Kodol Dyspepsia Cure
Digests what you eat.

A Good Thing.
German Syrup is the special prescription of Dr. A. Boesch, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures coughs, colds and lung troubles of the severest nature, removing the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boesch's German Syrup was introduced in the United States 1888, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's Special Almanac.

It surely saved my life." This great cure is guaranteed for all throat and lung diseases by L. W. McConnell, druggist. Price 50c and \$1.00. Trial bottles free.

She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by L. W. McConnell, druggist.

Dr. Moorfield is a new member of Bartley's population, who expects to make his future home here, also his his future practice. We hope he will find it a pleasant place to reside. We really need another physician, as it is rather inconvenient for Dr. Brown to make calls and Dr. Hathorn is absent a good deal of the time, therefore we welcome Dr. Moorfield with good cheer.

Quite a number from here attended the basket-supper at the Dry Creek school-house, Friday of last week. The program was splendid and showed careful practice in every feature. A pleasant time was enjoyed by all, notwithstanding some of the girls went a little beyond the limit in the contents of their basket, which article soon found the trash-room. Such parties ought to eat what they carry or leave the basket at home. The teacher has our sympathy in that occurrence.

Good Advice.

The most miserable beings in the world are those suffering from dyspepsia and liver complaint. More than seventy-five per cent of the people in the United States are afflicted with these two diseases and their effects, such as sour stomach, sick headache, habitual constiveness, palpitation of the heart, heartburn, water-brash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, etc. Go to your druggist and get a bottle of August Flower for 75 cents. Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip) and it has been observed that this remedy contracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended, until it is suddenly discovered that there is a fever and difficulty in breathing and pain in the chest and then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by L. W. McConnell, druggist.
