The Candidates.

Judge S. H. Sedgwick was born on a farm in Du Page county, Ill., March 12, 1848. His parents were natives of Connecticut but had removed to New York before coming west in 1844. Judge Sedgwick had the advantage of a college education, having graduated from the classical course at Wheaton college, Wheaton, Du Page county, Ill., in 1872. He studied for one year in the law college at Ann Arbor and was admitted to the bar in Wisconsin in 1874. Later he studied in a law office at Green Bay, Wisconsin. He began practice in Brown county, Wisconsin, but shortly afterwards moved to Kewanee, the county seat of Kewanee county, Wisconsin, where he opened an office. He was married in 1878 and in the fall of the same year he came to Nebraska and opened an office in York where he has engaged in the practice of law since. In the fall of 1895 he was elected district judge although his district was a fusion district. He served in that capacity four years. In 1899 he was re-nominated, but was defeated by a small majority. Last spring he was appointed a commissioner to the supreme court which position he now hold.

Mr. Goold has served for one term to the satisfaction of his party colleagues and his friends are urging that he is entitled to the indorsement of a nomination for another term. Mr. Ernst was selected by the Lancaster convention as the preferred candidate of this county. He was not an aspirant for the place. He has been for more than twenty years in the land department of the Burlington, except for a few years when he was manager of the Lincoln Street Railway company and is now in charge of the Nebraska lands of the company. His splendid business qualities and especially his knowledge of the most improved method of accounting and auditing will make him one of the most valuable members of the board, if elected.—Lincoln Journal.

Our Next Superintendent.

While Mr. Dutcher, the Republican nominee for superintendent of public instruction, is an old settler, perhaps a few words by way of biography may not come amiss. THE TRIBUNE prefaces the formal sketch with the information that Mr. Dutcher is well qualified by education and experience to give the people of Red Willow county an excellent administration of the educational affairs of the country and that he deserves the loyal and unwavering support of all Republicans in the county:

EUGENE S. DUTCHER.

The subject of this sketch was born in Floyd county, Iowa, 1862; came to Red Willow county, Nebraska, in May, 1883, where soon after he became of age he took a timber-claim and homesteaded. His early education was received in the country school. At the age of 18 he commenced teaching and followed the profession six years, then took a Normal course, after which he taught until he entered the ministry of the M. E. church. He was appointed pastor at Trenton, Neb., in the fall of 1890. In the spring of 1891 he accepted a call to do missionary work among the Navajo Indians of New Mexico and Arizona. From this time until September, 1899, he was engaged in educational and missionary work among the Indians in New Mexico, Arizona, Colorado and Montana; establishing two missions and was closely associated with the Government Indian School work. From the Epworth Piegian Indian Mission, Montana, where he was stationed for more than six years he moved to his home near Indianola, where he now resides.

BARTLEY.

Ed Price had business in McCook, Tuesday.

Dr. J. E. Hathorn went up to McCook, Tuesday night, to take No. 6 for Lincoln, where he attended the Republican state convention, Wednesday, as one of the delegates for Red Willow county.

Don't forget the bargains in Boys' Knee Pants at the Bee Hive.

THE TRIBUNE has no doubt of the ability of the Republicans of Red Willow county to elect Ed Wilcox county clerk against any and all comers, without outside assistance, but if Colonel Phillips insists upon helping us, perhaps we ought not to object.

It should be the earnest and constant effort of western senators and congressmen to see that while millions upon millions are spent annually in improving harbors and rivers—and much of it wasted—that the west should have a proper share for irrigation purposes. The diverting and impounding of headwaters might relieve the flood situation in the south and be a source of economy as well as of blessing where used in irrigation, thus subserving a double purpose.

THE Bartley incident, which conspicuously overshadowed other features of the late Republican state convention, is now closed for the present. The resolution is in the platform and Bartley is in the penitentiary. Now, THE TRIBUNE has not been overwhelmed by the mawkish sentimentality urged by Bartley's friends to secure his pardon; we do not now and have not considered that the punishment so far inflicted has adequately fitted the offense; and again, Bartley's unrepentant spirit—his disdain of the "white feather" has not had a compelling influence on our sympathy or judgment, but this circumscription of the term of the parole by two weeks and more in response to a demand of the state convention, touches the first sympathetic chord. Had THE TRIBUNE given Bartley a 63-day parole—which it wouldn't—by all the gods big, little and indifferent, that parole would have been 59 days, 23 hours and 60 minutes of duration, should the heavens roll up like a scroll the next holy minute!

Burlington Reaches Out.

That the Burlington is considering the purchase of the Omaha, Kansas City & Eastern and the Kansas City & Northern, connecting roads, at foreclosure sale, is a late rumor in Kansas City railroad circles. The two joint lines, which extend from Kansas City, via Pattonsburg, to Quincy, Ill., practically parallel the Burlington's Chicago line. Their purchase would give the latter road double track between Kansas City and Quincy and relieve the main line of much Kansas City-Chicago traffic. The roads are now owned principally by the Gates syndicate, and are to be sold under foreclosure in October.

These lines, together with the Omaha & St. Louis, comprise the Quincy route. The Wabash has but recently purchased the latter line, which runs from Council Bluffs to Pattonsburg, Mo., connecting there with the other two roads. If the Wabash had desired them, it seems reasonable to suppose that it would have purchased them at the same time that it did the Omaha & St. Louis. The rumor that the Burlington was about to purchase these lines, which are now all that is left in the hands of the receivers after the breaking up of the Kansas City, Pittsburg & Gulf system, of which they were a part, has been heard before. An official of the Burlington said, yesterday, that he had heard nothing official about the matter, but he did not believe the purchase would be made.—Omaha Bee.

Trains in Buffalo Bill's Land.

A new time table for the Wyoming division of the Burlington, which went into effect Sunday, August 25th, shows the first regular train service on the Cody branch in the Big Horn basin.

This branch, which is to be built to the town of Cody, leaves the main line at Toluca and has already been completed to Bowler, a distance of 72.7 miles. Between the points the following stations have been established: Ronald, Maffin, Coburn, Morin, Keiser, Pryor, Chicopee, Oswald and Crockett. Day telegraph offices will be maintained at Coburn, Pryor and Bowler for the present.

Train service on this branch will be daily except Sunday, a train leaving Toluca at 12:20 a. m. and arriving at Toluca 5:10 a. m., leaving Bowler at 7:00 a. m. and arriving at Toluca 11:50 a. m. A close connection is made with west-bound trains on the main line, making it possible for one to leave St. Louis before noon Friday and eat breakfast in Bowler Sunday morning.

The Big Horn country, the scene of the fondest hopes of William F. Cody's heart, is rapidly filling up with settlers. Buffalo Bill's great irrigation project and his scheme for a large cavalry school are attracting people by the thousands. Four hundred and fifty Mormon families alone have trekked into the country within the last several months.—Omaha Bee.

A Cure for Cholera Infantum. "Last May," says Mrs. Curtis Baker of Bookwaller, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions.
