THE TRIBUNE, McCook, Neb.

To the Public.

Whereas the merchants of McCook and especially the undersigned have agreed out of consideration for their employees and themselves, to close their business places at 8 o'clock p. m. during June, July and August (excepting Saturdays, pay-days and the three evenings succeeding pay-days) it is hereby earnestly requested of the public that they co-operate in the matter by doing their trading before that hour in order that no individual merchant may feel himself over-burdened by applications for trading after the closing hour and in order that no merchant may feel it profitable to withhold his cooperation with this very reasonable and customary summer arrangement, and especially in order that the needed rest and recreation may be secured to the large number of over-confined store keepers and workers.

It is understood that the hotels, drug stores and refreshment places expect to serve the public evenings as heretofore.

Confidently requesting your co-operation we promise you better service as a result of the relief.

NOTICE FOR PUBLICATION.

Department of the Interior, Land Office at McCook, Neb., June 3, 1922.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before Register and Receiver at McCook, Neb., on Saturday, July 19, 1922, viz: Charles E. Werner, H. E. No. 1124 for the SW^{1/4}, NW^{1/4}, SW^{1/4}, SW^{1/4}, Sec. 21, Twp. 4 N., R. 29 W., 6th P. M.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: George M. Mohler, John S. Merrill, William Y. Johnson and Benjamin O. Johnson all of McCook, Nebraska.

F. M. RATHBUN, Register.

NOTICE OF SALE.

In the District Court of Red Willow County, State of Nebraska.

In the matter of the estate of William T. Stone, deceased.

Notice is hereby given that in pursuance of an order of G. W. Lowman, judge of the district court of Red Willow county, Nebraska, made on the thirty-first day of May, 1922, for the sale of the real estate hereinafter described, there will be sold at the front door of the county court house of Red Willow county, on the 25th day of June, 1922, at one o'clock p. m., at public vendue to the highest bidder for cash, the following described real estate, to-wit: The southeast quarter of the southwest quarter of section thirty-six, in township three, north, range thirty, west of the sixth Principal Meridian, forty acres, in Red Willow county, Nebraska. Said sale will remain open one hour—6-7-28.

CHARLES H. JACOBS, Administrator of the estate of William T. Stone, deceased.

Cures When Doctors Fail.

Mrs. Frank Chasson, Paterson, La., writes June 24, 1921: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a small bottle of Herbine, found it helped me. Then bought two bottles which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." See bottle at A. McMillen's.

World Wide Reputation.

White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, improves the digestion and assimilation of food, strengthens their nervous system and restores them to the healthy, vigor and elasticity of spirits natural to childhood. 25c at A. McMillen's.

Grain Moved In Streams.

Nowhere in North America will you come on a more thrilling night scene than the fresh water cargo tank unloading at Buffalo, says Rollin Lynde Hartt in The Atlantic. Here she lies beneath the towering grain elevator, which thrusts a long pumping pipe (called the "leg") down through her hatchway. Mount the gangplank, dodging the spinning ropes that make your head reel, stumble about on the dark deck, look down, down, down through the open hatch, and, zounds, what a sight! The hold glows with electricity. It is misty with blown dust. It roars with mechanical activity.

An enormous steel "shovel," big as the inside of a house and manipulated by countless flying ropes, charges back and forth through the whole length of the ship, pitching the yellow grain before it and heaping it up where the leg can get hold of it to whisk it into the bin that is somewhere up in the sky. Length in the hold, an array of blue clad men with wooden "scoops" barely dodge the deadly shovel as they swing the grain into its path.

Observations by Mildred.

Scene: Tramar. Dramatis personae: Four-year-old girl, mother and several passengers.

Child (in high, shrill treble)—Mamma, did you get papa's birthday present?

"Yes, dearest."

"What did you get, mamma?"

"Cigars, lovey."

"The cheap ones that Aunt Millie told you about?"

Silence from mamma, but a heightened flush on her face that was not entirely the reflection from "dearest lovey's" red velvet hat.

"Mamma, that man over there has on a dreadfully dirty necktie. You told papa the other day that no gentleman would wear a soiled necktie."

Man glares and pulls his coat about his neck.

"Mildred, stop talking."

Mildred was silent for a little while.

"Mamma, that lady over there forgot to polish her shoes this morning."—London Spare Moments.

All Cheese Is Densely Populated.

Professor Adametz, who devoted considerable time to the study of the fragrant subject, said that the population of an ordinary cheese when a few weeks old is greater than the number of persons upon the earth.

Professor Adametz made some interesting researches dealing with the minute organisms found in cheese. From a microscopic examination of a soft variety of Gruyere cheese he obtained the following statistics: In fifteen grains of cheese, when perfectly fresh, from 90,000 to 140,000 microbes were found, and when the cheese was seventy days old the population had increased to 800,000 in each fifteen grains. An examination of a denser cheese at twenty-five days old proved it to contain 1,200,000 in each gram (about fifteen grains) and when forty-five days old 2,000,000 in the same small particle.

Spiders Are Industrious.

No small insect ever escapes from the web of a spider, a fact which is not to be wondered at when it is considered that an ordinary sized snare may contain as many as 120,000 viscid globules. The spinner is constantly engaged in repairing injuries to the web inflicted by wind, stray leaves or captured insects. Once a day the whole snare is subjected to rigorous examination, and any broken or loosened threads are adjusted.—Cornhill Magazine.

Thunder.

Winter thunder is considered throughout Europe to be of very ill omen, but April thunder is considered to be very beneficial. In Devonshire and other colder counties of England there is a saying that "when it thunders in April you must clean up the barrels"—in readiness, that is, for a plentiful crop of apples.

The French consider April thunder to be indicative of a good yield from their vineyards and cornfields.

Chance For Vengeance.

Simon (angrily)—I have sent the editor of The Hightone Magazine forty-two of my poems, and he has returned every one of them.

Friend—Don't send him any more. He might get mad.

"Suppose he should. What could he do?"

"He might publish one of them under your real name."—New York Weekly.

Abandoned Cisterns.

An abandoned cistern is often a dangerous thing and should be filled, as stagnant water which may remain in it is a common source of disease. If this cannot be done at once, it is a good plan to throw in proper disinfectants and gradually fill it up with sifted coal ashes.

The Real Bitterness.

Mamma—But, darling, why should you object to taking the good doctor's advice?

Bobby—It isn't his advice, mamma. It's his horrid old medicine that I hate to take.—Chicago News.

Why He Never Attains Her Ideal.

A man who is earning the living for a family doesn't have time to live up to his wife's ideals, and by the time he has made his money he is too old and wants to be comfortable.—Aitchison (Kan.) Globe.

To make good tea and coffee the water should be taken at the first bubble. Remember continued boiling causes the water to part with its gases and become flat. This is the cause of much bad tea and coffee.—Ladies' Home Journal.

DANBURY.

Alfalfa harvest is being crowded hard, this week.

Wallie Hillings of McCook was on our streets, Tuesday.

Harvesting machinery is the leading article, these days.

Thos. Duncan of Indianola was doing business in Danbury, Tuesday.

Ball Bros. received, this week, a new Minneapolis steam thrasher.

Lloyd Naden came in from Benkelman, Tuesday, for a few days' visit at home.

Miss Ada Fair returned home from the teachers' institute at Culbertson, Tuesday.

John Bellamy of Cambridge was in town, Tuesday and Wednesday, selling bee-hives.

Tom Simpson, the Deering salesman, is helping Harrison & Messner set up harvesters, this week.

Mr. and Mrs. Rea Ouman came over from McCook, last Thursday. Rea is working in the alfalfa for Ben Smiley. Sylva is staying at her sister's, Mrs. Chas. Rogers.

J. H. Wicks, a former Danbury grain buyer, now of Eustis, Nebraska, came here, Tuesday night, for a few hand-shakes with old friends. He returns home, Saturday.

If we hear a tin-pan rattling, and some half-score of people hurrying along, we know some one is after a swarm of bees. They, the bees, seek some queer places for a new home. Several thousand have taken forcible possession of the outer wall of the Wm. Eifert house. If they fill all the spaces between the studding there will be lots of sweetness.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such a hold on me that I could scarcely go," writes George S. Marsh, well-known attorney of Nocona, Texas. "I took quantities of pepsin and other medicines, but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once, and after a few bottles a sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble.—McConnell & Berry.

What Thin Folks Need.

Is a greater power of digesting and assimilating food. For them Dr. King's New Life Pills work wonders. They tone up and regulate the digestive organs, gently expel all poisons from the system, enrich the blood, improve the appetite, make healthy flesh. Only 25c at McConnell & Berry's.

Spring Ailments.

There is an ailment and tired feeling, the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything and a feeling that the whole body and mind needs toning up. The trouble is that during the winter there has been an accumulation of waste matter in the system. Herbine will remove it, secure the secretions a right exit, and by its tonic effect fully restore the wasted tissues and give strength in place of weakness. A. McMillen's.

A tramp stole a bottle of Dr. Caldwell's Syrup Pepsin. When he appeared in court he explained that he saw in the advertisement that was "easy to take," so he took it. "Discharged," said the judge. "I will go and take some myself." It is easy to take and is a perfect laxative. Sold by A. McMillen.

A Cashier Testifies.

Pepsin Syrup Co., Monticello, Ill.

Gentlemen—After twenty years of aches and pains caused by constipation brought on by sedentary habits, I have found more relief in two bottles of Dr. Caldwell's Syrup Pepsin than all of the hundreds of other remedies I have tried, and I take pleasure in giving you this testimony, believing you have the finest preparation made for stomachic troubles.

Very truly yours, D. F. LANG, Cashier Wabash R. R., East St. Louis, Sold by A. McMillen.
