## Elect Teachers For Next Year.

At a special session of the board of education held on Monday evening of this week, the following teachers were elected for the ensuing term of school. Sup't G. H. Thomas was elected for two years at the regular session of the board about two weeks since. Monday night's elections were as follows:

Celia A. Gorbay, Mary Powers, Nellie West, Cassie Andrews, Minnie Rowell, Mabel Wilson, Ida E. White, Carrie Budlong, Elizabeth Thomson, Blanche McCarr, Anna C. Schobel, Ernie Rathbun, Kittie Stangland. The old teachers will occupy their old positions in the school, but the new teachers have not been assigned.

The retiring members of the present corps are: E. W. Washburn, high school assistant, who will reenter the university at Lincoln, in the fall; Miss Ella Leonard, principal of the west building, who will leave at the close of the session for San Jose, California, to join her family; Mrs. Belle Hollund of the seventh grade, who retires on account of ill-health; Miss Anna Anderson of the third grade and Miss Edna Garrard, kindergarten assistant, for reselection; and Miss Hannah Stangland of the second grade west, who will enter school somewhere.

The new teachers are: Miss Carrie Budlong of Harvard; Miss Ernie Rathbun, who has been teaching during the past year in Oxford; Miss Kittie Stangland, who taught a country school during the past winter; and Miss Blanche McCarr, a graduate of the city schools, this year. There are two vacancies still to fill.

Most of the old corps are retained, it will be observed, which guarantees quite an undisturbed continuance of the successful and very gratifying career of the McCook public schools. The new members of the corps come well recommended.

And just now as the spring term of school is about ended we wish to congratulate the patrons of the city schools upon the undisturbed success of the school year, and incidentally to compliment Sup't Thomas and his able and enthusiastic teachers upon the highly gratifying measure of success attained. The Tribune makes bold to state that no town in Nebraska of its size has better schools—and few, if any, as good schools as ours. The esprit de corps of the teachers, patrons and pupils of the city schools is something superb and no small element in the splendid work of the schools. In this case, pride is well used.

## Two Big Real Estate Deals.

Uncle Billie Coleman consummated two big real estate deals, close of last week, involving 720 acres of fine land and \$16,200 in money. Theodore Emery, a gentleman from South Dakota, was the purchaser in one case. He gets H. H. Pickens' quarter section just north from where Mr. Pickens lives and the W. E. Bower quarter just west. The price is \$4,000 in the first instance, and \$4,200 in the Bower case. Both Pickens and Bower get this year's crop off the half section and remain on the same until March, 1903. The Bower quarter has fine improvements on it. Both have considerable alfalfa and are capable of being irrigated upon the repairing of the Pickens flume.

Sarah Emery of South Dakota, a cousin of Theodore, is the purchaser in the other deal, which involves 400 acres of the Marion Plummer ranch at Perry with all the improvements. The price paid in this case is \$8,000, and the purchaser gets one-fourth of this year's crop, and gets possession in March of 1903. Mr. Plummer still owns about 400 acres more in that vicinity. On the land sold there is a fine lot of alfalfa land.

The sales at \$25 and \$20 per acre are not fictitious values by any means. Similar land within a few years will be worth \$50 when well set in alfalfa.

## Ed Amherst Ott's Lecture.

One of the prime features of commencement evening, tomorrow evening, will be the address by Ed Amherst Ott. The gentleman will appear before the people of McCook on this occasion with highest endorsements as an entertainer of fine ability. He is an original thinker and an orator of first-class ability, having the faculty of saying something when he speaks. As dean of the school of English and elocution of Drake university, Des Moines, Iowa, his offering to the commencement services will be ripe and worth while in the highest sense.

## Exercises Splendidly Given.

An opera-house full of delighted citizens enjoyed the class day exercises of the McCook high school last evening. Throughout the program was excellent in character and superb in rendition, and as a total one of the best ever given by a class of the high school. Miss Maude Coleman handled the class history with cleverness and scored hits not a few. The orations by Charles Lester Little—"An Era of Expansion"—and John Lawrence Rice—"Popular Election of United States Senators"—have never been excelled by a graduate of our city schools. They were highly creditable and praiseworthy. The piano solo by Miss Millie Elbert, the vocal solo by Miss Blanche McCarr, and the vocal duets by the twain were very pleasing. The play—"My Aunt's Heiress"—was given most acceptably by the young ladies of the class, with Miss Ethel Pope in the leading role and Misses Myrtle Kennedy, Julia Goodenberger, Maude Coleman, Blanche McCarr, Maude Best, Ona Hendrick, Millie Elbert and Lillian Burnett completing the cast of characters. It was a happy innovation, and rounded off a programme which caused all present to experience anew a deep sense of pride in McCook's public schools. "Just what I've been wishing to see—the new Batiste Corset Girde! And you have them in the gauze? Well, well." Yes, and we think we have every size in every desirable style of Gauze Corsets. All of the celebrated "F.C." make. Money back after four weeks' actual wear if dissatisfied. Sold only by The Thompson D. G. Co. 35c to \$1.

Sugar-beet hoes at W. T. Coleman's.

## Laborers For the Beet Fields.

THE TRIBUNE is reminded that the demand for workers in the sugar-beet fields is now urgent. The continued rains have given the beet a great impetus and the work of thinning, weeding and cultivating is demanding early attention. With the close of school, this week, there will doubtless be a number of children available for the work mentioned, and THE TRIBUNE hopes that they will rise equal to the occasion and will respond to the demand. The acreage, this year, is much larger than it was last year, amounting to about 600 acres, and this amount of land in beets will require a large number of workers. The supply of local labor is limited at best, hardly equal to the demand from other sources, and if the acreage of sugar-beets shall receive proper cultivation at the right time, it will be necessary for the older school children, as is being done in other parts of the state where sugar beets are being cultivated, to enter the field. The work is not heavy, and good wages can be secured.

## Should be Encouraged.

THE TRIBUNE believes that the city council should encourage the move now being made to secure for McCook a library. As we stated in a recent issue, about \$600 can be raised by a levy allowed and authorized by law. This amount will secure the services of a librarian, and besides provide a fund with which to materially increase the library annually. The cooperation of the school board has been secured, which will at once make available from that source 800 volumes. Additions can be secured from private sources. We understand that quarters are available in the courthouse for the library. We have no doubt but that a library with considerably over 1,000 volumes can be started at once, if the city council will make the levy and take the matter in charge as a city enterprise, appoint a library board etc. We hope they will do so at once. It is a noble enterprise, and worthy the cooperation of the city council.

## Retail Clerks Organize.

The retail clerks of the city have organized a local branch of the Retail Clerks' International Protective association. The organization was perfected at a meeting held, last night. The temporary officers are: E. P. Huber, president; W. S. Guyer, secretary; J. J. Garrard, treasurer. The charter members are: E. P. Huber, W. S. Guyer, J. J. Garrard, L. D. Moore, W. D. Darnell, Julius Kunert, J. C. Mitchell, H. C. Clapp, Scott Odell, Otto Pate, Charles Allen, G. F. Meyer, I. J. Reynolds, A. N. Berry, C. O. Hale, R. P. Rasmussen, A. E. Petty. It was decided to keep open the charter until the next meeting of the association, and that the lady clerks be invited to join the association at the charter rate, \$1.00. An adjournment was taken until June 4th. Under careful and conservative management the association will be of benefit to the clerks.

## Memorial Sunday.

The Baptist church was crowded, last Sunday morning, to hear the Memorial services held therein on that occasion. The sermon was preached by Rev. L. M. Grigsby of the Methodist church and was much enjoyed for its vigor and freshness and originality. He drew a picture of the history of this latest and greatest child of liberty and credited its greatness and glory to the fact that it was conceived in religion and born in righteousness. The choir of the church provided a number of special and excellent musical selections. Rev. Frank W. Dean of the Congregational church assisted in the service, in the physical disability of the pastor Rev. G. L. White. The members of the G. A. R. post and circle were present in organizations.

## Sermon to the Graduating Class.

Despite the severe rain of last Sunday night the Congregational church was filled to overflowing on the occasion of the preaching of the sermon to the members of the graduating class by Rev. Frank W. Dean. The sermon carried the idea that real true success—every good success—must be premised upon usefulness, righteousness and religion, and held up before the members of the class this high ideal in earnest simplicity. It was an excellent discourse. A special sextette supplied an enjoyable musical feature. Rev. L. M. Grigsby of the Methodist church assisted in the services, which were inspiring in every detail.

## The June School Apportionment.

The revision of the figures of the semi-annual apportionment of funds for the public schools of the state show that the division of the money among the various counties will be based on a per capita \$1.11, instead of \$1.10 as at first reported. Red Willow county has 3,340 people of school age, and receives \$3,708.22 as her share of the June apportionment.

## A. McMILLEN.

A lady seeing our line of Shirt Waists (250 of them are hung up in view) sighed and said she had bought one elsewhere a day or two before. She added with a smile that she and her money were soon parted. Every unsatisfied shopper is a buyer. The line is absolutely unequalled for style, worth and price. The Thompson Dry Goods Co.

Of the 190,000 miles of railroad in the United States, 108,464 miles are now controlled by seven men—Morgan, Cassatt, Harriman, Hill, Gould, Belmont and Vanderbilt, and these lines are the main lines of the country. The mileage controlled by these seven men is greater than the combined railroad mileage of Great Britain, Russia, Germany, Spain, Holland and Belgium. The Wabash made a record-breaking run, Sunday, from Montpelier, Ohio, to Detroit, Michigan, 97 miles in 88 minutes. There were four coaches in the train. The show was but poorly advertised, and at best was only a 25-cent affair to which 50 cents were charged. What there was of the show was good enough. The show seems to be suffering from inter-tribune warfare. Otto and DeWitt don't hitch. The style and delivery of Prof. Ott were excellent. His remarks were frequently interrupted by applause. At times he was humorous, but to be true to his subject, "Some Grapes," he was inclined to look on the serious side of life. His advice to young men was elevating, showing that he can usually be what he works and strive to be. His closing argument, in which he appealed to his hearers to have courage, was the most forceful and logical portion of his lecture.—Sioux City Tribune.
