TWENTY-FIRST YEAR

McCOOK, RED WILLOW COUNTY, NEBRASKA, FRIDAY EVENING, AUGUST 29, 1902

NUMBER 16

McCook Free Library Opening.

The matter of opening the McCook free public library to the public is now a question of moment with the board of directors.

The proceeds of one of the games of baseball, next week, between the McCook and Minden clubs on the local grounds, will be given to the public library fund.

If you have books or magazines you will donate to the public library, bring them to the library at once, or drop a card to any member of the board of directors and the donations will be called for.

All subscribers to the library fund are requested to call upon A. C. Ebert, treasurer, at the Citizens' bank, and make payment.

The library room in the court-house will be the pride of the city when it comes out of the hands of the decorators, who are busy making the room attractive and ready for the opening occasion, next week.

Nothing succeeds like success and THE TRIBUNE prophesies that the McCook public library will be a success from its opening, and it will be a success along a new and desirable line.

Good wholesome food for the mind is only second to good wholesome food for the body. Good books supply this mental necessity, hence the library will be one of the most essential factors in the growth and improvement of our city, and every patriotic citizen of McCook should have a deep and genuine interest in its welfare.

Wants Better Mail Service.

The government is advertising for a contractor who is willing to take a star route of the mail service from Culbertson, Nebraska, to Imperial. The Burlington railroad has a branch between these places and until recently a train was operated once a day each way between them.

A postoffice official at Omaha is quoted as saying: "The postoffice department has no power to maintain the trains in this part of the country, but it is at a loss to understand why the trains were taken off, as the companies all seem to be doing a prosperous business. It is understood, however, that it is the policy of the present directors of the Burlington to make each train pay its own way, and if this is so, it can be understood why the change is made, as it is probable that a daily train over the territory in question is made at a loss. The distance between Curtis and Cheyenne is so great that we will probably make no attempt to cover it by star route, but we will probably increase the star routes in the territory adjacent from Union Pacific stations, and this departure of the Burlington will mean that a greater part of the business will go from the east over the Union Pacific. A star route may be placed from a Union Pacific point to Holyoke, if it is found to be needed.—Lincoln Journal, Saturday.

A Fine Showing of Beets.

Redwillow county is close to the head of the list for acreage of beets planted, this year.

The recent rains will greatly increase the already heavy crop of beets.

Regarding the samples of 53 fields of beets, lately sent to the factory at Grand Island, from this place, their sup't of agriculture has to say: "I must say that I was much surprised to see such high percentage of sugar in the beets at this time of year; ordinarily they do not come over about 12 per cent."

Table with 4 columns: Name, Sugar, Purity, Weight. Lists names like D. Deveny, G. W. Furrow, Ed Houlihan, A. R. Clark, John Helm, Wm. Byfield, J. W. Robertson.

The Era of Brick Sidewalks.

The city authorities have made an order condemning all the sidewalks along the west side of block 27, original McCook, and ordering the laying of stone, brick or concrete walks.

The order covers all lots from Lewis' saloon to DeGroff's corner. A brick walk is also being laid along north and east fronts of the Palmer house on West Dennison street, and up North Main. Fred Bosworth is laying a brick walk along his residence lot.

Wedding Bells.

The marriage of Miss Zella Weaver, one of Wray's most beautiful and popular girls, to Mr. Ralph Cutler of McCook, was solemnized at high noon, Wednesday, August 20th, at the home of the bride's parents, Mr. and Mrs. George Weaver. The ceremony was performed by Rev. D. C. Cowran, pastor of the Presbyterian church of Wray, in the presence of but few friends outside the immediate family of the bride.

The guests were Misses Mollie and Flora Finn and Ida Hedrick and Mr. Roswell Cutler, brother of the groom, of McCook.

Miss Zella was quite the ideal bride. She wore a gown of cream albatross with trimmings of cream silk galoons and fluted chiffon. It was made with short sleeves and long sweeping train. The bride's gown and hair were adorned with a profusion of bride's roses. The groom was dressed in the conventional black.

After the ceremony the bridal party sat down to a daintily appointed wedding dinner. A great number of presents showed how much Miss Zella is thought of in this community. The bride has grown to young womanhood in Wray and is loved and respected by a large circle of friends. Her sunny disposition and lovable character make her the best of companions and she will greatly miss in our town. She is a graduate of our High school, being a member of the class of 1901. After her graduation she taught school in this county, meeting with signal success.

The groom is a telegraph operator in the dispatcher's office at McCook. He was night operator at Wray, during the summer of 1896, having come direct from Illinois, and it was during this time that he became acquainted with his bride. His ability and faithfulness to duty were soon recognized by the Burlington and promotion was quick.

He now holds one of the most responsible positions aside from that of dispatcher in the B. & M.'s telegraphic system and in a direct line for promotion. He is of exemplary character and is respected by all who know him.

They left on No. 14 for a two weeks' wedding tour in the east. They will stop at St. Louis a few days and from there visit the groom's parents in Pana, Illinois, where a reception will be tendered them. They will also visit the bride's relatives in Peoria, Illinois. On their return they will stop at Lincoln and Alexandria, Nebraska.

The groom has fitted up one of the nicest little houses in McCook for his bride and they returned here with the best wishes of a host of friends in both Wray and McCook.—Wray Rattler.

Fahnestock-Anderson Wedding.

Miss Anna E. Anderson and Dr. Charles L. Fahnestock were married, Tuesday evening at half after eight o'clock at the home of Mr. and Mrs. Joseph Teeter, Rev. J. E. Tuttle officiated, using the Episcopal ring ceremony. The bride was given away by her uncle, Mrs. A. G. Chapman played the wedding music from Lohengrin previous to the ceremony and after it Mendelssohn's march. The ceremony was performed in a corner of the parlor which had been tastefully decorated with lace curtains, roses, Madeira vines and palms.

The bride wore a dainty gown of white silk tissue made over white silk, cut en train, and carried bride's roses. After the ceremony Miss Annetta Abbott sang "O Promise Me" in a sweet and very effective manner. The parlors were decorated in green and white and the dining room in pink. In the library were vases filled with sweet peas. Plates of variegated pansies adorned tables in the various rooms. Refreshments were served by Miss Blanche Mickey, Mrs. Chapman, Mrs. J. W. Seanson and Miss Edna Curtis. The guests were received by Miss Amy Shively.

The bride has made her home in Lincoln for some years, having attended the university of Nebraska, and is admired by all for her ability and pleasing personality. The groom is a practicing physician, and a surgeon of the B. & M. at McCook. An evidence of their popularity was shown in the many useful and valuable gifts which they received. The guests were presented with slices of wedding cake neatly tied in small white bon-bon boxes.

The happy couple left Lincoln, Wednesday night for Denver. A few days will be spent there and a more extended trip to the coast will be taken in October. Those present were: Misses Mickey, Curtis, Abbott, Pinkerton, Roper, Chapman and Shively; Mrs. J. W. Seanson, Mrs. Kirkpatrick, Mrs. Fahnestock of McCook, Mr. and Mrs. Chapman, Mr. and Mrs. Dickson, Mr. and Mrs. M. Shane, Mr. and Mrs. Glenn, Dr. and Mrs. Carr and Messrs. Swain, Roper and Harger.—Sunday's Lincoln Journal.

"End-of-Season" Ball Game.

The management is making arrangements and plans for an end-of-season masquerade baseball game, which the fans allege will be a lulu. It is proposed to divide the talent now composing the regular McCook team into two clubs, the shortage in each team to be filled by selected men of baseball ability in the city outside the regular organization, thus forming two strong teams. The players will be in masquerade, and will represent in part at least well-known characters. A strong game as well as much amusement and a big gob of the spectacular may be expected. The lineup will be given, next week. The game will likely be played the following week. It will be an innovation, unique and fetching. The entire gate receipts of this game will go for the payment of the athletic park fence debt.

A Thousand Dollar Wage Account.

One of the attractive features of the beet-sugar business is the fact that it requires a large amount of labor, during the season. Gerald Wilcox, for instance, has in about fifty acres of beets, this season, and the indications are that he will pay out a thousand dollars for labor. And by the way, how many farmers are there in Redwillow county who will pay out an equal amount for labor this season? And THE TRIBUNE expects Mr. Wilcox will have a neat sum per acre to his credit after paying these heavy expenses. Horatio Stone, last season, received from the factory over twelve hundred dollars for the beets he raised on fifteen acres, or about \$80 per acre.

Successful Under Disadvantages.

"Cinderella in Wonderland," the operetta given under direction of Miss Mary J. Scott, for the benefit of the free public library, scored a fair success under disadvantages. The opening night, last Friday, was very threatening and rainy, which kept many in doors and made the audience small. The matinee, Saturday afternoon, drew an appreciative crowd of the young people, and on Tuesday evening of this week, by request, the operetta was repeated with quite satisfactory results.

Five Fine Showers.

Commencing with last Wednesday night and concluding on Sunday night, five fine showers visited this part of the county with very beneficial results. Although the rain came too late to materially help the corn crop it was of immense value to feed, went some amiss on the sugar-beets, and has placed the soil in the finest possible condition for fall plowing and seeding. The rainfall in detail was: Wednesday, .35; Thursday, .58; Friday, .90; Saturday, .60; Sunday, .18; total, 2.60 inches.

Municipal Matters.

The city council held a short session, Monday night, all present but Councilman Ryan. Bills as follows were allowed: McCook Electric Light Co. \$87.40 The McCook Republican 5.00 W. T. Clark 21.33 A resolution was passed condemning all sidewalks on the west side of block 27 and ordering construction of stone, brick or concrete sidewalks along west side of said block.

Thirteen to One.

It wasn't sixteen to one in the game at Cambridge, yesterday afternoon, between McCook and Minden, but pretty near it—13 to 1. It was a fine game up to the seventh inning, 1 to 1. McCook then went off her feet and Minden made 12 scores in the 8th and 9th innings.

THE TRIBUNE would call especial attention to the rule of the library which gives applicants living in Redwillow county the privilege of drawing books by filling out application blanks. Observe this rule makes all persons living in Redwillow county eligible to draw books from the library. Another rule allows books to be kept out of the library two weeks, but magazines and papers must be read in the library reading-room.

C. H. Jacobs, this week, exhibited some more fruit from the Stone farm, which will be sold on September 6th, by him as administrator. The grapes, plums etc. are now mature and excellent in taste and flavor. He also exhibited some samples of corn now growing on the farm, which is well filled and will certainly average between 40 and 50 bushels to the acre. The exhibits show the farm, which is near the mouth of the Driftwood, to be very desirable.
