

Mrs. Fred Unrath, President Country Club, Benton Harbor, Mich.

"After my first baby was born I did not seem to regain my strength although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

Wine of Cardui reinforces the organs of generation for the ordeal of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery should commend this great remedy to every expectant mother. Wine of Cardui regulates the menstrual flow.

### WINE OF CARDUI

An overwhelming Republican victory would prove a stimulus to trade of all kinds and we would continue to invade foreign markets, while a Democratic triumph would unsettle business and inaugurate a system of retrenchment that would limit the demand for labor and reduce the demand for the products of our farms and factories.

DESPITE the cries of calamity and future disaster with which the Democrats are filling the land, the Pennsylvania Railroad evidently believes that the tide of prosperity is still rising, for it has just ordered 250 high-class freight locomotives from a Philadelphia firm. The hard-headed business men at the head of the traffic department of a great railroad rarely go wrong.

THE people of this Senatorial district and of Furnas county especially will honor a gentleman on Nov. 4th who has lived continuously near Arapahoe upon a farm he located upon as a homestead Nov. 10th, 1871. We refer to D. S. Hasty, familiarly known throughout Southwestern Nebraska as "Min," the surveyor. Mr. Hasty is a typical Yankee, coming from Maine to Furnas county. He has served as county surveyor for Furnas county for nearly thirty years; has surveyed fully one-half of the lines in the county and has done much work in the line of civil-engineering in other counties. While Mr. Hasty has never sought political honors he has always stood high in the councils of his party and has gained a wide acquaintance which will be greatly to his advantage in the campaign.

Vote for Hasty, the pioneer civil-engineer of Southwestern Nebraska.

## SHYLOCK

Shylock was the man who wanted a pound of human flesh. There are many Shylocks now, the convalescent, the consumptive, the sickly child, the pale young woman, all want human flesh and they can get it—take Scott's Emulsion.

Scott's Emulsion is flesh and blood, bone and muscle. It feeds the nerves, strengthens the digestive organs and they feed the whole body.

For nearly thirty years Scott's Emulsion has been the great giver of human flesh.

We will send you a couple of ounces free.

SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York, sec. and \$1.00; all druggists.

### The Iowa Platform.

The Iowa platform has become a question of general interest, and the Free Traders would, if they could, create the impression that it is a national issue. Let them have it so if they will. There is nothing in the Iowa Republican platform that is not in perfect harmony with the Republican National platforms of the past, or that jars with any act of Republican administration. The Republican party stands squarely on the doctrine of protection to American industry as the producer of prosperity. In the National platform of 1896, written by William McKinley, the great champion of protection, the party renewed and emphasized its allegiance to the policy of protection as the bulwark of American industrial independence. The platform denounced the then existing Democratic tariff as sectional, injurious to public credit and destructive to business enterprise. It demanded "an equitable tariff on foreign imports which come into competition with American products as will not only furnish adequate revenue for the government, but will protect American labor from degradation to the wage level of other lands."

That is the clear and unmistakable policy of the Republican party. And to show that the party was not wedded to schedules, the platform declared: "We are not pledged to any particular schedules. The question of rates is a practical question, to be governed by the conditions of time and of production."

The Iowa Republicans have not pushed aside this national platform. They endorse it and declare that they favor "such changes in the tariff from time to time, as become advisable through the process of our industries and their changing relations to the commerce of the world."

That declaration is in perfect harmony with the national platform of 1896. It does not demand an immediate change of schedules nor does it dodge the protective policy.

The Iowa Republicans endorse the position taken by President Roosevelt in appealing to the courts to secure regulations that will control the great combinations of capital that prevent competition. They also favor strengthening the inter-state commerce act to prevent discriminations in rate making. President Roosevelt went farther than the Iowa Republicans, in his message to congress. The Iowa Republicans also favor "any modification of the tariff schedules that may be required to prevent their affording shelter for monopoly." They found this same principle expressed in other words in the national platform of 1900 which said: "We condemn all conspiracies and combinations intended to restrict business, to create monopolies, to limit production, or to control prices, and favor such legislation as will effectively restrain and prevent all such abuses, protect and promote competition, and secure the rights of producers, laborers and all who are engaged in industry and commerce."

There is nothing new in the Iowa platform. It has not a free trade note in it. It is protection from start to finish. It is Republican to the core. The Democratic declaration for this campaign is "free trade would open our markets to benefit our own country." The Iowa Republicans abhor that doctrine as much as do the Republicans of Rhode Island, Massachusetts or Pennsylvania. As Chairman Babcock says, "the Iowa platform and the Democratic idea of tariff reform are as far apart as the heavens are from the earth." One is protection. The other is free trade. One is for protecting the labor of this country. The other is for degrading that labor to the level of the European wage scale.

WHEN the people forget that the Democrats declared the civil war a failure, that free silver was a panacea for all the evils of the body politic, that the army was composed of rascals, and that the flag should be furlled, then there may be hopes of the country going Democratic.

## SECRETS

At the Price of Suffering.

Woman on her way to semi-invalidism caused by pregnancy suffers much pain. Ignorance prompts her to suffer alone in silence and remain in the dark as to the true cause—motherhood.

Mother's Friend takes the doctor's place and she has no cause for an interview. She is her own doctor, and her modesty is protected. Daily application to the breast and abdomen throughout pregnancy will enable her to undergo the period of gestation in a cheerful mood and rest undisturbed.

### Mother's Friend

is a liniment for external use only. It would indeed be shameful if the sacrifice of modesty were necessary to the successful issue of healthy children. All women about to become mothers need send only to a drug store and for \$1.00 secure the prize childbirth remedy. Healthy babies are the result of using Mother's Friend. Our book "The Hood" mailed free. THE BRADFIELD REGULATOR CO., ATLANTA, GA.

THERE is really more work at home than there are men to do it. This explains in part why iron and steel are being imported from the other side to meet the demand in all trades.

If the people did not reason, and could not remember, Democratic promises and policies might be vote getters, but—it is simply counting the majority.

THE gentleman from Kentucky who made that red-hot attack on the "Dutch" as he called them, is not circulating his speech as a campaign document, although the franking privilege is available for that purpose.

THE Democrats have brought up their reserves by adding to their Congressional Campaign Committee, realizing too late that their cause is hopeless, but it only makes so many more to share the responsibility of defeat.

Come now and let us reason together, what advantage would accrue to the country through a Democratic victory? On the other hand what evils may come upon us, in the improbable event of their securing control of the government.

EVERY trunk line in the country reports that there is more freight on hand than can be handled conveniently. This is one of the very best indications that prosperity is on the increase, and it must have a chilling effect on Democratic hopes.

AND now the Democratic press and the spellbinders are claiming with much noise that President Roosevelt is tangled up with the trusts. There is not a citizen of this broad land who is not glad of that state of affairs, and there is not one who does not hope that he has the strangle hold and will never let go until he gains a good substantial fall.

## Gray?

"My hair was falling out and turning gray very fast. But your Hair Vigor stopped the falling and restored the natural color."—Mrs. E. Z. Benomne, Cohoes, N. Y.

It's impossible for you not to look old, with the color of seventy years in your hair! Perhaps you are seventy, and you like your gray hair! If not, use Ayer's Hair Vigor. In less than a month your gray hair will have all the dark, rich color of youth.

\$1.00 a bottle. All druggists. If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address, J. C. AYER CO., Lowell, Mass.

## HOLD THEM TO THE RECORD

### Fusion Sham Reform as Found on the Records.

#### MICKEY TALKS TO STUDENTS.

The Republican State Officers Show Good Records—Institutions Carefully and Economically Managed. The State Treasury in Comparison.

Lincoln, Oct. 21.—Nebraska, with her free schools and fertile soil, one of the most productive states in the union, noted for having the smallest per cent of illiteracy of any state in the union, is compelled to carry a burden of \$2,000,000 of debt. In their platform the fusionists charge this debt to Republican misrule. Let us refer to the records and place the indebtedness of the state where it justly belongs. From Jan. 1, 1899, to Jan. 1, 1901, or the last two years of fusion rule in Nebraska the debt was increased over \$435,534.93, or within \$65,000 of being one-fourth of the entire indebtedness of the state. A platform promise of revenue reform, coming from a party noted for its reckless extravagance of money should have but little influence with the voters of Nebraska. The record of the present state officials, noted for economy, stands out in bold contrast with the record of extravagance made by the fusionists. Under the fusion rule almost every department was confronted with a large deficiency long before the commissions of the treasury looters expired.

It is years since Nebraska has had such an able, honest and business like administration of its affairs as it has had for the past two years by the present Republican officials, who are asking re-election. In fact, in not a single office is there a deficiency and in many of them money appropriated will be turned back into the treasury when the new appropriations become available. Such a record was never before heard of in Nebraska, such economy was never before practiced. This record for economy should meet a rousing indorsement at the polls.

#### The State Institutions.

At the state institutions there has been absolutely no friction. The inmates have been cared for with the same kindness and patience as though they were directly in charge of parents. No father or mother has felt called upon to make complaint to higher authority than those directly in charge of the institutions, but on the contrary letters of commendation are being constantly received. The inmates are fed the same wholesome food that is provided for the officials and employes, and everything possible is done that will promote the health and happiness of the inmates—the unfortunate wards of the state. Such a record stands out in marked contrast to the extravagant management and shameful mistreatment of the inmates by the last fusion administration when the institutions seemed always in a state of turmoil and where the inmates of many of them were compelled to eat food absolutely unfit for the human body, while the officials, their families and the employes were living on the best that money could buy and at the expense of the state.

#### The State Treasury.

The taxpayers have come to regard the state treasury as the exponent of the party in power, they have been taught by experience to look with considerable interest after the manner in which their funds are being handled. State Treasurer Meserve was the fusion ideal, but here is a comparison of the records made by Meserve and the present state treasurer. Which has best awarded your interest, the fusionists with Meserve or the Republicans with Stuefer? Note the comparison:

Collections Stuefer more than Meserve \$1,166,362 53  
Disbursements Stuefer more than Meserve 1,097,024 93  
Interest collected Stuefer more than Meserve 4,027 19  
Av. mo. receipts Stuefer more than Meserve 61,387 56  
Av. mo. disbursements Stuefer more than Meserve 57,738 13  
Av. mo. balance Stuefer less than Meserve 31,029 31  
Collections, investment fund, Stuefer more than Meserve 1,162,851 62  
Investments Stuefer more than Meserve 1,020,237 82  
Monthly receipts, investment funds, Stuefer more than Meserve 61,292 71  
Monthly investments, investment funds, Stuefer more than Meserve 53,620 80  
Average monthly balance, investment fund, Stuefer less than Meserve 113,312 82

#### Mickey on Record.

J. H. Mickey delivered the following address at the State university last week, which speaks for itself. Mr. Mickey spoke as follows:

"Dean Davis, Members of the Faculty and Students of the University of Nebraska: I am truly glad to be with you at this convocation hour. I am grateful to Chancellor Andrews for his very kind invitation to meet with you and address you, the faculty and students of this great university.

"The work of this university is of the greatest importance to the development of this commonwealth. Thirty-four years ago it was my privilege to become a citizen of our state. My homestead entry was the first business transacted in the Lincoln United States land office. Thirty-four years ago, our state was admitted into the union. I am gratified to be in touch with and to share with others the benefits and blessings of the high standard of education we have reached in the thirty-five years of statehood.

"Nebraska has been liberal in her appropriations for this university. Her liberality in these appropriations must continue commensurate with

twentieth century demands. Nebraska, measured by her financial resources, is excelled by no other state in the liberality of her appropriations for higher education. This splendid record must be maintained. The money appropriated and with prudence expended for this university is not extravagance. It is commonsense economy for the general welfare of the people. This also applies with equal force to the state normal school at Peru, as well as to every public institution in the state. While the state must be wisely liberal in its appropriations and prudent in its expenditures for public institutions, it must not discourage private enterprise fraught with public good. There are private and parochial schools, academies, colleges and universities in this great commonwealth, which the state should encourage, not by public taxation or appropriations, but by the good will of the public in wishing them God speed. I am quite sure I voice the sentiments and views of your honorable and worthy chancellor and this great university, when I say all these are essential to the good citizenship of our great and growing commonwealth.

"Having lived the greater part of my life on the farm, permit me to say that I regard the work of the agricultural department of this and other state universities of equal importance with other departments. The farm and the interests connected therewith feed the world. The rapid increase of population will in the future make greater demands for food to sustain life and the comfort of the teeming millions than the past has ever required. What could methods and skill in farming used fifty years ago do now to supply the needs of the increased population? They would fail. The demand of our day is for as much brain power and intelligence on the farm, the raising of stock and the handling of these vast interests as in any other avocation of life."

#### Hold Them to Their Record.

No matter how hard the fusionists may try to veer away from the issues of the campaign on the state ticket, they will be tried at the ballot box on those issues.

It so happens that one of the principal issues is the record of the last fusion administration. That is something the fusionists would like very much to turn their backs on, and for the reason that it is a record of incompetency, dishonesty and nepotism such as would make the expert plunderers of Tammany Hall turn pale with anger.

Here is the record in part and it is no wonder that fusion politicians should want to keep the people's attention from it:

Two hundred and twenty-seven relatives and friends of fusion officials and leaders given bed and board and often clothing in the state institutions at the state's expense.

The entire appropriation expended and unpaid bills amounting to \$149,000. Pigs bought from "Your Uncle Jake" Wolfe by the fusion superintendent of the hospital for the insane at Lincoln out of state funds at \$124 per pig.

A substitute hired for an incompetent physician at the soldiers' home at Grand Island and money paid him clandestinely from the drug fund. Laces, linens and fancy underwear purchased for the daughters and daughters-in-law of the commandant of the soldiers' home at Milford and charged as groceries to the state.

More than \$1,500 worth of timber cut from the state land at Milford and the money embezzled.

Private house rent and office rent paid in groceries stolen from the state by a fusion physician at the soldiers' home.

A fusion newspaper occupying three rooms and furnished light, power, fuel and rent free in the normal school at Peru at the expense of the state. The record destroyed, the funds plundered and much state property stolen in the Institute of feeble minded youth at Beatrice.

Bogus clothing and butter deals in the asylum for the insane at Hastings, which robbed the state treasury of more than \$15,000.

Chemicals purchased for experimental purposes in the laboratory of the Institute for the blind at Nebraska City with that department closed. Text books changed with the seasons of the year in the Peru normal and large commissions fished from the student.

Drugs, cattle, hogs, and farm products belonging to the state sold at the Institute at Beatrice and the money stolen.

A man appointed superintendent of the fish hatchery at South Bend who accentuated his incompetency and utter unfitness by evicting the finny inhabitants of the aquarium through the medium of exotic vegetation.

This is only part of the very bad and very vulnerable records of the fusion administration, but it is enough to cause even fusionists to stop and reflect before they undertake to vote this same element of treasury looters back into power.

The last fusion administration went into office on the promise of honesty and economy. If they didn't keep the promise it was because it was not worth keeping. They kept everything else they got their hands on and if they let that promise go it was because it was a liability instead of an asset. Seriously speaking, the return of the fusionists to power would be a public misfortune. To again place them in position where they could loot the treasury, prey upon public interests and make lodging houses out of state institutions for a multitude of political hangers-on, to the shameful neglect of the unfortunate inmates, would be to exercise the right of franchise to public detriment.

## Your Tongue

If it's coated your stomach is bad, your liver is out of order. Ayer's Pills will clean your tongue, cure your dyspepsia, make your liver right. Easy to take, easy to operate. 25c. All druggists.

### Northwest in September and October.

Low rates every day via the Burlington Route.

To points in the Big Horn Basin of Wyoming, in Montana, Idaho, Washington, Oregon and British Columbia the Burlington will sell one-way tickets at uncommonly low rates every day in September and October.

Ask the nearest Burlington agent or write J. FRANCIS, G. P. Agent, Omaha, Nebraska.

### A New Star Appears.

The advent of the new daily at Lincoln, the Star, gives the people of the state the only real evening newspaper in the state. It has full, unabridged associated press, the latest and most complete market reports in the west, a full special state report every day by wire from its own staff of correspondents, and all matters of local or state interest are handled in a bright newsy manner.

The Lincoln Daily Star occupies its own building the finest exclusive newspaper building in the state, has a complete modern plant operated throughout by electric power, and has every facility for producing a clean, up-to-date newspaper. The subscription price is only \$3.00 a year by mail; \$1.50 for six months or 75 cents for three months.

If you want the best evening newspaper in the west, send your subscription to the Lincoln Daily Star, Lincoln, Neb.

### Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. It's attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquefies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung troubles. E. S. Malbon, Hampton, Ga., says: "A bad cold rendered me powerless just before an oratorical contest. I intended to withdraw, but took One Minute Cure. It restored my voice in time to win the medal." McConnell & Berry.

### Advertised Letters.

The following letters were advertised by the McCook postoffice, Oct. 20, 1902:

L. T. Beecher Mrs. Will Cooch  
J. W. Hilton (2) Frank Jones  
John Meyers Mrs. W. Mitchell  
Wm. McQuay Mrs. G. Rising  
A. Roth Mrs. Alma West.

When calling for these letters, please say they were advertised.

F. M. KIMMEL, Postmaster.

### Goes Like Hot Cakes.

"The fastest-selling article I have in my store," writes druggist C. T. Smith, of Davis, Ky., "is Dr. King's New Discovery for Consumption, Coughs and Colds, because it always cures. In my six years of sales it has never failed. I have known it to save sufferers from throat and lung diseases, who could get no help from doctors. I have known it to cure real name unknown. Mary Doe, real name unknown, writes: 'I have used Dr. King's New Discovery for Consumption, Coughs and Colds, and it has cured me.
