Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CAREER AND CHARACTER OF ABRAHAM LINCOLN. An address by Joseph Choate, Ambassador to Great Britain on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life and his administration, which placed his name so high on the world's roll of honor and fame, has been published by the Chicago, Milwaukee & St. Paul Railway and may be had by sending six (6) cents in postage to F. Honor to Whom Honor Is Due. The railroads have been greatly abused as soulless corporations that were grinding the life blood out of the people. The great Galveston disaster has, however, revealed the fact that the managers of these corporations have hearts which are susceptible of being touched by the cries of distress.

Their trains were placed at the disposal of all those engaged in relief work on the coast. Provisions and supplies were carried forward free of charge, committees from every section of the state were furnished transportation, and when the refugees from Galveston began to pour into Houston and it became a serious question what was to be done with them the railroads solved the problem by furnishing transportation without charge to all who wished to leave and to any point they wished to go. Grand Master Anderson informs us that but for this fact Houston would have been overrun with people who had to be cared for, and that suffering and distress would have been largely increased as well as the cost of meeting conditions which would have prevailed. Bro. Anderson desires us, through these columns, to thank the different roads for the great service rendered his committee at Houston. If it were possible we would be glad to see parallel columns, in one of which should appear the acts of these railroad corporations in a time of great calamity and distress, and in the other the amount contributed by the little two-by-four demagogues who are always trying to array the prejudices of the masses against any and every kind of enterprise.—From the Texas Odd Fellow.

WINDSOR IS IN WAITING

Town Throughed With Visitors for Queen's Funeral.

WINDSOR, England, Feb. 2.—The ancient town of Windsor has undergone a great transformation. Its usually quiet streets are thronging with visitors. The decorations and preparations for the final scenes continue, but perhaps the strangest matter is the large number of wreaths which continue to arrive from all over the world. These are so numerous that the authorities are at a loss to know how to deal with them again it has been necessary to exclude the public from the cloisters, which are already overflowing.

Final arrangements have been made at St. George's Chapel Royal. The purple-covered bier stands awaiting its royal burden. Four shields adorn its sides, each with a golden monogram, "V. R. I."

At Frogmore the cover of the great stone sarcophagus has been rolled away. When the queen's body is laid beside that of the prince consort the stone will be replaced and finally sealed, a marble figure being placed above it.

It is expected that some 1,550 persons will be present at the ceremony in St. George's chapel, although only a portion will be able to witness the ceremony. The little Prince Edward of Cornwall and York and Princess Elizabeth of Hesse arrived at Windsor castle this afternoon.

President McKinley's and Mrs. Garfield's wreaths came today. Great precautions are being taken to have ambulances in readiness in the event of a crush of people.

Blown Through a Window. SALINA, Kan., Feb. 2.—Half a dozen people were injured by the explosion of a gasoline lamp that wrecked the interior of Ollinger's barber shop last night.

Rev. George Caldwell, a United Brethren minister, may die. He was blown through a plate glass window, temporarily blinded by the explosion and burned from head to foot.

ABYSSINIANS IN A FIGHT

Only Meagre Reports of Affair Reach London.

LONDON, Feb. 2.—A telegram to the Exchange Telegraph company from Cairo says severe fighting is reported in Abyssinia. The number engaged is said to be 7,000. The foreign office officials know nothing of any difficulty in King Menelik's territory, but it is not unlikely, they think, that certain malcontent chiefs may have taken advantage of King Menelik's absence from the capital to foment an insurrection.

THE LIVE STOCK MARKET.

Latest Quotations from South Omaha and Kansas City. SOUTH OMAHA. Union Stock Yards—Cattle—There was a good supply of cattle, which gave buyers an opportunity to pound prices down a trifle on such grades as they did not happen to want. The better grades of beef steers held about steady, though the market was not particularly active. The common to fair cattle, however, were very slow sale and bids were generally a little lower. The cow market was in rather unsatisfactory condition today. Buyers stepped out from the first to get their supplies at a lower figure and they would not buy unless they could get what they wanted for less money than they paid yesterday. Some of the choicest bunches of heifers may not have been much, if any, lower, but aside from a few prize bunches the market was very slow and lower. Bulls were also a little weak today and the same was true of stags, but calves did not show much of any change. The stocker and feeder trade held good and firm, the better grades being picked up in good demand at strong prices. There is ample demand at the present time for all the stock cattle of good quality and weight that are being received and in the result the prices paid are very satisfactory.

Hogs—There was another fairly liberal supply of hogs and, as all other points reported a drop in value, the market here opened up 7/16c lower. The bulk of the early sales went at \$5.15 and \$5.17c, the heavyweights bringing the higher price. The hogs changed hands quite rapidly at those prices and it soon became evident that packers all wanted a good many hogs and as a result sellers held their droves at strong prices, which finally raised their hands and began paying \$5.17c for the general run of medium weights and \$5.20 for the prime heavy hogs.

Sheep—There was a good liberal run of sheep for the latter part of the week, but the market was in fairly good shape. Good hand-picked stuff was about steady with yesterday, but the heavy sheep were a little slow and lower. For the week they may be called 1/16c lower, and in some cases more. It is the lighter-weights that are scarce and in the best demand and such kinds are not so much lower for the week. Lambs held about steady today. Colorado stuff sold as high as \$5.20, which is only a trifle more than what the same kind was selling for the first of the week.

KANSAS CITY. Cattle—Beef steers steady, 15c higher; stockers and feeders, \$3.50c; western fed steers, \$4.75c; Texas and Indiana, \$3.85c; canners, \$2.40c; bulls, \$2.60c; calves, \$5.00c.

Hogs—Market 5/16c lower, top, \$5.30; mixed weights, \$3.15c; light, \$3.00c; pig, \$4.50c.

Sheep and Lambs—Lambs steady, medium strong; western lambs, \$5.15c; western yearlings, \$4.50c; ewes, \$3.50c; culls, \$2.35c.

FINE WEATHER ON THE RANGE. Condition of West Nebraska Cattle Coud Not Be Better.

GERING, Neb., Feb. 4.—Up to the present time, better conditions for cattle on the range could hardly have been possible. Such an open winter at this time in January is very unusual, yet it is fortunate that such is the case this winter. The range was not as good as usual, owing to late rains, and the high price of hay has taken hundreds of carloads out of the country. Cattle now, however, are in splendid condition, and on account of the mildness of the winter not so much feeding has been done as is usual. Very severe and long continued storms will have to occur or cattle will go out of the winter in the usually fine condition. There are more cattle in the country than ever before, as many ranchmen held on in preference to selling last fall, when there was a considerable slump in the market prices, hence a shipment of considerable volume may be anticipated during the season of 1901 from the range section of the north Platte valley.
