To Mothers of Large Families.

In this workaday world few women are so placed that physical exertion is not constantly demanded of them in their daily life.

Mrs. Pinkham makes a special appeal to mothers of large families whose work is never done, and many of whom suffer, and suffer for lack of intelligent aid.

To women, young or old, rich or poor, Mrs. Pinkham, of Lynn, Mass., extends her invitation of free advice. Oh, women! do not let your lives be sacrificed when a word from Mrs. Pinkham, at the first approach of

A NURSE'S STORY.

Geneva, Tells an Interesting Experience.

Peshtigo, Wis., Jan. 26, 1901.—(Special.)-One of the most popular nurses We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's that ever graduated from the Lakeside Hospital, Lake Geneva, is Miss Lillian Dreese, of this place. Miss Dreese is the Vice Templar of the Independent Order of Good Templars, and organist of the Rebeccas of Peshtigo. During her twelve years' experience as a trained nurse she has had many opportunities for observation, and her opinion in all medical health matters is held in very high esteem by the thousands who have learned to know and love her. In speaking of her experience she says:

"During my twelve years as a trained nurse I have often observed how many different physicians give their patients Dodd's Kidney Pills in cases of Diabetes and Kidney Trouble. About three years ago I myself suffered some months with a weakness and continual congested condition, and I decided to try what the Pills would do for me. I soon found that they built up the affected parts and restored harmony to the entire system, and alrest while attending severe cases, I find that I was never in finer health nor had more endurance than since I have used these marvelous Pills."

Clergymen say they are good, Senators and Congressmen have added their evidence as to the wonderful curative properties of this Medicine, hundreds of physicians recommend them and use them in their daily practice. The most skilled trained nurses advise their use and use them themselves, while tens of thousands of sick and suffering people are being cured every day by Dodd's Kidney Pills. They should cure you. They will cure you. Try them,

DEATH IN CORNSTALKS

to the religious world of the Episco- ficient material being taken to give Jattle Raisers in Clay County Suffering Many Losses.

While Some Herds Have Been Completely Wiped Out, Others Have Escaped-Evidence of an Open Winter-Miscellaneous Nebraska Matters.

OMAHA, Neb., Jan. 26.-P. A. Nelson, one of the solid stock raisers of Clay county, is in the city from the neighborhood of Harvard. Mr. Nelson said that for the first time in twelve years the cattle raisers of his neighborhood are losing stock from the "corn stalk disease." According to his statement, this disease has not yet been classified by the veterinarians and no remedy so far tried has proved effective. It has been traced by the farmers to the corn stalks, the cattle feeding in the corn fields of last year being the only ones affected. But all fields do not affect the stock. While Mr. Nelson has lost several head of steers and some of his neighbors have had their herds completely wiped out, other herds have been free from disease, although feeding upon the stalks in adjoining fields.

When the disease first made its appearance in Mr. Nelson's herd he thought diversified feed would stop its ravages, so he put his cattle upon a diet which included alfalfa hay, prairie hay and three varieties of grain, still permitting them to run in the stalks and to straw piles. The change in the feed produced no apparent results and the farmers have given up hope of discovering a remedy for the

Aside from the corn stalk disease, Mr. Nelson says that Clay county farmers were never in so prosperous condition. Farm mortgages have been released in a degree never before known and in place of being borrowers, the men who raise grain have money in the banks. The crops of last year were excellent, wheat yielding from twenty to twenty-five bushels per acre and corn from twenty-five to forty bushels.

Starts Fire in Her Own Cell. For no reason that any one else attempts to explain the woman took live coals from the stove them and when the officer detected the smoke and rushed to her door the blaze was well started and Mrs. Wertzburger was standing with her face at a hole, which she had broken in the window, gasping for breath. It required quick and vigorous action to rescue the woman and extinguish the flames before the latter got beyond control.

Killing Snakes in Midwinter. CALLAWAY, Neb., Jan. 26.-The

other day the large house cat belonging to G. W. Barnard succeeded in capturing a snake, which had come out of its winter quarters to bask in the sunshine. The snake had crawled out of a pile of old hay, and happened to come out just where the car was watching for rats, and the cat sprang upon it, and soon had it killed. The snake was of the blue-racer variety and was about three feet in length. When a snake appears in the middle of January and is full of life, it is evidence enough that Nebraska's climate cannot be surpassed.

SOUTH OMAHA. Union Stock Yards-Cattle-There was a fairly liberal run of cattle on sale and although Chicago was reported generally 10c lower, the market here was quite ac-tive and just about steady all around. Buyers seemed to be auxious for good beef steers and the more desirable bunches were picked up in good scason beef steers and at practically yesterday's prices. The common kinds were not sought after as much as the finished cattle, but still sellers did not experience any great trouble in disposing of their holdings at steady prices. The cow market was in very satisfactory shape and no particular change was noticeable from yesterday. The demand seemed to be fully equal to the supply and as a result the market was fairly active and it was not long before the pens were cleared. The feed-er trade continued in good shape today and anything at all desirable changed hands early at good, firm prices. Hegs-There was a good average run of hogs and the market opened \$90010; higher. The first sales were largely at \$5.22½ and \$5.25, with a top of \$5.27½. At those prices the hogs moved loward the scales at a good rapid rate, but before half of them had changed hands packers lowered their bids, owing to less favorable reports from other points. Heavy weight hogs were at a premium and were sold first. The lightweights were left until the last and anything on the pig order was hard to move at satisfactory prices. The close of the market was very slow and weak, light hogs selling largely at \$5.17% and the general run of mixed hogs at \$5.20. Sheep—There was not a heavy run of

sheep here, but the market was slow and a big dime lower than yesterday. Eastern markets are reported as being in bad shape and the demand for mutton is none too good at the present time and as a result packers are not very liberar buyers.
