KRUGER STILL HOPING

Boer Leader Has Not Abandoned Belief in European Intervention.

NO POPULAR DEMONSTRATION YET

English Methods of Warfare Characterized as Barbarous in the Extreme-Claim Made That the Usages of Civilized Warfare are ignored.

LONDON, Dec. 22.-William T. and his counselors as to the present | ing of the journal was suspended and situation and future prospects. Mr. Stead has written the following for

the Associated Press: "First of all, nothing is decided about his visit to America at present. President Kruger has not abandoned all hope of securing the support of the governments of the civilized world in his demands for arbitration. Until the last government refuses absolutely to say a word in support of the principles which they solemnly laid down at The Hague conference Mr. Kruger will not partake in popular demonstrations. It is recognized that if he cared to do so he could shake the continent. The popular enthusiasm for him is unparalleled since Garibaldi's visit to London, but until his diplomatic mission is exhausted an appeal to the people cannot even be taken into consideration. Mr. Kruger is emphatic in disclaiming any desire to involve other nations in war in behalf of the Boers. What he asks is that the governments, which at The Hague declared their intention to use their efforts to secure amicable settlement of disputes by means of mediation and arbitration, should make a united effort to bring the verdict of the civilized world to bear on Great Britain.

"'The English,' Mr. Kruger said, are waging this war in South Africa like savages. They are burning homes, destroying dams, cutting trees, devastating fields and creating famine. They are unable to capture Dewet, but they are making prisoners of women and Natalle colliery at Shamokin, Pa., op- | children, who are not treated with ordinary decency. Hundreds of women have been confined in prison Krall, smiths and carpenters had not been | near Port Elizabeth, with only one given the 10 per cent increase in chair, and several of them are expect-

ing to become mothers. "Mr. Kruger avers that the provisions of the convention at The Hague and the laws and usages of war are trampled under foot and he wants to know whether the signatories of this convention have anything to say on

the subject:. "The man on horseback at this moment is not Mr. Kruger, but President Steyn. He, Delarey and Dewet are masters of the situation, having a better disciplined and more effective force than that which followed the vierkleur (flag) at the outbreak of the war. They have plenty of ammunition and replenish their store continually from the British convoys. They have taken enough Lee-Metford rifles to arm all the burghers now in the field. I cannot put their position better than in the words of one of Mr. Kruger's counselors. 'England is our accused. England is the sole witness against us. England is the judge. England is the executioner and England hopes to profit by our death. We appealed for arbitration before the war. We are fighting for arbitration today. We have the right to expect the sympathies of the civilized world.'

DETAIL STORIES OF MASSACRE.

Horrible Atrocities Said to Have Been Perpetrated by Turks.

NEW YORK, Dec. 22.-A dispatch to Journal and Advertiser from Vienna says: Further reports of the Turkish massacres of Christians show that their instigator is a Mohammedan fanatic named Haiduk Islam, who brags of having slain 200 Christians with his own hands. CONGER INSTRUCTED TO SIGN.

Agreement Not Exactly to American Like

ing, but Delay is Dangerous. WASHINGTON, Dec. 22.-An instruction will again go out today to Mr. Conger at Pekin to sign the agreement which, according to Pekin advices, already has been signed by all of the other ministers at the Chinese capital. This instruction is sent with some reluctance because the agreement as it now stands does not completely represent the view of the United States government. But it is believed to be the most favorable compromise that could be reached unless negotiations are to be drawn out to a dangerous length, for all reports indicate a growing spirit of unrest in China, owing to the absence of any form of native government in Chi Li and the adjacent provinces. So the United States accepts the "irrevocable" condition imposed upon the Chinese government, though, after all, this expression is rather a matter of form than of substance, for diplomacy knows no such thing as "irrevocable agreement."

IRRIGATION AND RIPARIAN RIGHTS.

Constitutionality of State Act to Be Subject to Legal Test.

LINCOLN, Dec. 24 - The constitutionality of the state irrigation act will be subjected to a legal test before the supreme court next month. The court recently handed down a decision which was believed at the same time to be a deathblow to the irrigation interests of Nebraska, and an effort will be made to secure either a reversal or a modification of that opinion. The decision was in the case of the Crawford company against Hathaway and others, appealed from Dawes county.

The case will be brought to the attention of the court for second consideration by Attorneys J. W. Deweese and J. S. Kirkpatrick of this city, who will appear as friends of the court in behalf of the irrigation interests of the state, but not as attorneys for either party in the original action. Leave was granted to file the motion and the document prepared by the attorneys was presented. The court is asked to reverse or modify the judgment; to decide the constitutionality of the irrigation statutes in their relaion to the creation of the State Board of Irrigation; to adjudge and determine to what extent the irrigation laws modify or abrogate riparian rights, and to adjudge and determine whether the right of Leroy Hall appelle in the Crawford company case, to maintain a dam upon and to use the waters of White river for power purposes has been acquired by proscription or as riparian owner or pro-

Nebraska vs the B. & M. R. R. LINCOLN, Dec. 24.—The action of the supreme court in overruling the motion of the attorney general for a rehearing of the case of the State of Nebraska against the Burlington railroad, has removed all possibility of prolonging the existence of the State Board of Transportation under its present organization. According to the decree of the court the life of the board came to an end when the motion was overruled and, therefore, the salaries of the three secretaries and other employes stopped at the same time. Secretary G. L. Laws said regarding the with stakes driven through their matter. Butter Product of the State. LINCOLN, Dec. 22.—"Returns from the creameries of the state show that 9,093,706 pounds of creamery butter were manufactured in Nebraska in the year 1900, the greater per cent of which found a market outside the borders of our state," said Secretary Bassett. "It is estimated that 6,000, 000 pounds of dairy butter or farm butter produced in this state has, under the commercial term of ladle butter, been shipped to markets outside the state, making the exported butter product of the state for the year approximately 15,000,000 pounds. This amount is but a small percentage of the butter which might be produced for export from the state or that would be produced if fraudulent imitation products were compelled to be sold on their merits and honest butter had only fair and legitimate competition in the open market."
