

Says Colorado is O. K.

W. T. Coleman returned home, Monday morning on 2, from a two-weeks' visit in the state of Colorado, where he spent most of the time seeing and hearing all he could in Denver, Pueblo, Colorado Springs, Leadville, Salda, Breckenridge and other places. He gives it as the result of his diligent research and close observation, hearing and meeting state officers and state nominees on all tickets before the people of Colorado, that the state will cast its electoral vote for McKinley. He says that it is evident to any one that a great change has come over the business and mining interests of that state. He spoke to quite a number of mine owners and business men, in different cities, and talked with laborers in the great mills and smelters at Pueblo, and it was the same story, they are pleased and satisfied with the situation and recognize that McKinley's administration is for the best interest of all Colorado's industries and they now fear that Mr. Bryan's theories in action would do them more damage than good. In Leadville one bulletin board called for 1,400 men at wages ranging as high as \$4 per day. The same board advertised for 20 servants at wages of \$25 per month. The fact is they can't get enough of men or women to work out there at any price, and why should they desire a change. He was delighted with the state of affairs and came home full of confidence and enthusiasm.

Died in the Stalks.

We regret to learn that James Doyle of Perry precinct, early in the week, lost six milk cows in the corn-stalks; and that one of the Divines lost one cow in a similar way. They had the usual bloated appearance. It is stated that there are occasional stalks of green corn in the fields, and that an examination of each dead animal's stomach revealed the presence of this green corn-stalk in the animal's stomach. An old stockman says that he never lost an animal in that way in his life. He says he feeds his stock on rubbins of corn for two weeks or so before putting his stock in the corn-stalks. It is his opinion that the trouble results from turning the animals into the stalks without preparing their stomachs for the dry feed by strengthening the same with some corn. The animals being too hungry, and their stomach weak, they overeat and fall victims to the bloot. He did not think it was the result of poison in the corn-stalks. Since writing the above, we learn that N. C. Dueland of Quick, Frontier county, first of this week, lost seven cows in the stalks, in a similar manner.

The Owl-Os Entertain.

The Halloween party by the young ladies of the Owl Os club, Wednesday evening, in the I. O. O. F. hall, was the liveliest and gayest social event of the early fall season. They entertained about forty young men of the city, showing them a warm time as befitted the special occasion.

The hall was elaborately decorated in appropriate style, a fortune-telling booth being one of the special features of the same, in which skulls and bones galore were arranged in gruesome effectiveness. The guests of the occasion looked like the rear-guard of a Coxe army for raiment grotesque.

A corn-pile and husking-pegs were provided in abundance, with an occasional red ear to relieve any monotony or ennui that might, peradventure, overcome any of the guests.

The ladies of the Methodist church spread the refreshments served the guests. This feature was characteristic success and in harmonious keeping with the rest of the affair.

A Fall in Oil.

S. D. McClain of the McCook tank line had a runaway, Wednesday morning, on McDowell-Dakota streets. As he was returning from delivering an order of oil, the horses started up briskly and he was unable to secure his place on the driver's seat. The horses continued homeward at an increasing speed and being unable to turn in at the home alley, continued east on Dakota street until they collided with a telephone post in front of H. P. Sutton's residence. The wagon was considerably damaged, but there was no loss of the heavy load of oil. The horses were not hurt. Mr. McClain secured another wagon, mounted his tanks and is doing business at the old stand until the wrecked wagon can be repaired.

MRS. J. A. SNYDER arrived home, first of the week, from Denver, where she has been in St. Anthony's hospital undergoing an operation on one of her eyes. The care and skill of the specialists in her case, she feels not only saved her other eye, but her life.

DR. E. H. WATERS and family bade McCook farewell, yesterday. The family will spend some time in Hastings until the doctor can secure a home for them in Oxford. A large circle of friends join us in expressions of regret at their removing from our city. The removal of such a family is a loss to our community, and by the same token a distinct gain to Oxford, where they locate to enable the doctor to more conveniently look after real estate interests near Holbrook.

A Few Church Items.

The Catholic friends are preparing to hold their annual fair in the near future.

The Methodist brethren gave their new pastor and his wife a reception of very enjoyable particulars, Tuesday evening.

A most interesting feature for the holidays will be a Doll Carnival to be given by St. Albans Episcopal Guild, December 14th and 15th.

Upon the arrival of the new pastor at the Baptist church, Rev. Geo. L. White, all of the regular church services are resumed. Those who have no church home are cordially invited to be present at any service. A renewed interest and activity is already noticeable in all departments of the church work.

Deputy Labor Commissioner S. J. Kent delivered a speech in the opera house, Wednesday evening, to a small audience, presenting the Fusion side of the political situation.

The Nebraska Brigade band played for the Guide Rock people at their speech-making and ox roast, Monday, and will go to Riverton, tomorrow, for the same purpose.

Word from Sheridan, Wyoming, announces the birth to Mr. and Mrs. Will Mullen of a daughter. Congratulations.

THE DOBSON SPEECH.

The Ablest Delivered in McCook During This Campaign.

Beyond any question of doubt the ablest political address of this campaign was that delivered by the Hon. G. L. Dobson, secretary of state of Iowa, in the opera-house, last night, under auspices of the Railway Men's club of McCook. As a logical, argumentative, forceful and instructive effort, delivered with an earnest enthusiasm characteristic of a clear thinking, alert, wide-awake man of large experience, wide travel and varied observation, it has never been excelled in this city.

Mr. Dobson is an Englishman by birth, an enthusiastic and loyal American by adoption. He is sturdy and square-built of form and just as sturdy and square-built of principles. Leaving a free trade country because he could not get ahead under that condition of affairs in England, he came to a protection country, America, and he regards protection as the fundamental fact of America's prosperity, today. His remarks were largely directed to showing the advantages of protection, and quoted facts and history largely to prove its value to the farmers and laboring men of the country; incidentally referring to the disastrous years of free trade under the Wilson bill to make the invaluableness of protection the more apparent. He was powerfully clear on this proposition. He showed that the farmers were having good times when the laboring men were all employed at good wages; that labor is only employed and well paid when the American mills are running and the mill owners protected from the cheap labor of Europe by protection—hence protection is the corner-stone of our national prosperity. His argument was most convincing and compelling on this line.

He showed by new methods and some new facts, the absolute fallacy and impracticability of free silver, the second in the list of Mr. Bryan's comedy of errors. He also made a strong showing of the efforts of the Republican party to give silver a fair show and to keep it in circulation, coining the metal on government account as freely as the circumstances and the chances of maintaining it on a parity with gold would permit. His propositions on this score were strong and clear and convincing, showing great familiarity with the facts of the much-mooted money question, once so lovingly advocated by Mr. Bryan, but now forgotten and neglected, like his first-love, free trade.

And of course he could not neglect that latest paramount issue of Mr. Bryan, the trust question. He admitted that it is a great question and that it will require the ripest wisdom of the land to solve it, but he proved the most convincing that the Democratic party is not the party to settle the question, by exhibiting the record of the Democratic party on the trust question in the last congress, when they had an opportunity to help the Republicans get the government in shape to commence effective legislation against unlawful combinations of capital. They voted to a man, almost, against the measure, and thus disposed of any possibility of securing the necessary initiatory legislation of the trust question—an amendment to the constitution of the United States.

His references to that other paramount issue of the opposition, imperialism, was somewhat brief. He regarded it as a bugaboo intended to scare the German vote, and he regarded the Germans as altogether too intelligent citizens to be taken in by such a foolish bit of nonsense as that. He had confidence in their good common sense, their strong stand for sound money, and their appreciation of a good job at a good wage, to keep them in line for McKinley and prosperity.

His pointed references to the state, congressional and legislative nominees were heartily appreciated, as indeed was his entire speech from introduction to close. The assaults on Deitrich and the circular appealing to railroad men to vote against E. N. Allen and J. E. Hathorn were referred to in no uncertain terms. The first he characterized as unspeakably cowardly and disreputable, and the second as an attempt to get railroad votes by arraying the men against the company—the old doctrine of class hatred—by promises they could not make good and had not made good when they had the opportunity.

The meeting was in charge of the Railway Men's club of McCook, and the speaker was warmly introduced by M. E. Wells, foreman of the machine-shop, who lived a neighbor to the speaker back in Iowa, in years ago. After the speech the numerous "full-dinner pails" on the stage were opened and the audience was invited to come up and partake of the hospitality of the club. Two cakes were exhibited on the speaker's stand, one representing the laborer's fare in 1895, made of corn-meal, and the other made of the best the land can afford, and of the vintage of 1900. They truthfully exhibited the improved conditions of the laboring man now over those of 1895.

The Nebraska Brigade band added a delightful element of harmony and enthusiasm to the event which has never been excelled in the political history of McCook.

Important Meeting.

An important session of the poultry people is called to meet in H. H. Berry's office, Saturday afternoon at three o'clock. It is especially urged that there be a full attendance of those interested in the chicken business, and in the success of the coming annual show, which is hoped can be made a large and satisfactory success.

GRAND CLOSING RALLY

The Congressional, Senatorial and County Campaigns Will Close

MONDAY EVENING, NOVEMBER 5

Speeches By All the Nominees, Band and Glee Club Music, Etc., Etc.

The congressional, senatorial and county campaigns will be brought to a fitting close on Monday evening next in the opera-house with a grand rally. W. S. Moran, the congressional nominee; E. N. Allen, the candidate for state senator; Dr. J. E. Hathorn, the nominee for representative, and W. R. Starr, the candidate for county attorney, will be among the speakers of the evening, and a rousing time is contemplated. The Nebraska Brigade band will give a concert of three-fourths of an hour before the speeches and the McCook Glee club will sing during the meeting. The concert will open at 7:30 and close at 8:15.

Every arrangement is being made to have a rousing rally, and you want to be present to enjoy the occasion. Other speakers will assist the local nominees in the dispensation of the good Republican doctrine of prosperity, protection, sound money and the honor of the flag.

The "Professor" Decamped.

"Professor" C. J. Todd, who claimed to be from St. Joseph, Missouri, and who for a brief while held a chair in William Zint's barber-shop, some time on Sunday afternoon last, decamped for parts unknown, without any formal leave-taking with his employer or fellow-workmen, and his whereabouts have since been a source of tenderest solicitude with the entire force down here. The "professor" made merry with several sundry articles belonging to his late employer and fellow-employees in the shop, besides borrowing a little coin for his purse and leaving his boarding-house keeper in the lurch for the amount of his board. He arrived in the city on Wednesday last and departed this part of the foot-stool on Sunday. He is about \$25 long and the proprietor and force are that amount short on coin and apparatus. Mr. Zint went as far east as Hastings, but failed to get any trace of him. It is thought that he went west.

Lincoln and Sonnenschein.

J. H. Lincoln of Stockville and a Mr. Sonnenschein of somewhere addressed a small audience in the opera house, Tuesday evening. Mr. Sonnenschein is a German, and his name was not announced on the bills advertising the meeting, but a personal effort was made to gather in the Russian and German voters of the community, to convert them to Fusionism on the militarism scare. His arguments were the usual stock in trade on that subject, and the vote in McCook on next Tuesday will show that Mr. "Sunshine" failed to work any of the Russians at this place. They have work and fair pay and know that the whole militarism scare is a mere bugaboo to catch foreign votes. Such chaff won't catch birds of their age. It was a quiet, slick effort, however.

Advertised Letters.

The following letters were advertised by the McCook post-office, October 28th: Ora Little, Jno. Scheniger, Otto Parsons, Harry Trague, (4) G. M. Call, Gilbert Caldwell, Otto Larson, Melissa Lyvans, Jennie Brown, W. H. Dillon, Geo. N. Foote, Mrs. J. A. Rose, Charlie J. Hurst, Crabtree Metallic Mfg. Co.

In calling for any of these letters, please say that they are advertised.

F. M. KIMMELL, Postmaster.

Stolen and Riffled.

A mail pouch was stolen from a transfer truck at the depot, shortly after No. 3 arrived in the city, last night, and the pouch taken up in the rear of the National hotel, where it was cut open and rifled of its contents, only a few packages of letters escaping the ruthless hands of the bold thieves. It was discovered at an early hour, this morning, and the remains were gathered up by the postmaster and preserved for future action by the department. No local mail was in the pouch.

A Cold November.

The weather prophets have announced the coldest weather in November ever known in the history of this country, and advise that the people prepare promptly for the emergency by getting good stoves and fuel in abundance.
