Nor a few anxious Nebraskans doubtless hope it will be a long time before Bartley speaks again.

POSTOFFICE inspectors all over the United States have been ordered by the department to obtain a complete list of all the anarchists in their respective districts as soon as possible and forward them to Washington.

Two and a quarter million tons of sugar were consumed in America, last year. It is estimated that the beet sugar output, this year, will not exceed 150,000 tons. A million and a quarter tons of sugar will be imported, this year, so there is the amplest room left for the beet sugar industry to expand.

SOME editors are anarchical in their utterances, unintentionally, we opine. A scamp stole a box of oysters from a Bartley merchant, recently, and the local paper thus recommends punishment dire: "Such thieving scoundrels are a stench in the nostrils of any community, and if caught in their nefarious work, should be haltered up and tied to the top end of a telegraph pole as a warning to others of their ilk." The language, well, it's excessive, extravagant, at best. Let the punishment fit the crime.

It is generally known by this time that Stephen Adams, the composer, and Michael Maybrick, the baritone singer, are one and the same person, but (says the "Metronome") an interesting fact concerning the first singing of "The Holy City" is not generally known, viz., that Mrs. Florence Maybrick was the one who first sang the words which have aided so materially in making the name of "Stephen Adams" famous. It was aboard Michael Maybrick's yacht that Michael Maybrick composed "The Holy City," and it was there that Florence Maybrick, now in prison, first gave voice to its melodious strains.

General Attorney Manderson of the Burlington was in Washington, this week, securing the approval of the secretary of war on the company's plans for a new bridge over the Platte river at Plattsmouth. The present piers will be widened at the top to accommodate a double track, although but a single track will be built at present. The structure will be built much heavier and stronger to meet the demands of heavier locomotives and cars, and with a view to the future's demands.

A new class R engine from the Baldwin locomotive works is expected to arrive in Lincoln, tomorrow, to be sent to the northwest. Eleven others are to follow this first shipment. John T. Rivett is once more at his old stand in the Burlington carpenter shops. He takes up his duties as foreman with a relish after many weeks spent in his old home in England. The Burlington will experiment with acetylene gas headlights. Two engines have been rigged with the new lights and will be tried for some time. While the light is not so strong as the electric arc in service on some of the engines, yet it is very bright, throws a light a quarter of a mile ahead of the train, and can be maintained with much less expense. It is said that five pounds of carbide will run a headlight for an entire night. The new light is the invention of M. D. Elliott of Chicago, and he placed the two lights on Burlington engines here. The first trial trip of the new light was on the engine pulling No. 43, last night.—Lincoln Journal.

Against the World.

Kansas City's great annual fancy stock show of prize-winning Herefords, Short-horns and Galloways was opened in their stock pavilion, Monday, with close to 1,000 entries, including the best of the great breeds represented in America and numerous imported animals. It was one of the best shows ever held in Kansas City or in America.

W. N. Rogers of Shadeland Park Stock Farm had some of his White-Faces in the competition and is exuberantly elated and happy over the result. He exhibited in a class of 36 animals one year old and under two, getting the seventh and ninth places in the competition. It is a great victory for Shadeland Park, which is a credit to not only Red Willow county, but to the state of Nebraska. We congratulate. It is a great distinction to be placed so near the head of the line in so exclusive and superb a competition; it means winning against the world!

We are going to have school just the same and our supplies are much lower in price. The Bee Hive.

Jumped on a Ten Penny Nail.

The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such wounds without maturation and in one-third of the time required by the usual treatment. For sale by McConnell & Berry, druggist.

Girl Escaped.

Rev. O. Peitsmeyer, of Jolly, Iowa, informs us: "My little girl thirteen years old and I were the only ones who escaped, when my wife and three children were down with typhoid fever at one time. When the rest became sick we began taking Dr. Kay's Renovator, three times a day all through and escaped. We think Dr. Kay's Renovator a God-send!" Typhoid fever is a fearful malady and no ordinary medicine will have the least effect upon it. Dr. Kay's Renovator exerts a wonderful influence upon the stomach, liver and bowels—an influence which drives out of your system every minute Typhoid germ and sends glorious health and vigor into every corner of your entire system. At druggists, 25 cents and \$1.00; or, if your druggist can not supply you, we will send it post-paid upon receipt of price. Free medical advice, sample and book, Dr. B. J. The Children's Friend.

You'll have a cold this winter. Maybe you have one now. Your children will suffer too. For coughs, croup, bronchitis, grip and other winter complaints One Minute Cough Cure never fails. Acts promptly. It is very pleasant to the taste and perfectly harmless. C. B. George, Winchester, Ky., writes, "Our little girl was attacked with croup late one night and was so hoarse she could hardly speak. We gave her a few doses of One Minute Cough Cure. It relieved her immediately and she went to sleep. When she awoke next morning she had no signs of hoarseness or croup." McConnell & Berry.

Sure Success in Valley.

The beet sugar industry is a success. It is a great thing for the valley. Every new factory adds that much more to our population, wealth and happiness, and we would like to see the time come when a factory of at least the capacity of our own can be profitably operated every five miles along the valley.—Rocky Ford (Colorado) Gazette.

Personal.

Will the lady who fell in a swoon last Thursday, in front of the postoffice, call at our store? She suffers from biliousness. Dr. Caldwell's Syrup Pepsin will surely cure her. Sold by A. McMillen.

Fine Sugar Beet Yield.

A hundred dollars on an acre is the way the sugar beet crop is averaging all along the valley, and farmers who are not after the earth seem quite well satisfied. The yield is from 8 to 20 tons to the acre—in some cases 24 tons—and the factory pays \$5 a ton with the culls thrown out.—Pueblo (Colo.) Chieftain.

Not a Dissenting Vote.

A perfect laxative. That is the unanimous verdict of the people who use Dr. Caldwell's Syrup Pepsin. 50c and \$1.00 sizes. Sold by A. McMillen.

Beets as Mortgage Lifters.

The big loads of sugar beets being brought in for shipment to the factory look like big round dollars for the farmers. They are regular mortgage lifters.—Las Animas (Colorado) Democrat.

Second Survey Under Way.

SIoux CITY, Ia., Oct. 18.—(Special).—In the face of denials by Senator Clark of the San Pedro line and of Hill of the Great Northern-Burlington-Northern Pacific, come reports from Montana that Henry Dio of Lincoln, Nebraska, for years an engineer for the Burlington, is working on a second survey from Montana to Ogden with a party of seven men, to be increased to sixteen soon. General Superintendent Calvert of Lincoln is expected to give personal attention to the survey. Senator Clark said in an interview that the Burlington would gain by continuing to Salt Lake City from Guernsey and that he hoped it would be done. This would give a through line to the Pacific from St. Paul via Sioux City, Ogden and San Pedro.—Lincoln Journal.
