

"It Seems as Though my Back Would Break."

Is it not true? Women suffer, feel the very life crushed out of them, grow old before their time. Each morning wake up determined to do so much before the day ends, and yet—

Before the morning is very old the dreadful BACKACHE attacks them, the brave spirit sinks back in affright; no matter how hard they struggle, the "clutch" is upon them and they fall upon the couch crying:

"Why should I suffer so? What can I do?"

The answer is ready, your cry has been heard, and a woman is able to restore you to health and happiness.

Backache is only a symptom of more fatal trouble—heed its warning in time.

Lydia E. Pinkham's Vegetable Compound will stop your torture and restore your courage. Your pains come from unnatural menstruation or some derangement of the womb. Let those who are suffering read Mrs. Morton's letter and be guided by her experience.

AN OPEN LETTER TO WOMEN.

DEAR MRS. PINKHAM—I have been so delighted with Lydia E. Pinkham's Vegetable Compound I thought I would write and thank you. My system was entirely run down. I suffered with terrible backache in the small of my back and could hardly stand upright; was more tired in the morning than on retiring at night. I had no appetite. Since taking your Compound I have gained fifteen pounds, and am gaining every week. My appetite has improved, have no backache, and I look better than I ever looked before.

"I shall recommend it to all my friends, as it certainly is a wonderful medicine."—Mrs. E. F. MORTON, 826 York St., Cincinnati, O.

When a medicine has been successful in restoring to health more than a million women, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

\$500 REWARD

Owing to the fact that some skeptical people are from time to time questioned as to the genuineness of our special letter we are constantly publishing, we have which will be paid to any person who can show that the above testimonial is not genuine, or was published before obtaining the writer's special permission.—LYDIA E. PINKHAM MEDICINE CO.

ARE ROLLING IN WEALTH. Osage Indians Are the Wealthiest People on the Earth.

At the office of the commissioner of Indian affairs a few days ago contracts were let to cattlemen for the renting of the pasture lands of the Osage Indians in Oklahoma. These Indians have 800,000 acres of pasture lands, of which 600,000 acres were rented. This will add to the annual income of the tribe about \$120,000, says the Washington Post. "And already," said Captain A. C. Tonner, assistant commissioner of Indian affairs, yesterday, "the Osage Indians are the richest people in the world. Several years ago the lands of the Osages in Kansas were sold, the sale realizing \$8,000,000. This money was placed in the treasury of the United States, and from it the Osage Indians derive an annual income of \$400,000. In addition to this they own 1,570,195 acres of land, which is fairly worth \$5 an acre, making the value of their land holdings \$7,850,875. There are 1,972 Indians in the tribe, counting men, women and children. They all share alike in the tribal wealth, and when a child is born it becomes a joint property owner with all the other Indians in the tribe. The profits from the \$8,000,000 held in the treasury, the recent rental of pasture lands, and other sources of revenue, give the Osages an annual income of approximately \$600,000, a per capita income of \$304.25 for each man, woman and child. When a family consists of man and wife and eight children, as often happens, the family receives each year in cash \$3,040, and on their lands they raise all their foodstuffs and considerable grain for the market.

The realty holdings of the tribe have a per capita valuation of \$3,957, or, for a family of ten, \$39,570. There is no other race of people in the world, it is declared, that can make such a showing. The Osage Indians have not failed to profit by this wealth. The sons and daughters of families are sent east to colleges and boarding schools to be educated, many of them receiving professional training. There are a few families, of course, which still live with almost the simplicity that marked the lives of their savage ancestors, but the desire for education and culture is rapidly spreading, and when the Osages become citizens a few years hence they will be fully equipped for the duties and responsibilities of citizenship. The homes of some of the most progressive Osages compare favorably with the dwellings of white people of equal wealth. Their houses are richly furnished with carpets and modern furniture, and in many homes there are pianos upon which the boarding school training of the daughters has taught them to perform. Horses and carriages are not infrequent, and though the automobile has not yet made its appearance, it is not an impossibility of the future.

NEW PLATE FOR CAMERAS.

Invention That Will Prove a Boon to Amateur Photographers.

The difficulties involved in the manipulation of a long celluloid film have prevented the extensive use of cinematographic apparatus by amateur photographers. To avoid this objection Leo Kamm has invented a camera—the kammatograph—in which a circular glass plate takes the place of the celluloid film. The plate can be made to rotate rapidly by means of a multiplying gear, and at the same time it travels laterally. A small lens forms an image upon the plate, and when the plate is put in motion these images are multiplied into a series of pictures arranged in a spiral. The plate is, of course, developed precisely in the same way as an ordinary negative, and a positive is then taken from it. To display the series of pictures it is only necessary to place the positive in the camera and to arrange the camera so that the beam from a lantern close to it can pass through the lens. The plate is then rotated as before, and the succession of the pictures projected upon the screen reproduces the original movements. About 600 pictures can be photographed during the motion of a single plate at a rate of about twelve or fourteen a second. The camera is very compact, and both as regards price and adaptability is within the reach of any photographer who wishes to secure pictures of rapidly changing scenes and moving objects. The small size of the pictures will not permit of projection upon a large screen, but the views can be shown large enough for ordinary purposes.—Chicago Chronicle.

Short of Water.

Utah proposes to avert pending calamity to her agricultural section by supplying the Great Salt Lake basin with needed water. Irrigation has cut off the supply and the lake itself is in imminent danger of drying up. The usual supply of water is being withheld and evaporation is rapidly lowering the level of the lake. Centuries ago the shores of the great inland salt sea were high on the mountains, where the line of the ancient brook is visible today, and the lake, which has sunk to its present dimensions, promises to disappear far more rapidly than in the ages past.

Traveling First Cabin.

General Francis Vinton Greene always travels first cabin. He is a millionaire, and can afford to. Mrs. Greene, who was a Miss Chevalier, lived in Washington before her marriage, and whenever she and the general revisit the capital they have a royal time. Their recent inauguration jaunt lasted ten days, during which period they occupied the home of Archibald Hopkins in Dupont Circle, paying a rental of \$700. Wouldn't you like to rent a few Washington houses at \$25,000 a year.—New York Press.

You'll find watered silk in the dry goods department and dry champagne among the wet goods.

A Month's Test Free.
If you have Rheumatism, write Dr. Shoop, Racine, Wis., Box 143, for six bottles of his Rheumatic Cure, express paid. Send no money. Pay \$3.00 if cured.

Where they pay attention to the little things—in the orphan asylum.

California Rates Open to Everyone.

The low rates to San Francisco which the Burlington Route has made for the Emporia League meeting in that city in July are open to everyone. They are the lowest ever known. From Omaha, for example, the round trip to San Francisco will be only \$45. Return limit, August 31. Through cars will be run and stop-overs allowed, going and returning.

It is not too early to make your plans for the trip. To obtain full information about it write to J. Francis, General Passenger Agent, Burlington Route, Omaha, Neb.

A man can be too confiding in others, but never too confident in himself.
