THE BEE HIVE, McCook, Neb.

The Oreapolis Wreck.

A wreck occurred on the Burlington at Oreapolis, Monday night, that blocked the Missouri Pacific tracks at the crossing for two hours and required the services of the wrecking crew to remove the obstructions. An engine and mail car left the track inside the "Y" at the Oreapolis semaphore station, and both engine and car turned completely over, finally turning up on the Missouri Pacific tracks. A special train in charge of Yardmaster C. S. Johnson, and consisting of an engine and mail car, was sent out to test the new Patten mail catching and delivering device. The Burlington has been experimenting with this mail catcher for several months, and it has been about perfected. The train, while running through the semaphore station at Oreapolis, left the track with the above results. The engine and those inside the postal car escaped without a scratch, notwithstanding the fact that both turned over completely. The damage was estimated at \$500.—Lincoln Journal.

Station Agent's Dilemma.

The station agent in the little town of Atlanta, Neb., found himself in an embarrassing predicament, the other day, when he received a telegram from the police department of Omaha, reading like this:

"To the City Marshal: Arrest John Kennedy, horse thief. Used to run boarding house in Atlanta."

Now it happens that there is no city marshal in Atlanta, and that the entire constabulary of the place is vested in one man, a justice of the peace, named John Kennedy. He, as judge of the only tribunal in the village, acts as his own police department, his own court officer and his own jailer. The station agent made some inquiries and ascertained that Judge John Kennedy also ran a boarding house there at one time.

What was the agent to do? Obviously Judge Kennedy was the man wanted, but what was the use of delivering the message to him? It was too much to expect him to arrest himself, try himself and bind himself over to the district court.

The agent wired these facts back to Omaha and asked for instructions, but meanwhile the Omaha police had found their man—the right John Kennedy. He had been located in Oak Grove, Ia. The agent at Atlanta was told that he needn't mind.—Tuesday's Omaha Bee.

Increasing the Capacity.

The McCook Electric Light Co. has commenced the work of connecting the court-house with the company's steam-heating plant. A force of men is now engaged in digging the trench and laying the three-inch supply and 1½-inch return pipe. Others besides the county will connect with the system. The pipe now being laid is larger than that at first laid and anticipates greater demands upon the capacity of the system.

A BLIND MAN

Is one who fails to profit by experience, even though he has use of both eyes without the aid of glasses. Time and again people buy clothing that is half made and containing mostly "Shoddy and Flock." Remember that three years among you has taught you that we carry no satinet goods in the house; what you buy of us is reliable and made by the best equipped factories in the in the country. Our prices are the lowest named for good goods; we carry no other.
