TURKEY MUST GIVE UP

France Urges Its Claim on Sultan With Menace of War Ships.

BROKEN TREATIES TO BE MENDED

Contracts Are Said to Be Disregarded or Encroached Upon—War Vessels Now Going Forward to Enforce the Decrees of the French Government.

PARIS, Nov. 4.—This morning M. Delcasse, minister of foreign affairs, telegraphed M. Baptist, counselor agent for the French embassy in Constantinople, directing him to present today to Tewfik Pasha, Ottoman minister of foreign affairs, a note asking how the Turkish government proposed to pay the Loroando claims and demanding the execution of the sultan's trade dealing with that matter. The note will also request satisfaction regarding the rights of France, which are defined in the various treaties and which in some cases have not been respected and in others have been encroached upon by Turkey.

The declarations of what has been done bears out the statement made yesterday regarding the intentions of the French government. Admiral Caillaud is expected to reach his destination tomorrow. The foreign office has received no news from him since his division left the other division of the Mediterranean squadron four days ago.

It is pointed out that the absence of news is not surprising, as the instructions to Admiral Caillaud were to steer due south and avoid passing in sight of Bonifacio, Corsica or traversing the strait of Messina in order to prevent his movements being signaled. The vessels of the division carried only a normal supply of coal, but this would be much more than enough to enable them to steam 1,500 miles, the estimated distance they must cover before reaching their destination.

It is expected that Admiral Caillaud will be joined en route by the torpedo cruiser Condor, which is stationed in Cretan waters, and may be met by the torpedo dispatch boat Vantour, which is stationed at Constantinople. It is also probable that the cruiser Admiral Charner, which arrived at Port Said October 31, from the far east, is being held here in order to join Admiral Caillaud if needed.

It is further reported that three other war ships are held in readiness at Toulon to reinforce him should their presence be necessary.

Great preparations are being made at Dawson and during the winter there will be strong competition for over-ice travel. An opposition stage line will be put on. A large number of men are working on roads and trails and when the river freezes everything will be in readiness for stages.

DAY FOR RENDERING THANKS

President Issues His Annual Proclamation, Fixing It on November 28.

WASHINGTON, Nov. 4.—President Roosevelt Saturday issued his proclamation fixing Thursday, November 28, as a day of national thanksgiving. It follows:

The season is nigh when, according to the time-hallowed custom of our people, the president appoints a day as the especial occasion for praise and thanksgiving to God.

This Thanksgiving finds the people still bowed with sorrow for the death of a great and good president. We mourn President McKinley; we also honored him, and the manner of his death should awaken in the breasts of our people a keen anxiety for the country, and at the same time a resolute purpose not to be driven by any calamity from the path of strong, orderly, popular liberty which, as a nation, we have thus far trod.

Yet in spite of the great disaster it is, nevertheless, true that no people on earth have such abundant cause for thanksgiving as we have, the last year in particular having been one of peace and plenty. We have prospered in things material and have been able to work for our own uplifting in things intellectual and spiritual. Let us remember that, as much has been given us, much will be expected from us, and that true homage comes from the heart as well as from the lips and shows itself in deeds. We can best prove our thankfulness to the Almighty by the way in which on this earth and at this time each of us does his duty to his fellow men.

Now, therefore, I, Theodore Roosevelt, president of the United States, do hereby designate as a day of general thanksgiving Thursday, the 28th of this present November, and do recommend that throughout the land the people cease from their wonted occupations and at their several homes and places of worship reverently thank the Giver of all Good for the countless blessings of our nation.

In witness of which I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this second day of November, in the year of our Lord 1901, and of the independence of the United States the 126th.

By the president,
THEODORE ROOSEVELT.
JOHN HAY, Secretary of State.

NATIONAL AND STATE BANKS

What is Set Forth in the Report that Has Just Been Made Public.

LINCOLN, Neb., Nov. 4.—The increase of deposits in Nebraska national and state banks from July 17 to September 30, the day of the last call, is approximately \$3,650,000. The increase in state and private banks alone, as shown in the report issued by Secretary Royle of the state banking board today, is \$1,195,010. The average increase of deposits in the national banks of the state is 10 per cent, which makes a total in these institutions of over \$27,000,000, or an increase of \$2,455,460.

The figures for the national banks are merely estimates based upon the statements of the Omaha and Lincoln banks, but it is conceded that they are very nearly correct. SMALLPOX AMONG THE INDIANS.

They Are Being Vaccinated to Prevent Spread of the Disease.

OMAHA, Nov. 4.—The red man of the forest, represented by the Winnebago, has been inoculated with the white man's idea of preventing smallpox and is now baring his arm to the scalpel and vaccine point.

Deputy United States Marshal Allan has returned from the Indian country of Dakota and Thurston counties and reports that smallpox is still spreading among the Indians of the Winnebago reservation. It is said the disease has reached the town of Thurston and that the public school has been closed. A rigid quarantine has been established and the Indians who live in the vicinity have been prohibited from entering the corporate limits.

NEBRASKA AS APPLE GROWER.

An Invitation for Farmers to Produce Jonathans.

OMAHA, Nov. 4.—E. F. Stephens of Crete has presented General Passenger Agent Francis of the Burlington with a big, red apple, a Jonathan that looks like a mammoth jewel, and says that it is a sample of the product of 45,000 trees, in which he has a half interest. His plan is to put out the Nebraska grown trees among farmers on a contract by which he is to receive half of the product for a term of years, the farmer to cultivate the trees according to instructions. The success with which he is meeting, he says, proves beyond question that irrigated ground in the Loup, Republican and Platte valleys along the southern line of the Burlington will be the finest apple growing country in the world if the farmers are properly interested.

End of Fishing Season.

STATE BOUNDARY PUZZLE.

Steps to Be Taken to Make Present River Channel the Line.

OMAHA, Neb., Nov. 4.—The decision of the United States supreme court in the matter of the Iowa-Nebraska boundary at Cut-Off and East Omaha—holding that the boundary changed with gradual changes of the river, but remained in the old bed of the river at the time of the sudden "cut off" which put the river practically where it is now—has given rise to a troublesome condition which steps are to be taken to correct.

Illustrations of the difficulties worked by the supreme court decision are found in this vicinity at Cut-Off and Lake Manawa. At both of these points the river bed changed gradually through a long series of years, until the river flowed in the shape of a horse shoe, and then suddenly cut through the neck between the ends of the shoe. As a result a piece of territory containing several square miles on the Nebraska side of the river at Cut-Off is held to be Iowa territory. On the other hand a large portion of Lake Manawa and the territory to the southward of it are held to belong in Sarpy county, Nebraska.

It is now proposed that the actual bed of the river at any time shall constitute the boundary between the two states. It is stated this can be effected only by an act of congress, but it is realized that the initial proceedings will have to be taken by the communities most directly interested. The change suggested would place Blue lake and Lake Manawa in Iowa, and would give Cut-Off lake and Lake Quinnebog to Nebraska.

THE FARMER'S SHOT KILLED.

A Man Supposed to Be a Thief Is Put to Death.

NORFOLK, Neb., Nov. 4.—George Fetterly was shot and killed upon the farm of Christ Duerr, a few miles north of this city on the road to Pierce. Tidings of the affair were brought to town shortly after the shooting. City Marshal Kane and Dr. Holden accompanied Edmund George back to the scene of the tragedy and found Fetterly's body lying a short distance from Duerr's house with a bridle tightly gripped in one hand and a shotgun in the other. One barrel of the gun had been discharged. The skull of Fetterly was found to have been badly crushed in by a charge of heavy shot, and death was probably instantaneous.

George's version of the affair is that he and Fetterly had been to Pierce on business and were returning home; that they stopped at Duerr's to get a drink of water, Fetterly going in and George remaining in the wagon. George heard three shots and saw Fetterly fall, and after satisfying himself that Fetterly was dead came to this city to notify the authorities.

Duerr states that he was awakened in the night by a noise outside and went out with his shotgun to investigate. He saw a man leaving his barn with a bridle in his hand and ordered him to stop; the man turned and fired a shot, whereupon Duerr discharged both barrels of his gun with the result stated.

He is suffering great agony.

The map contains a vast amount of statistical information.

Her Nerve Saved Several Lives.

A year ago the husband of Mrs. Mary Hirsch, a New York woman, met with an injury that prevented him from attending to his work and also made him subject to epileptic attacks. Mrs. Hirsch is an expert needlewoman, and has been able to keep the family together, in spite of the fact that her husband had taken to drink. The other morning after a hard night's drinking, he arose from his pocket table, drew a revolver from his pocket and said: "I am going to kill you all." There was insanity in his look, but Mrs. Hirsch remained perfectly cool. "Where did you get that pistol?" she asked, pleasantly, as the madman came toward her. He did not answer, but leveled the weapon at her head. The woman never flinched, but said in even tones: "Now, Henry, if you go that way they will lock you up, and then you won't be able to get a drink at all." The maniac had been prepared for resistance, for terrified cries, it confused him and he muttered, "That's so," as he put away the weapon and left the house. Half an hour later he was on his way to the insane department at Bellevue hospital. Mrs. Hirsch was terribly shaken by the experience, but soon recovered.

THE CHAMPION WING SHOT.

Capt. Bogardus Has a Dangerous Expertise but Comes Out Unhurt.

Ferris Wheel Park, Chicago, Nov. 4th.—Capt. A. H. Bogardus, the champion wing shot of the world, has spent the summer here. His shooting school has been one of the features of the Park during the season. He has given many exhibitions and his skill with the rifle is superb.

The Captain tells of a very close call he once had when living at Elkhart, Ill. He had been a sufferer from kidney disease for several years and it rapidly developed into Bright's Disease. All his friends told him that this was incurable and that he would never get better.

To say that he was alarmed is to put it very mildly. This plucky man had faced many dangers and it made him sick at heart to think that at last he was to be conquered by such a cruel foe.

At last he heard of a medicine that had cured many such cases—Dodd's Kidney Pills. He used them and was completely restored to good health. He says: "I attribute my present good health to Dodd's Kidney Pills and to nothing else."

Longevity of Tortoises.

They say that the biggest Galapagos tortoise now in Bronx park, New York city, is at least 400 years old, and so must have been living when Columbus died. Dr. Hornaday, of the New York Zoological society, rests his faith on Walter Rothschild, of London, who has a tortoise which he says is much older than that, and Rothschild has made tortoises his special study, so that he is recognized as an expert.

Walter Baker & Co., Ltd., Dorchester, Mass., are the largest manufacturers of cocoa and chocolate in the world. They received a gold medal from the Paris exposition of last year. This year they have received three gold medals from the Pan-American exposition at Buffalo. Their goods are the standard for purity and excellence.
