Special attention paid to hauling furniture. Leave orders at either lumber yard.

CULBERTSON.

Sherman Love drove up to Trenton, Friday.
Mrs. F. P. Fellows was in McCook, Saturday.

Mrs. George Metzger was in McCook, Saturday.

B. J. Dodge of Palisade was in the city, Monday.

W. F. Everist of McCook was a city visitor, Monday.

James O'Connell of Trenton was in town, Friday last.

J. E. Blum made his usual Sunday visit to this place.

One hundred new chairs arrived for the opera-house, Friday.

O. Bailey of Palisade was a business visitor, the first of the week.

Mrs. M. C. Reynolds and daughter Ora were McCook visitors, Saturday.

Miss Maggie Smith returned from a few weeks' visit at Wallace, Saturday.

W. Z. Taylor is building an addition to his home in the western part of town.

Miss Wentz of McCook was the guest of Miss Mandy Gardner, last Wednesday.

Miss Isa Shoemaker and Nannie Coie were McCook visitors between trains, Friday.

Roy Kleven of McCook visited relatives and friends in town, Sunday and Tuesday.

Presiding Elder Hardaway came in on 5, Friday night, and held quarterly meeting, Saturday.

T. A. Smith returned from Oxford, Saturday morning, where he attended the Holdrege Ministerial association.

The High school pupils entertained the second grammar department with a picnic on the Blackwood, Friday afternoon.

Miss Ella Brotzman returned home from the eastern part of the state, last week, where she has been for the past two years.

Mrs. Dinsmore and daughter Helen of Sutton came up on 5, Saturday night, to visit her sister, Mrs. N. L. Wimple for a few days.

Mrs. H. G. Risley and son came up from Grand Island, the latter part of last week, and will spend the summer with her parents.

Miss Pearl King went up to Stratton, Friday night, to assist Miss Marietta Wimple with her piano recital. She returned, Sunday morning.

There has been a change made as to the time of holding the Summer school. Instead of the half-day session school will be held all day. Morning session from 8 to 11:50, afternoon session from 2:30 to 3:30.

The lawn social given at the home of Mr. and Mrs. John Wray by the Ladies' Working Band was a decided success. Mr. George Cutler furnished music with his large gramophone, which was greatly appreciated. They realized a neat little sum which will be used to repair the Presbyterian church.

The Culbertson ball team has fully organized and played its first game with Trenton, Saturday. Culbertson's line-up is as follows: Frank Knowland, catcher; E. E. Locker, pitcher; Matt Newton, first base; Bruce Vastine, second base; Casper Hogan, third base; Cecil Bakwin, left field; Frank Brown, center field; Rufus King, right field; Henry Kleven, short stop. They played nine innings and the score stood 12 to 13 in favor of Trenton. The game will be returned, Saturday.

I live and let my brethren live
With all that's good with me,
Unto the poor some cash I give.
The balance I give Rocky Mountain Tea.
McConnell & Berry.

MARION.

Plenty of rain in this section and crop prospects are splendid.

Miss Lena Ashton entertained a company of young people, Sunday.

Walter McGuire and Bert Leftery were Indianola visitors, Monday.

The expectations of our farmers are running high now for a good crop.

J. E. Dodge of Cedar Bluffs, Kansas, is doing some carpenter-work for Postmaster W. E. White.

Shiloh Sunday-school will observe Children's day, for which an interesting program is now being prepared.

Powell & Nilsson have received a carload of bricks and some of the machinery and fixtures for their elevator.

A number of our citizens drove over to McCook, Tuesday, for poles for the telephone line to connect Marion and Danbury.

Sidney Dodge and Mrs. J. E. Dodge were Marion visitors, last Saturday. J. E. Dodge accompanied them home for over Sunday.

The children practiced for the Children's day programme at the home of E. B. Stillebauer, Wednesday evening of this week.

The blacksmith-shop is in full operation now preparing tools for the coming harvest, which will be plentiful if present hopes are realized.

Spring time is when to use Rocky Mountain Tea. Keeps you well all summer. Great spring life renewer. See, McConnell & Berry.

Pure Food Laws Enforced.

The St. Louis papers report several more grocers brought to trial upon the charge of selling baking powder containing alum in violation of the law. The parties were all convicted and fined \$100.

Several baking powders which have been found by analysis to contain alum have been offered in this market. They are called

K. C., CALUMENT, C. P., CLIMAX, KENTON.

In many places similar powders, under these or other names, are offered for sale at from ten to twenty cents a pound.

Good baking powder is one of the most useful things in the kitchen. There are several good powders on the market; housekeepers will help the authorities in their efforts to promote the sale of pure and wholesome food, if when buying baking powder they will insist upon having some one of the well-known brands of cream of tartar powders, which are pure and healthful beyond a doubt.

Herbine Cures

Fever and ague. A dose will usually stop a chill, a continuance always cures. Mrs. William M. Stroud Middlethian, Texas, May 31, 1899, writes: "We have used Herbine in our family for eight years, and found it the best medicine we have ever used for lagrippe, bilious fever, and malaria. See at A. McMillen's."

About Ozone.

Many people talk about ozone without so much as knowing what ozone is. There is a prevalent idea that it is something you get at the sea and that it is good for the lungs. What that something is, however, few people have sufficient curiosity to inquire. Ozone is what chemists call an allotrope form of oxygen—that is to say, it is oxygen in a highly active and concentrated condition. In ordinary pure air ozone exists, but only in what chemists call "traces." Larger amounts are found in ocean and mountain air. It instantly disappears when brought in contact with decaying matter, dissipating itself, as it were, in the act of oxidizing that matter.

Ozone is known to occur more plentifully during thunderstorms, and we have, of course, the analogy of its being artificially produced from oxygen by electrical discharges in the laboratory. On the body ozone is believed to act as a stimulant; hence the popular notion of its beneficial effects as experienced by the sea, but in any greater amount than mere traces it is a violent irritant. One authority goes the length of asserting that it is doubtful whether it is beneficial to animal life at all.

Colored Swedes.

A little Swedish monthly magazine published in New York city requested its readers a short time ago to send in accounts of the experiences they had when they first arrived in this country. Here is the prize specimen: "In my unsophisticated days I once started out to call upon a girl I had known in the old country. I was told that she lived at Madison avenue and — street. When I reached that corner, I was in doubt which house to try, but I finally went up the steps of one that faced on the avenue and rang the bell. A girl came to the door. 'Does Miss Nelson live here?' I asked as politely as I could.

"I don't know any such person," she answered, and I was turning away when she called after me, 'Is she white?'

"That irritated me. 'Did you ever know any Swedes who were colored?' I asked.

"Well, I have seen some green Swedes," was her retort, and I did not continue the conversation.

Trials of a Lecturer.

A well known English woman lecturer tells these stories at her own expense:

"I was," she says, "on a tour through the provinces, and one night as I appeared on the platform in a small town the chairman introduced me to my audience in the following way: 'You have heard of Mr. Gladstone, the Grand Old Man. Let me now introduce to you the grand old woman.' This was intended as a sincere compliment.

"On another occasion a bluff old farmer, who boasted of his ability to look on all sides of a question, announced me as follows: 'This lady's come here to talk about her rights,' he said. 'She's hired the hall, and so she's got a right to be here, and if any of you don't like what she's got to say you've got an equal right to walk out in the middle on't.'"

Away From Home.

It is becoming the fashion for a woman to seek a maternity hospital that her children may be born amid conveniences lacking at home. The children are sent away from home to school. They are married away from home, and members of the family are taken to hospitals for their final illness and buried from an undertaker's parlor. It is becoming a fashion to take everything from home except the family rows. They are still sacred to the family hearth.—Athenian Globe.

Italian Brigandage In 1848.

One summer evening in the crowded theater an impatient house demanded the drawing of the curtain preliminary to the first act. When at last it was unrolled, Il Passatore and his armed band occupied the stage, with muskets aimed at the affrighted audience. The chief stated that he should levy a tax per head, which he then and there collected. The gang made off with their booty unmolested.—Lady Presturch's "Essays."

Gold.

The specific gravity of gold is 19.50—that is, it weighs nineteen and a half times as much as its own bulk of water. The ductility and malleability of this metal are equalled by no other. By ductility is meant the property of allowing itself to be drawn out into a wire and by malleability its property of flattening without splitting under the hammer.

Make Some One Happy.

Charles Kingsley thus counseled a friend: "Make it a rule and pray to God to help you to keep it never, if possible, to lie down at night without being able to say, 'I have made one human being at least a little wiser, a little happier or a little better this day.' You will find it easier than you think and pleasanter."

Boylegged Sailors.

Sailors are a boylegged class. An old salt always walks as if he were on the deck of a ship, and he never takes great strides like a landsman. He is used to having to walk great distances, in his imagination, on the quarter deck, and he can't get rid of the habit of making the most of his promenade.

The Sponge.

The sponge reproduces its kind mainly by eggs. In each animal are contained both the male and the female elements, and it throws out the ova to be hatched in the water. At first the young are free swimming, and afterward they attach themselves to convenient spots and grow.

The Great Dismal Swamp
Of Virginia is a breeding ground of malaria germs. So is low, wet or marshy ground everywhere. These germs cause weakness, chills and fever, and in the bones and muscles, and may induce dangerous maladies. But Electric Bitters never fail to destroy them and cure malarial troubles. They will surely prevent typhoid. "We tried many remedies for malaria and stomach and liver troubles," writes John Charleston, of Hysville, O., "but found nothing as good as Electric Bitters." Try them. Only 50c. McConnell & Berry guarantee satisfaction.

Wields A Sharp Ax.

Millions marvel at the multitude of maladies cut off by Dr. King's New Life Pills—the most distressing too. Stomach, liver and bowel troubles, dyspepsia, loss of appetite, jaundice, biliousness, fever, malaria, all fall before these wonder workers. See at McConnell & Berry.
