TWENTIETH YEAR

McCOOK, RED WILLOW COUNTY, NEBRASKA, FRIDAY EVENING, APRIL 18, 1902.

NUMBER 49

The Fakir Goes to Work.

M. Bernsdorf-Schroeder, the Danish journalist who started from Copenhagen to go around the world handcuffed, has quit his job. He arrived in Denver, last Sunday, resplendent in a blue uniform, trimmed with brass and flags, the lapels of his coat bearing the proud announcement that he was going around the world with his hands in chains. He started out under the auspices of the Follets, a Danish newspaper. He managed to get as far as New York under the aforesaid auspices, and there he struck a snag. The immigration authorities had their hands full without worrying over young men going around the world handcuffed and he was sent to the detention pen. From there, however, he was rescued by Sam Austin, literary editor of the Police Gazette, fitted out with four gorgeous uniforms, and sent on his way rejoicing. After experiencing more or less vicissitudes, he arrived in Denver as flat broke as when he left home, August 28th last, and here the joy hand and stony heart showed him his finish. He threw up the "yob" and got another one. He left, yesterday afternoon, for Edgewater, this state, where he will pull weeds, dig murrhys, shuck corn and otherwise perspire with sweat on the twenty-five acre truck farm of James Truelson, who came to his rescue and offered him a home. His hands were sore from the irons, and a physician warned him to discard them.—Denver Post.

Developed Unmistakable Symptoms.

THE TRIBUNE learns that one of the hogs owned by Isaac Shepherd of the Spring Creek neighborhood and which was bitten by a mad-dog, a few weeks ago, at the end of eighteen days showed unmistakable and violent symptoms of hydrophobia and madly assailed the two other hogs bitten by the mad-dog at the same time and for prudential reasons confined in the same pen. Neighbors were summoned to witness and corroborate and then all three hogs were killed and pen and contents consumed by fire. The loss to Mr. Shepherd is \$75, as the three hogs averaged over 300 pounds each and composed his all in that line. He had three horses bitten at the same time by the same dog, but up to the time of this writing no symptoms of the rabies have been noticed. A child a few miles from this neighborhood was bitten by what was thought to be another mad-dog, about this same time, but we have heard nothing further about the matter, save that the dog assailed others and was finally killed with a pitchfork. Dogs in that neighborhood are now killed on slight suspicion, in fact it is not safe to be a dog at all.

Unless Supreme Court Interferes.

CHICAGO, April 12.—Dr. Orville S. Burnett, the dentist who failed to commit suicide with Mrs. S. S. Nichol at the Marlborough hotel, where both had agreed to die together, must serve fifteen years in the penitentiary after sentence to be pronounced May 3, unless the state supreme court sets aside the rulings of Judge Baker. The court expressed the hope that the case would be reviewed by a higher tribunal, declaring the contentions raised by the prosecution and the defense were of an unusual character. The dentist and Mrs. Nichol engaged a room at the Marlborough, State and Twenty-second streets, and the woman died there of morphine poisoning in compliance with an alleged agreement with the man that they commit suicide. A scrawl in the woman's handwriting, verifying the compact, was found later and while Burnett was in a stupor. He had swallowed much of the opiate. Mrs. Burnett was in court, today, ofering consolation to her husband. Mr. Nichol and the children whom the woman deserted so that she could spend her last hours with Burnett are in Nashville.

Arapahoe's Ball Team.

Special Dispatch to the World-Herald. ARAPAHOE, April 15.—At a meeting held last night, of business men and fans, a baseball association was organized representing a thousand dollars by the election of S. M. Patterson, president; Frank Callamy, secretary and treasurer; and C. A. Patton, captain. The grounds and grandstand, already the best in southwestern Nebraska, will be improved, and while several of last year's team will be missed from the 1902 aggregation, the management promises there will be no deterioration in the Republican Valley champions, as for twenty years past, Arapahoe proposes to retain her position at the head of the baseball column. McCook and Minden papers please copy.

Kafir Corn Seed.

It is a well-known fact that Kafir corn seed is scarce—next to impossible to get, but W. T. Coleman has been successful in getting a few bushels of choice seed. Those contemplating planting any should buy the seed at once before the market is exhausted.

Intense Interest in Revival Meetings. Because of the great interest shown in the revival meetings at the Baptist church, Rev. Thompson has consented to continue the meetings until Sunday night and give his lecture entitled "The Devil's Railroad," Monday evening. An admission of 25c for adults and 10c for children will be charged for this lecture and the number of tickets will be limited. A large number have taken a stand for Christ during these meetings. Rev. Thompson preaches with great conviction and power. It is hard to resist the force of his arguments. He is in earnest and the people know it. He is being loyally supported in his efforts by the hearty cooperation of the church and it is hoped that still greater results are to follow during the few nights remaining.

A Few Cases of Scarlet Fever. A few cases of scarlet fever have developed in South McCook—out of four sick children in that neighborhood three cases were found upon investigation by the city authorities to be scarlet fever. This reminds us that parents should be more careful and call medical assistance in cases of that nature. In the cases in point there was gross carelessness which may result in a considerable spread of that disease among the children of that neighborhood. Parents and doctors will remember that it is their duty to promptly report such cases to the city authorities under severe penalty for failure so to do, remembering that quarantine and isolation are the chief thing in such emergencies.

Remains a Fixture. It will be a satisfaction to many to know that "The Modell Shoe Store" is to remain one of our business houses. This week, F. S. Vahne purchased the interest of his partner A. E. Petty and will continue the business at the old stand, having already on his shelves a large line of the latest goods on the market in his line, which he offers at most reasonable figures.

Over Half an Inch. The splendid drizzling rains of Sunday and Monday gave a rainfall of over half an inch at this point. A slight shower on Wednesday morning increased the fall slightly. The chief value of the rain was not in the total amount, but in its steady, soaking character.

Jack Powers of the round-house force is visiting at the farm over near Havana, Frontier county. Machinist's Helper Holcomb quit work, this week, and contemplates going west to work. J. E. Lovell, late clerk to the round-house foreman at Holdrege, departed, mid-week, for Idaho. Why not leave your order for suits with a practical tailor? Suits for \$15 and upwards at Kapke's. The company is putting in a new bridge just west of Franklin besides making some track improvements. Fireman C. A. Maroney is spending a week in Wiggins, Colorado, resting up from his "header" from No. 1, last week. George Burgess departed, Thursday morning on 2, for Alameda, Kansas, to take a position as student at that station, under Agent Bush. The company is arranging to extend its yards at Minden. The surveyors have completed their work and graders will shortly move there from Heartwell. F. T. Blue of the flue department was temporarily put out of commission, Tuesday, by one of his elbows coming in contact with the welding-machine. The Denver & Rio Grande has abandoned the narrow-gauge track, over which it has been transferring its freight between Pueblo and Denver. Hereafter transfers will be made at Salida and Denver. The Denver & Rio Grande, until further notice, will not haul business or private cars of other companies on its fast trains, except on a business basis. Such cars will have to be satisfied with the slow and lighter trains. The Chicago division of the Burlington has for the past two or three years been satisfactorily conducted under the non-train-order system, which does away with the dispatchers and operates on the block system through the trainmen, engineers and block signal-tower clerk. G. H. Phillips, substitute postal clerk on the Imperial train, received a telegram, Monday morning, announcing the death of his father at Kenesaw, after an illness of a few days. Mr. Phillips returned to Kenesaw, Monday night on No. 6, and J. A. Bingham took out the Imperial car, Tuesday morning. General Passenger Agent Francis of the Burlington has gone to St. Joseph, where the passenger agents of the western divisions of the Burlington system will meet today to line up rates and discuss the general policy to be pursued during the summer. The new time card will also be discussed.—Tuesday's Journal.

No. 14, Sunday night, killed a man named Nic DeTemple of Denver, at Franklin. DeTemple jumped in front of the train. It is believed the man was insane. While in Red Cloud, Sunday, he claimed that he had been robbed of considerable money. He was on his way home from Altoona, Pennsylvania, whither he went about a month ago to bury his brother John.

One of the most remarkable and cleverly executed pieces of engineering work ever performed in engineering took place, last Saturday, at Pittsburg, when the two thousand ton bridge of the Pittsburg, Fort Wayne & Chicago railroad, spanning the Allegheny river between Tenth and Eleventh streets, was moved the distance of about thirty feet to temporary piers to make way for the new double deck structure that is to take its place. The huge mass of steel and wood was moved without mishap. The feat was accomplished in less than two hours.

The fastest time ever made by any road west of the Missouri river in handling stock was made by the Burlington on a special sheep train from Denver. This train was made up of twenty-two double-deck sheep cars. It was turned over to the Burlington at 7 p. m. by the Colorado & Southern railway, having been loaded at Fort Collins, Colorado. The Burlington pulled out of Denver at 7 p. m., last Thursday, and arrived at the West Lincoln stock yards at 12:20 p. m. Friday. The cars were unloaded and on feed and water at 1 o'clock p. m., making the run from Denver to West Lincoln in eighteen hours, including the thirty minutes it took to unload the train at the West Lincoln yards.—Lincoln Journal, Monday.

Fireman C. A. Maroney fell off of No. 1, last Friday afternoon, at the whistling post, Benkelman, and escaped with a slight sprain to one of his wrists. He had just put in a fire and opened the gate between the engine and tender, when a sudden lurch of the engine threw him headlong from the locomotive. He picked himself up and followed the train into Benkelman—thinks he would have bent the train in if the train had not stirred up such a dust that he couldn't tell which way the train was moving. It is said that the train was making forty to fifty miles an hour when the fireman made his hasty exit from the machine, and that he escaped a broken neck is regarded as very lucky. He made the trip to Akron, but a new fireman was substituted at that point, as Maroney's wrist was hurting him some.
