HAPPILY, the style of campaign followed by Jasper Phillips of the Indianola Reporter grows yearly more distasteful and unsuccessful.

Just make up your mind to vote the Republican ticket straight, this November, state and county. You will be relieved of any possibility of making an error.

The Schley investigation has revealed many petty bits of ignoble human nature, with little else that is compensating. All in all, it's a discreditable exhibition of envy and spitefulness.

JOHANN MOST'S seditious article published coincidentally with the assassination of President McKinley drew him one year in the penitentiary. He may congratulate himself on getting off so lightly.

In view of the numerous warm experiences of the past year, hades has no terrors for the average resident of Beaver City. Indeed it has a reminiscent, summer-resort smack about it quite charmingly cool to some of them.

The official ballot, this year, will be much smaller than last year. It will be 9x24 inches. Under the new law there will be one-fourth less tickets printed, which will be a corresponding saving to the county.—Beaver City Tribune.

AMONG America's most industrious and provident people are the Swedes. That country's balance in the exchange of money orders with the United States, the past year, is 41,000,000 kroners, much of which, it is fair to assume, has gone over to the old country to assist other Swedes to come to America.

The indications are clear that the state will have another siege of smallpox to combat this winter. The disease has made its appearance in Omaha, Lincoln, Hastings and a number of other points in various sections of the state, and in severer form than last winter. It is clearly the duty of the state and municipal governments to be wideawake about this matter and to use every possible preventive of its spread.

THE most competent estimates of the world's wheat crop place the total slightly in excess of the previous two years. There is little, if any prospect, however, that this will have any substantial effect upon prices, as the shortage in other foodstuffs, particularly corn, will more than take up this slight excess. The American farmer is assured of a market at good prices for all his wheat, and Nebraska will come in for more than its usual share.—Bee.

THE Beaver City Tribune lost a subscriber, last week, and the only reason the editor can give for the catastrophe is the fact the editor on a recent occasion nearly broke his back carrying water to save from burning a building owned by said subscriber in a late fire in Beaver City. How the subscriber must have hated that misguided editor! However, as the editor still retains 1149 subscribers on his list he has decided to continue the publication of his paper.

MR. O. L. THOMPSON, the Republican candidate for treasurer, is so well and favorably known throughout the county that he needs no introduction to our readers. During his two years occupancy of the office Mr. Thompson has conducted the affairs of his office in a business-like manner, and by his courteous treatment toward all who have transacted business with him, he has made scores of warm personal friends in every precinct of the county who will see that he is reelected by an overwhelming majority.—Bartley Inter-Ocean.

We are going to have school just the same and our supplies are much lower in price. The Bee Hive.

Rain and sweat have no effect on harness treated with FUREKA HARNESS OIL. It resists the damp, keeps the harness soft and pliable, fills the cracks and does not wash off. No sun-bronze face to clean and cut. The harness not only keeps looking like new, but wears twice as long by the use of FUREKA HARNESS OIL.

Sold everywhere in cans—all sizes. Made by Standard Oil Company.

Lion Coffee

is 16 ounces of pure coffee to the pound. Coated Coffees are only about 14 ounces of coffee and two ounces of eggs, glue, etc., of no value to you, but money in the pocket of the roaster.

Henry L. Goold Withdraws.
The withdrawal from the Republican state ticket of Henry L. Goold, nominee for regent, is a credit to the gentleman's judgment and party patriotism, relieving the party of any and all embarrassment and placing himself before the people in the proper light. Under the circumstances placing him on the state ticket was an error.

In connection with his withdrawal, Mr. Goold makes a statement which contradicts in important points statements made by Ex-State Treasurer Bartley, and which place the former in a much more favorable light before the people. He admits the receipt of the money by a bank of which he was president—claiming that it was not a personal loan. Notwithstanding Bartley says he never received a cent of the \$1,000 back, Goold says he holds Bartley's receipt for \$500. Further, Goold states that of the nearly \$50,000 liabilities of the failed bank in which he and wife were the largest depositors at the time of the failure and two-fifths owners of all the stock, he has alone paid off all but about \$2,500, (exclusive of his and his wife's claims) and that all depositors will eventually be paid in full. In conclusion, Goold says, "At no stage of my dealings with Bartley have I ever been conscious of a dishonorable or dishonest act."

Mr. Goold makes no explanation of the voting of his home county delegation in the late state convention to forthwith return Bartley to the penitentiary.

HASTINGS' city council has decided to compel every person in that city who has not been vaccinated in the last three years to be properly and effectually vaccinated.

THE Arapahoe Mirror, C. E. Reed, editor, just couldn't stand it any longer and has come over to the Republican party, body, soul and breeches!

BARTLEY has doubtless squared that delegation account with Goold.

Don't forget the bargains in Boys' Knee Pants at the Bee Hive.

HAS THE BURLINGTON.

Morgan-Hill-Harriman Syndicate Files Its Papers of Possession.

BURLINGTON, Ia., Oct. 16.—(Special Telegram.)—Articles of incorporation of the Chicago, Burlington & Quincy Railway company were filed in the county auditor's office in this city this afternoon. The capital stock of the new company is \$100,000,000 and its object, as set forth in the articles of incorporation, is to acquire the Burlington system and other roads and to maintain a railroad in the state of Illinois, Iowa, Missouri, Kansas, Nebraska, Colorado, Wyoming, South Dakota, Montana, Wisconsin and Minnesota.

The corporation began Oct. 15, 1901, and will continue for fifty years, with the principal place of business at Burlington, Iowa.

The understanding is that the new corporation is merely the first step to put matters in shape for the transfer of the property to the Morgan-Hill-Harriman syndicate. According to the rumors that are floating about here, this corporation will take charge of the Chicago, Burlington & Quincy Railroad company and the many lines leased and controlled by the company and then transfer them altogether to the Morgan-Hill-Harriman syndicate.

This new corporation is legally entirely separated from the Chicago, Burlington & Quincy Railroad company. The old company is incorporated under the laws of the state of Illinois, while the new one is controlled by the laws of the state of Iowa. There is but one change in the name of the company. The old is a railroad company, the new is a railway company.

The incorporators, J. C. Peasley, J. M. Dering, J. D. Connell, W. W. Baldwin and E. M. Shelton, met in Chicago, Tuesday, and formed the articles of incorporation, but nothing was given out about the matter until this afternoon at 3 o'clock, when the papers were filed in the office of the county recorder. The same papers will be filed, tomorrow, in the office of the secretary of state at Des Moines.

The first meeting of the incorporators of the Chicago, Burlington & Quincy Railway company will be held in Burlington. The new incorporators will probably meet on Saturday and elect officers, and steps contemplated for taking control of the Chicago, Burlington & Quincy railroad by the new company may be discussed.

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

Mistakes Made at the Mint.
John Erhard of Philadelphia has a coin dated 1891, which has a head on either side, showing that mistakes are made even at the mint. Every finished coin passes through the hands of a great many experts, and there is little chance of an imperfect piece escaping this scrutiny. There are said to be many of these in circulation, however. No particular value is attached to the coins outside of their rarity as curiosities.
