

The Republicans of Red Willow county are hereby requested to send delegates to the Republican county convention to be held at Indianola on Tuesday, August 29, 1901, at 11 o'clock a. m., for the purpose of selecting 13 delegates to the state convention and placing in nomination a county ticket as follows:

- One County Surveyor
One County Coroner
One County Judge
One County Superintendent
One County Sheriff
One County Clerk
One County Treasurer
One County Commissioner for the Third district and for the transaction of such other business as may properly come before the convention.

The various precincts are entitled to representation based upon the vote cast for presidential electors at the last election, together with two delegates at large from each precinct as follows:

Table listing precincts and delegates: Alliance, Beaver, Bondville, Box Elder, Coleman, Danbury, Driftwood, East Valley, Fritch, Gerver, Grant, Indianola.

And for the purpose of selecting delegates to this convention the committee recommends that primary elections be held in each precinct on Friday, August 16, 1901, at such hour and place as the various precinct committees may name.

C. B. GRAY, Secretary. C. F. BARCOCK, Chairman.

COUNTY CENTRAL COMMITTEE.

THE great corn-belt got it "under the belt," this year.

THE Republicans of Red Willow county will name the winners, Tuesday, August 20th, in Indianola. The regular convention call appears in full at the top of this column.

THE fall election is one of large importance and the matter of selecting candidates should engage the earnest attention of every Republican in Red Willow county, during the few weeks before the convention. The selection of clean men of ability means certain victory.

DOUBTLESS for fear that brooding over the big steel strike might inspire some crank to a desperate deed the police department in New York is taking unusual precautions to guard President Schwab of the Steel trust. The same is true of J. Pierpont Morgan, to guard whom four detectives are reported to have been assigned.

MORGAN, the king of the syndicates, says that the United States iron and steel corporation will never concede the point the strikers demand, the forcible unionization of any plant under its control, and Shaffer says that the amalgamated association will never accept any compromise. So the working man appears to be between the devil and the deep sea.—Journal.

Desirable Foods for Summer.

Lean meats, eggs, milk and cheese are, in proper proportions and when taken with succulent vegetables and fruits, desirable foods for summer. But the fats of meats and fat meat such as pork, large quantities of cream and butter, as well as olive oil, should be avoided. The latter, however, is preferable, as it does not contribute so rapidly to the bodily heat as do the animal fats. Avoid hot and heavy desserts. Use fruits in abundance.—Mrs. S. T. Rorer, in The Ladies' Home Journal for August.

Burlington Crop Report.

The Burlington crop report issued Tuesday and made up of information received Monday, contains a summary of conditions in the state. It indicates that in few places on the Burlington lines will corn exceed half a crop. The wheat is much better. The report says: On the Northern division, which includes the northern main line from Omaha to Alliance, the North Platte branches and the line from Pacific Junction to Kearney, the winter wheat is good, and mostly threshed, and yields from fifteen to forty bushels to the acre; spring wheat is from one-third to one-half a crop, with straw short. Corn, because of no rains recently, is seriously damaged, despite that it has stood the intense heat and drouth, and in places will make half a crop if rains come within a reasonable time. Fruit is damaged, pastures are drying up, gardens are destroyed, and the potato crop will be very short.

The Southern division, which includes the lines from St. Joe and Atchison to Oxford, and branches, reports good good winter wheat, mostly threshed; corn, with only local showers, seriously damaged, but with rains may make half a crop; oats from one-fourth to one-half a crop, and being mostly cut for feed; fruit damaged, with apples and peaches falling from the trees; feed will be scarce, unless copious rains come soon; pastures dry; hay short.

On the Western division, which extends from Hastings and Red Cloud west into Colorado and Wyoming the wheat is good; corn over half of the division with no chance of a crop at all and over the other half with chances yet of half a crop; oats a failure, being cut for feed; alfalfa and wild hay, short; from Denver to Lyons, Colo., crops being saved by irrigation, but east of there the streams are dry and grasshoppers are doing much damage.

The Wyoming division, which includes lines west of Alliance, reports wheat as fair; corn at the east end helped by a half-inch of rain lately, and chances of half a crop; oats a failure and being cut for feed; good hay crop from Seneca to Alliance except second crop of alfalfa, which is being injured by bugs; good hay from Alliance to Edgemont; range good from Edgemont west; also good in the Black Hills; cattle looking fine.—Lincoln Journal.

Burlington Seeks Feeder.

LEAD, S. D., July 24.—(Special.)—The rumors of the purchase of the Black Hills & Ft. Pierre railroad by the Burlington are all but confirmed. It is practically certain that August 1st the Homestake company will turn over to the Burlington about forty miles of narrow gauge road, embracing the line between this city and Piedmont, with several spurs into adjoining mining and wood camps. The Homestake company has operated the road principally for the wood and fuel that are needed at the mine and mills. It is remarked here that it is singular that the Homestake company would sell the road, for it is one of the most essential adjuncts of the company. Nothing can be learned of the terms or conditions of the proposed sale. It is asserted that the Burlington company will put on the third rail to the road immediately, which will give that company a direct standard gauge road into Lead from the main line. It will save to the city large freight accounts and extra bills for reloading at Piedmont and Egglewood. It is reported that most all of the section men of the Black Hills & Ft. Pierre road have been laid off indefinitely and that the order has been issued for an accounting of all the rolling stock, supplies, etc., of the company, to be ready by the first of next month. It is believed that the Burlington at that time will take control of the Homestake road.

The Burlington company has recently asked the city council of Lead for a franchise running for ninety-nine years for an electric road up Main street to the depot of the Black Hills & Ft. Pierre road. It is to be an extension of the Deadwood-Central narrow gauge road between this city and Deadwood. It is understood that the company will put in the trolley system on this line yet, this year. The business men of this city are feeling very good over the proposed sale. It means less freight and better railroad facilities all around.—Lincoln Journal.

Died in a Well.

Last Friday, George Wolf, who resides near Box Elder, was found dead in Frank Klamborowski's well, about twelve miles northeast of Box Elder, in Frontier county. The well is 225 feet and the deceased had gone down into the same to clean it. Only one bucket had been removed and receiving no signal, Mr. Klamborowski went down to investigate. He found Mr. Wolf sitting up against the side of the well dead, being up to his waist in water. The coroner's jury decided that death was caused by a chill as deceased was warm before descending into the well, and his health was impaired at the time in addition.

Funeral services were held in the Congregational church, Indianola, Sunday, Rev. Adams of Arapahoe conducting same. Deceased carried \$1,000 insurance in the Modern Woodmen order and the members of his camp at Center Point attended in organization. His tragic death appeals to all tender hearts in sympathy for the bereaved family.

Death Ended His Suffering.

Monday, in Indianola were enacted the closing scenes in a sad, but eventful career, when the remains of Captain John J. Lamborn were laid to rest in the cemetery at that place with Masonic honors, Rev. Trites of Wilcox conducting the services in the Methodist church, at three o'clock in the afternoon.

The deceased passed away at Santa Fe, New Mexico, on Wednesday, July 17, 1901, and the remains were brought to the old home in Indianola by Mrs. Lamborn and son Charles. The services drew out a large concourse of deeply sympathetic friends.

John J. Lamborn was an early settler in Red Willow county and was for many years closely associated with its business and political affairs. He will be best remembered in this county as cashier of the State Bank of Indianola and as manager of the heavy real estate and loan business of J. E. Sealey of Poughkeepsie, N. Y. He served the county ably in the legislature to which he was elected in 1894. Later as receiver of the Bank of Wilcox he brought order out of chaos and placed the bank on a sound basis of profit and success.

At the beginning of the Spanish-American war he recruited company L, Third regiment of Nebraska volunteers, and was made captain of that company. He went south in 1898 with the regiment and after seven months' service was compelled to resign and returned home broken down in health. Since returning from the south his constant aim has been to recover his health, and his location near Santa Fe, New Mexico, was in the furtherance of that fond hope. It was his purpose to accompany J. W. Dolan of Indianola to California in search of location and health, when the fell destroyer closed his earthly career by a hemorrhage.

The deceased was a generous friend—a worthy foe—and his death ends an energetic, able and promising career. The family may decide to return to Indianola to live. They have the deepest sympathy of a host of firm friends.

Death of Frank Dunkin.

Mr. Frank Dunkin, the well known railroad man, who resided on South Fifth street, near the N., C. & St. L. depot, died, last night at 11 o'clock, after a lingering illness with consumption. Mr. Dunkin only returned three months ago from a sojourn in Montana, Colorado, Alabama and other points in the hope of benefiting his health, but the desired result was not attained, and he had gradually grown worse until claimed last night by death.

Mr. Dunkin was very popular, having made numerous friends since becoming a resident of this city, all of whom exceedingly regret to learn of the death of such a worthy and good man. He occupied the position of yard master for the N., C. & St. L. before being compelled to retire from active work, and was held in high esteem by the officials.

Besides his wife he left three children, a brother and sister in Prattville, Ala., a brother in Memphis, and one at Birmingham, Ala., Mr. Logan Dunkin, who was at the bedside when the end came. Mr. Dunkin was a member of Shelby lodge of Odd Fellows in Memphis. The funeral services, which have not yet been arranged, will be held under the auspices of that organization. The body will be buried here.—Paducah (Kentucky) Register, Wednesday, June 19th.

Outing for Busy Business Men.

Yellowstone Park is the place to go if you can get away from your business for only ten days or two weeks at a time. The trip there and back can be made in little more than a week. And such a week! For enjoyment, novelty and interest it will eclipse anything in your experience. The air is delicious—cool as cool can be. The scenery is magnificent, and the 150-mile stage ride past geysers, boiling springs, lakes and canyons is enjoyable in the highest degree.

Write to J. Francis, general passenger agent, Burlington Route, Omaha, Neb., for folder giving full information about the park. It contains a large map of the park, as well as a description of the principal points of interest.

Excursion rates daily—ask the ticket agent about them.

The Voice a Revealer of Character.

There is no greater revealer of character than the human voice. It is the first thing that strikes us in a stranger, or in a new acquaintance. If it has that spontaneous ring of truth that no training can impart we recognize its appeal for confidence. Some voices have the jar of falsehood and are as full of warning as the hiss of a serpent. The unconscious natural voice is to be regarded as an index of character. To speak promptly and positively is generally to act promptly and positively; to speak gruffly is to act positively, and to speak rudely and rudely is a good way to make rude action easy.—Amelia E. Barr, in The Ladies' Home Journal for August.

An Argus Quartette.

Mark Parks came down from McCook, Monday, to see the folks at home a few hours. Miss Nellie West has been selected as one of the teachers in the McCook schools of the coming term. Miss West is to be congratulated. E. M. Crone, who has been employed in this office for some months past, has gone to McCook to seek employment on the railroad. The Argus wishes him good luck. Mrs. Ella Carmony, after a pleasant visit of a week near this city with her parents, Mr. and Mrs. C. C. Cox, returned, Monday night, to her home in McCook.

Through Yellowstone Park.

A personally conducted excursion party leaves Nebraska, Kansas and Colorado points Tuesday, Aug. 20, for a ten days' trip to and through Yellowstone Park. The cost will be less, considerably less than \$100. That amount covers every expense of the trip—railroad fare, sleeper both ways, meals en route, hotels and stage through the park.
