One Out of Five Games.

The locals took their departure for Exeter, last Thursday morning, with the high and laudable purpose of showing the Exeter lads a few points in the great national game.

EXETER WINS THE OPENING GAME.

EXETER, Neb., July 18.—(Special).—The Exeter team played McCook here, Thursday afternoon, in a very lively game, winning by the score of 7 to 3.

Score by innings: R.H.E. Exeter, 1 1 0 2 0 0 3 0 \*—7 14 3 McCook, 2 1 0 0 0 0 0 0—3 3 6

Two base hits: Ahline, Vosberg, Prince, Dennis. Three-base hits: Page, Moore. Struck out: By Moore, 8; by Kunkle, 6. Batteries: Exeter, Moore and Doane; McCook, Kunkle and Reed.

EXETER WINS THE LAST.

EXETER, Neb., July 19.—(Special).—With today's game Exeter won two out of three games from the McCook ball team which is composed of an exceptionally lot of fine young men.

Score by innings: R.H.E. Exeter, 0 0 6 1 0 0 0 0 \*—7 McCook, 0 0 0 0 0 0 1 0—1

Hits—Exeter, 8; McCook, 3. Strike-outs—Moore, 5; Stephens, 4. Two-base hits—Hood, Reed.

Batteries—Exeter, Moore and Doane; McCook, Stephens and Culbertson.

NO BETTER AT GRAND ISLAND.

On Sunday the boys sought to better the case by going against the Grand Island boys, but the brewers were scarcely less hard on them than were the reubens, as witnesseth the appended painful particulars:

Score by innings: R.H.E. Grand Island, 0 1 1 0 3 1 0 1 \*—7 McCook, 0 0 1 0 2 0 0 1—4

Batteries: Grand Island—Glade, Barber, Heck; McCook—Kunkle, Pickard, Reed.

Converse had three hits to his credit in this game—two of them off Glade. On Monday, while on their way home, the boys stayed in the camp of their ancient enemies at Minden, and anything the other clubs failed to do to the locals was there done to the queen's taste, as will appear from a perusal of the attached facts:

MINDEN RUNS AWAY FROM M'COOK.

MINDEN, Neb., July 21.—(Special).—The B. & M. ball team of McCook came to Minden, today, and was defeated by a score of 17 to 2. Score:

Minden, 2 0 0 0 1 0 10 5—17 McCook, 0 0 0 1 0 0 1 0—2

Struck out by Bliss, 5; off Belcher and Cone, 16. Hits off Bliss, 4; off Belcher and Cone, 8. Bases on balls off Bliss, 2; off Belcher and Cone, 2.

Hit by pitched ball—By Bliss, 1; by Cone, 2.

Two-base hits—Bender, Gaines, Leach. Batteries—Minden, Bliss and Moore; McCook, Belcher, Cone and Reed. One went into the box in the seventh inning.

And then the boys came home—on their shields, and the reception which had been prepared for them as victors had to be annulled.

It should be said in explanation of the almost uninterrupted series of defeats suffered by the locals, last week, that they went into the several engagements much crippled by the loss of several of their best men, losses sustained at the last moment, which could not be repaired in time for that campaign.

An effort is being made to have games at McCook, August 1, 2 and 4, with the Haskell Indians.

Pitcher Ed Jones of the Omaha league team has been farmed out to Sedalia, Mo., of the Southern league for the rest of the season. We understand that Central Fielder Leach will also play for Sedalia. Jones came out from Omaha Wednesday.

Paul Morton is to be elected president of the Kansas City Southern. He will represent the Harriman interests. Mr. Morton is vice-president of the Santa Fe, a son of the late J. Sterling Morton of Nebraska, and one of the best known railroad men in the United States. It is said that he will retain his connection with the Santa Fe and that his position with the Kansas City Southern is simply to keep in touch with the road, being the personal representative of Harriman.—Denver Times.

Storage Reservoir Schemes.

F. H. Newell, representing the department of the interior United States geological survey, has asked State Engineer Adna Dobson to call his attention to any storage reservoir schemes which would help Nebraska. Mr. Dobson will investigate and report anything he may find that can benefit the state. In this connection THE TRIBUNE desires to urge upon the people of Southwestern Nebraska the importance and necessity of their making a move and stir in this matter, otherwise this part of the state is likely to be entirely overlooked in the construction of storage reservoirs.

Mr. Newell's request is as follows: "In preparing plans for work under the reclamation fund it is very important to have definite suggestions from well-informed men. I am therefore calling upon the hydrographers and others well informed concerning local conditions to advise me in the matter. It is desired to take up and push to completion beneficial projects in each of the states, especially those not involving heavy expenditures. We already know of most of the large projects, but it is the smaller ones which should be sought out. I fear we will not be able to find many of these, but such as they are should be considered. Will you kindly therefore call my attention to any reclamation work which may be undertaken under terms of the law of June 17, 1902, a copy of which is enclosed?"

"Before and After Taking."

The patent medicine fellows take special delight in showing pictures of their victims "before and after taking," but the following exhibition of prices, "before and after the cut," made by W. T. Coleman, is of vastly more importance to readers of THE TRIBUNE, especially to all who want that household necessity, the sewing machine.
