, June 15.—Havana now shows a lively interest in the coming elections. Both candidates for the majority are doing their most to secure votes. Meetings were held last evening and this evening and others have been called for tomorrow afternoon. The proceedings were varied with music and last night continued until after 12 o'clock. The nationalists claim they control 14,000 out of 24,000 votes. On the other hand, Senor Aulet, who is managing Senor Estrada Mora's campaign, says he is sanguine of success. General Julio Sangulilly is also of the opinion that Mora will win on the strength of his record as acting mayor.

ST. LOUIS STRIKE ABOUT OVER.

Police Are Returned to Their Regular Beats, While More Cars Run.

ST. LOUIS, June 15.—The predictions made that yesterday witnessed the beginning of the end of the great street railway strike were corroborated today when the police department withdrew its officers from all the cars and power houses of the St. Louis Transit company and returned them to their regular beats. The Transit company continues to augment its force of nonunion employes and its transportation facilities at a rate that promises to see the system in full swing before many more days have passed.

DALLAS, Tex., June 15.—Henry Williams and his son, William, colored, were shot dead from ambush in Brazos county while plowing in a field. Officers are searching for a white man who is believed to have shot them.
