WASHINGTON, Feb. 11.-If consideration of the naval appropriation bill is completed Monday, as it is supposed it will be, the ship subsidy bill will be called up by Senator Frye and that bill will continue to receive the attention of the senate during the remainder of the day. Senator Caffery will take the floor when the bill is taken up and is expected to occupy the remaining portion of the day, whatever time there may be left. Senator Proctor has given notice that as chairman of the committee on agriculture he will call up the agricultural appropriation bill on Tuesday. There will be no effort to prevent displacement of the subsidy bill by the appropriation bill. The committee on appropriations hopes to be able to report the fortifications appropriation bill by the time the agricultural bill shall be disposed of and the army appropriation bill is expected to be reached later in the week. The plan is to have all appropriation bills acted on as promptly as possible after they are reported, but when there are no

bills of that character before the senate the subsidy bill will continue to have right of way. No decision has been reached yet

as to whether there will be renewed effort to secure night sessions in the considering of the subsidy bill, but the present indications are that there will be no further immediate attempt in that direction. The opponents of the bill declare that in case of a renewal of the night meetings the friends of the bill will be compelled made frequent demands for a call of replied to their names when called. It is now understood to be their purpose not to do this in case of further efforts to bring the bill to a vote by night.

SWARMS OF BOERS.

Major Carew's Column Encounters Them mene and Fierce Fighting Follows. EAST LONDON, Cape Colony, Feb.

11 .- Details have been received here of severe fighting at Tabaksberg mountain, forty miles east of the railway and about midway between Smalldeel and Bloemfontein,

Major Crewe, with a composite column traveling southwest, sighted the mountain on the morning of January 31. He heard heavy firing and knowing that Colonel Pilcher's column was on the other side of the mountain he concluded that this office was in action. Consequently he hurried forward, only to meet Boers streaming down and evidently retiring from Colonel Pilcher's lyddite shelis. Immediately Major Crewe brought three fifteen-pounders and a pompon to bear on the Boers, who, however, were

found to be so numerous that it was impossible to head them. Orders were given to return to camp, about two miles from the mountain. The column rested until 4 o'clock in the afternoon, when the march was resumed southwest.

Major Crewe was just touching the southern point of the mountain when a terrific rifle fire opened from a large force of Boers who were in ambuscade on the mountain. The fight soon became general. The Boers outnumbered the British five to one and were attacking them on both flanks and the rear. The British pompom jammed and became useless. Major Crewe grasped the situation and by a brilliant move got the convoy into a safe position.

Between 7 and 8 o'clock in the evening the Boers charged the position and turned both flanks. The British ammunition became exhausted and Major Crewe was obliged to retire and abandon the pompom after the advance party had endeavored to save it and had sustained severe

losses. A rear guard action was fought by Major Crewe into the camp, where the wagons had been laagered. He personally superintended the retirement, the Boers harassing him throughout. Entrenchments were thrown up during the night.

When morning came Major Crewe started to join General Knox, twelve to keep constantly in the chamber a miles southwest. The Boers immediquorum of their own. AS TO THE RECIPROCITY TREATIES

Condition of the Sugar Beet Industry in Nebraska- Resolutions That Were Adopted-Miscellaneous Matters in Nebraska.

OMAHA, Neb., Feb. 11.-The Nebraska Beet Sugar association held a meeting at the Commercial club rooms. From out of the city there came M. R. Allen, president, Ames; W. G. Whitmore, Valley and James Walsh of Benson. A large number of the Omaha members were in attendance.

Mr. Allen in calling the meeting to order announced that its purpose was to consider laws now pending in congress which will affect the sugar beet industry. In a brief adress he took up the question of the reciprocity treaties with tropical islands and countries now being considered and stated that in each case the sugar producers of the United States would be injured should the treaties be ratified. To the satisfaction of the members of the association he showed that where the tariff was reduced on raw sugar by a treaty it not only reduced the revenues of the government, but brought the sugar raisers of this country into competition with cheaper labor and the more advantageous climatic conditions of the tropical sugar plantations.

He then referred to the conditions of the sugar beet industry in the state, showing that for some things Nebarska is better situated for the successful cultivation of the crop than many other states which are now in advance of this state in acreage and field. The principal advantage possessed by Nebraska in this regard is because of its geographical situation with reference to the live stock markets. It has been demonstrated that the refuse of the beets after the sugar is extracted is one of the best mate-

rials for fattening stock. Referring to his own experience he said that at Ames at present his company is feeding 30,000 sheep which will be placed on the South Omaha market when they are fattened, and that until the food became scarce they were feeding a large number of cattle on the beet refuse.

The reciprocity treaty was discussed by the members present at length and at the conclusion of the discussion the following resolutions

THE LIVE STOCK MARKET.

Latest Quotations from South Onaha and Kansas City.

UNION STOCK YARDS, SOUTH OM AHA-CATTLE-The supply of cattle fell considerably short of the number received the last few days, and, as the demand was of quite liberal proportions, the market on good stuff ruled active and a little stronger all around. There were not many good to choice beef steers offered, and as there was considerable competition on such grades, prices were stronger than yesterday. Where the cat tle just suited buyers they paid fully a nickel more than yesterday and in som cases sales looked better than that. The situation, however, is best described by calling it a good strong market. Common and half-fat stuff did not improve and in fact sellers found it difficult to dispose of that class of cattle. Packers do not want them and will take them only at their own prices. The cow market was also active and stronger on good stuff, the situation being much the same as on fat steers. As the supply was limited the more desirable bunches were out of first hands early in the morning. Bulls, calves and stags could be quoted just about steady with yesterday, no particular change being noticeable. The de-mand for good stock cattle was equal to to supply this morning and prices remained stationary. There was not much offered in that line and consequently sell-

ers had little difficulty in disposing of their holdings. HOGS-There was not as liberal a sup ply here as yesterday and the market opened 507% c higher. The first sales were mostly at \$5.271/2 and \$5.30 and as high as \$5.32½ was paid for prime heavy-weights. The hogs however, did not move toward the scales very rapidly, as packers did not like to pay the advance and were slow about taking hold. After about thirty loads had changed hands the feeling seemed to be a little easier and not much was done for a time.

SHEEP-There were only about thre-cars of sheep included in today's receipts and consequently hardly enough to make a good test of the market. The few bunches offered, though were bought at just about yesterday's prices. sold as high as \$5.00 and ewes brought \$3.60. The light supply of wethers continues, the bulk of the receipts being ewes and lambs, which naturally make the wethers bring strong prices, as compared to the ewes and lambs. Feeder may be quoted practically steady, both for the day and for the week.

LINCOLN, Neb., Feb. 11.-The legislative committee of the State Teachers' association at a meeting agreed on an entirely new law to be substituted for the present one relating to compulsory education. One of its chief features is the requirement that all children between the ages of 7 and 14 years shall attend school twothirds of the number of weeks school is held in the district where the child resides. In all districts other than city districts truant officers may be appointed by the board to see that the provisions of the act are enforced. officers at their discretion. A peculiar feature of the proposed bill, and one that will evidently prove fatal to the accomplishment of what

it seeks, is lack of any punishment for parents or guardians who violate its provisions. The present law, sub-division 16 of chapter 79, is entirely repealed.

It is made the duty of the census enumerator each year to ascertain the date and place of birth of each child in the district, and he is empowered to administer an oath or affirmation to one from whom he desires information. here today that gave any intelligence as to what progress is being made by the Morgan syndicate. It is learned from private advices that very little cash will be required to consummate the deal. If the plans go through, Mr. Carnegie will withdraw entirely from the affairs of the Carnegie company, taking for the transfer of his stock a sum exceeding \$85,000,000 in guaranteed 5 per cent bonds, which are to be a first lien on the Carnegie and other properties.

Gossip centers now mostly on the price that will be paid for the \$5,000 shares of stock. Two years ago H. C. Frick and others, including ex-Judge W. H. Moore, obtained an option on Carnegie's holdings, paid \$1,-000,000 in hand money, falled to complete the deal and lost the \$1,000,000. At that time Carnegie stated that the next time he set a price it would be high. This statement is being referred to as evidence that the price placed is considerably above the par value of \$1,000 a share. It is understood in the Carnegie building that Mr. Carnegie has taken steps to protect the interests of his younger partners. One of the few officials of the company who could be seen today said in relation to the report from New York that the minority stockholders had taken steps to block the deal.

Lord Pauncefote will probably be the medium through whom the answer will be sent and by whom the subsequent negotiations will chiefly be conducted. In British official opinion it is likely that several months will elapse before the matter reaches a conclusion, by which time the Hay-Pauncefote treaty will have lapsed on the basis of the senate's amendments. The British counter proposals are now formulating and it is hoped an entirely new agreement, satisfactory to both countries, will eventually be reached.
