

That Cry -- "Oh, My Back!"

The little missionary, Doan's Kidney Pills, "free trial," carries ease, rest, comfort. Most people need kidney help; they who choose Doan's get it—help that lasts.

DEERFIELD, ILL.—"When I sent for the trial box of Doan's Kidney Pills I had been afflicted for two months with pain in my back so bad that I could not get from the house to the barn. It was called rheumatism. I could get no relief from the doctors. I began to improve on taking the sample and got two boxes at our druggist's, and, although 68 years of age, I am almost a new man. I was troubled a good deal with my water—had to get up four and five times a night. That trouble is over with and once more I can rest the night through. My backache is all gone, and I thank you ever so much for the wonderful medicine, Doan's Kidney Pills."—Jno. H. HUBER, President Ridgeville, Indiana, State Bank.

BELDING, MICH., Jan. 14, 1903.—"I received trial box of Doan's Kidney Pills. They did me lots of good. I can now go to bed and lie on my right side—the pain there is all gone, also the stomach distress and belching of gas is all stopped, with the use of two boxes."—Mrs. E. S. BERM, R. F. D. No. 2, Reading, Mich.

It is all well enough to judge a tailor by his clothes.

The more you put a tanner the L. ter he seems to like it.

Aching backs are eased. Hip, back, and limb pains overcome. Swelling of the limbs and dropsy signs vanish. They correct urine with thick dust, sediment, high colored, pain in passing, dribbling, frequency, bed wetting. Doan's Kidney Pills remove calculi and gravel. Relieve heart palpitation, sleeplessness, headache, nervousness, dizziness.

BEAUTY AND PURITY

Ancient and Modern Ideas on 'a Subject. Time and Disease the Effacing Agents of Beauty. What Has Science Done to Restore the Lily and the Rose?

Socrates called beauty a short-lived tyranny, Plato a privilege of nature, Theocritus a delightful prejudice, Theophrastus a silent cheat, Carneades a solitary kingdom, Homer a glorious gift of nature, Ovid a favor of the gods. Aristotle affirmed that beauty was better than all the letters of recommendation in the world, and yet none of these distinguished authorities has left us even a hint of how beauty is to be perpetuated, or the ravages of age and disease defied. Time soon blends the lily and the rose into the pallor of age, disease dots the fair face with cutaneous disfigurements and crimson the Roman nose with unsightly flushes, moth, if not rust, corrupts the glory of eyes, teeth, and lips yet beautiful by defacing the complexion, and fills the sensitive soul with agony unexpressed.

If such be the unhappy condition of one afflicted with slight skin blemishes, what must be the feelings of those in whom torturing humors have for years run riot, covering the skin with scales and sores and charging the blood with poisonous elements to become a part of the system until death? It is vain to attempt to portray such suffering. Death in many cases might be considered a blessing. The blood and fluids seem to be impregnated with a fiery element which, when discharged through the pores upon the surface of the body, inflames and burns until, in his efforts for relief, the patient tears the skin with his nails, and not until the blood flows does sufficient relief come to cause him to desist.

Thus do complexional defects merge into torturing disease, and pined away give place to real suffering. A little wart on the nose or cheek grows to the all-devouring lupus, a patch of tetter on the palm of the hand or on the limbs suddenly envelops the body in its fiery embrace, a bruise on the leg expands into a gnawing ulcer, which reaches out its fangs to the sufferer's heart in every paroxysm of pain. A small kernel in the neck multiplies into a dozen, which eat away the vitality, great pearl-like scales grow from little rash-like inflammations in such abundance as to pass credulity; and so on may we depict the sufferings to which poor human nature is subject, all of which involve great mental distress because of personal disfigurements.

If there were not another external disease known, eczema would be a sufficient mauling. It pervades all classes, and descends impartially through generations. While some are constantly enveloped in it, others have it confined to small patches in the ears, on the scalp, on the breast, on the palms of the hands, on the limbs, etc., but everywhere its distinctive feature is a small watery blister, which discharges an acrid fluid, causing heat, inflammation, and intense itching. In the neck, tetter, scalded head, and scurf, belong to this scaly and itching order of diseases. Psoriasis, our modern leprosy, with its mother-of-pearl scale, situated on a reddened base, which bleeds upon the removal of the scale, is to be dreaded and avoided, as of old. Impetigo, barber's itch, erysipelas, and a score of minor disorders make up in part the catalogue of external diseases of the skin. Thus far we have made no allusion to those afflictions which are manifestly impurities of the blood, viz.: swelling of the glands of the throat, ulcers on the neck and limbs, tumors, abscesses, and mercurial poisons, with loss of hair, because the whole list can be comprehended in the one word scrofula.

It is in the treatment of torturing, disfiguring humors and affections of the skin, and of blood, with loss of hair, that the Cuticura remedies have achieved their greatest success. Original in composition, scientifically compounded, absolutely pure, unchangeable in any climate, always ready, and agreeable to the most delicate and sensitive, they present to young and old the most successful curative of modern times. This will be beside ed strong language by those acquainted with the character and obstinacy of blood and skin humors but it is justified by innumerable successes where all the remedies and methods in vogue have failed to cure, and, in many cases, to relieve, even.

The Cuticura treatment is at once agreeable, speedy, economical, and comprehensive. Bathe the affected parts freely with hot water and Cuticura soap, to cleanse the surface of the skin and scales, and to soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment

to allay itching, irritation, and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent, to cool and cleanse the blood. This treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humors, and points to a speedy, permanent, and economical cure of torturing, disfiguring humors, eczemas, rashes, and inflammations, from infancy to age, when all other remedies and the best physicians fail. The remedies constituting the Cuticura system will repay an individual scrutiny of their remarkable properties.

Cuticura Soap contains in a modified form the medicinal properties of Cuticura Ointment, the great skin cure and purest and sweetest of emollients, combined with the most delicate and refreshing of flower odors. It purifies and invigorates the pores of the skin, and imparts activity to the oil glands and tubes, thus furnishing an outlet for unwholesome matter, which if retained would cause pimples, blackheads, rashes, oily, mothy skin, and other complexional disfigurements, as well as scalp affections and irritations, falling hair, and baby rashes. Its gentle and continuous action on the natural lubricators of the skin keeps the latter transparent, soft, flexible, and healthy. Hence its constant use, assisted by an occasional use of Cuticura Ointment, realizes the fairest complexion, the softest, whitest hands, and the most luxuriant, glossy hair within the domain of the most advanced scientific knowledge to supply.

Cuticura Ointment is the most successful external curative for torturing, disfiguring humors of the skin and scalp, including loss of hair, in proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed in the severest cases by a full dose of Cuticura Resolvent, is sufficient to afford immediate relief in the most distressing forms of itching, burning, and scaly humors, permit rest and sleep, and point to a speedy cure when all other remedies fail. It is especially so in the treatment of infants and children, cleansing, soothing, and healing the most distressing of infantile humors, and preserving, purifying, and beautifying the skin, scalp, and hair.

Cuticura Ointment possesses, at the same time, the charm of satisfying the simple wants of the toilet of all a sufficient mauling. It purifies all classes, and descends impartially through generations. While some are constantly enveloped in it, others have it confined to small patches in the ears, on the scalp, on the breast, on the palms of the hands, on the limbs, etc., but everywhere its distinctive feature is a small watery blister, which discharges an acrid fluid, causing heat, inflammation, and intense itching. In the neck, tetter, scalded head, and scurf, belong to this scaly and itching order of diseases. Psoriasis, our modern leprosy, with its mother-of-pearl scale, situated on a reddened base, which bleeds upon the removal of the scale, is to be dreaded and avoided, as of old. When a Man is Drunk.

The ancient problem, "When is a man drunk?" is a question on which doctors emphatically disagree. In Scotland, where the authorities have some experience of the drunken, a shibboleth forms the test. The Glasgow police extract from the suspect easy and fluent utterance of the words, "Shoes and socks shock Susan." In Edinburgh the authorities hold to the ancient "Burgess" fish sauce shop. In some parts of England the man must walk a chalked line, and other tests include the spoken words, "Truly rural," "British constitution" and the apotheosis of the "Whistle-sifting woman who had 'six sieves of sifted thistles and six sieves of unsifted thistles'."

A Scotch Moor.

Kaid Sir Henry Maclean, who, as commander-in-chief of the Moorish army, is the sultan's right-hand man in this present rebellion, ranks high among the famous Scots who have won fortune with their swords. Since he has been Moorish commander-in-chief he has conducted many brilliant campaigns in the Sahara, and is the only Christian who has openly crossed the Gambia pass and visited the sacred tomb of Mulal Ali Sherief, in the Taflet district. The regular army under his command numbers about 20,000 men, with an irregular militia of 80,000. His salary is said to be \$35,000 a year, which compares well with Lord Roberts' \$22,500, and better with his own \$635 per annum as a British lieutenant. He lives in a magnificent palace at Marakesh.

Shortly thereafter they went into executive session.—Chicago Post.

Automobiles in the Alps.

Should the experiments in progress in the neighborhood of Berne prove as successful as is anticipated, travelers to Switzerland in the summer of this year will be able to cross the mountains by automobile instead of the usual post diligence. The actual trials will be made in the spring, and the result, if successful, will be not only to allow travelers to make the different journeys in half the time, but to open to automobilists the chance of driving over the mountain roads, which are at present closed to them on account of the horses.

No More "Brass Band" Hunts.

President Roosevelt intends to engage in no more bear hunting until he gets down the cases of office. So he told a Wyoming delegation headed by Representative Mondell recently. They were asking him to participate in a grizzly hunt next spring, in the course of his trip through the west. "Your picture is very alluring," said the president as the Wyoming people described to him the prospects of big game, "but I have found from past experience that hunting bear with a brass band is barren of results."

The Fly's Swift Flight.

The common house fly is very rapid in its flight, but its wings make 800 beats a second, and send it through the air twenty-five feet, under ordinary circumstances, in that space of time. When the insect is alarmed, it has been found that it increases its rate of speed to over 150 feet per second. If it could continue such rapid flight for a mile in a straight line it would cover that distance in exactly thirty-three seconds.

Women Doctors in Paris.

How many women doctors practice in Paris? A statistician has gone into the question. He finds that while twenty years ago only seven women had taken their medical degrees there, in the face, moreover, of violent opposition, the 3,600 physicians now established in Paris include fifty-seven women. The latter all have busy and remunerative practices.

All in Danger.

"Gentlemen," said a judge addressing the jury in a recent Irish case reported in Law Notes, "you have heard the evidence. The indictment says the prisoner was arrested for stealing a pig. The offense seems to be becoming a common one. The time has come when it must be put a stop to; otherwise, gentlemen, none of you will be safe."

THE LIVE STOCK MARKET.

Latest Quotations from South Omaha and Kansas City.

CATTLE

—There was a much heavier run of cattle than anyone expected and in fact receipts were the heaviest they have been in several weeks. As a result the market was very slow and lower and it was late before scarcely any cattle changed hands. There were a good many beef steers in the yards and the quality was about the same as it has been of late. Buyers did not start out until the middle of the forenoon and their bids were so much lower that nothing was sold for some time. The sales that were made could safely be quoted a dime lower on the average. The cow market was also very slow and fully a dime lower. All kinds were affected and as sellers did not like the idea of taking off another dime after the big decline of the day before, it was late before many cattle went over the scales. Buyers, though, did not seem to care whether they got any cattle or not, so that salesmen had to take the prices offered or carry the cattle over. Bulls also had to sell lower in sympathy with the decline on cows and heifers, but there was not much change in veal calves. There were not many stockers and feeders on sale, but buyers did not want many cattle, so that those that were offered had to sell a little lower.

HOGS

—Reports from all points were unfavorable to the selling interests, and as a result the market here suffered a decline. Trading was very slow on the start, as buyers and sellers could not get together on prices, and when the hogs finally did start toward the scales it was found the market was 5¢ to 10¢ lower. The bulk of the medium weight hogs sold from \$6.70 to \$6.75, and the prime heavy hogs sold from \$6.75 to \$6.85. The light weights sold from \$6.75 down.

EXHIBIT OF POTATO ALCOHOL.

It is Used for Lighting and for Power.

BERLIN—Emperor William, attended by Crown Prince Frederick William, Prince Henry of Prussia, Chancellor von Buelow, Secretary of the Navy von Tirpitz, Minister of Agriculture von Podbielski, General von Gossler and a large company of other distinguished persons, spent three hours Friday in a preliminary inspection of the potato alcohol exposition, which will open Saturday. The emperor believes that potato alcohol can be made as valuable to agriculture as beets. The immense display Friday was directly due to his encouragement for several years.

The department shows alcohol for cooking, another for lighting, in which it is contended that alcohol is a complete substitute for petroleum; another exhibits water and stationary motors, while in the grounds surrounding the building are automobiles and trucks driven by alcohol power.

PURCHASE PROVES COSTLY.

Man Who Buys Bankrupt Stock is Sued for Goods and Arrested.

SPRINGFIELD, Ill.—One sensation followed another in the Anna Gerstel bankruptcy case from East St. Louis in the federal court Friday. A writ of replevin was issued against John Ellman, who purchased the stock at the bankrupt sale, by which Shaffer seeks to recover possession of the stock for the creditors.

Ellman was next arrested on the charge of assisting a bankrupt debtor to secrete and do away with property with intent to defraud and embarrass the creditors. Ellman was placed under \$1,000 bonds, which he furnished, to appear before the commissioner on Tuesday.

Fixes Blame for Wreck.

TUCSON, Ariz.—One of the corner's juries, the Sculver jury, rendered a verdict in the matter of the Southern Pacific wreck at Esmond. The jury completely exonerated Conductor Parker and the train crew of No. 7, the westbound passenger, and placed the responsibility on Operator Clough of Vails, who, they say, received two orders to be delivered to Conductor Parker of No. 7, but gave him only one.

Where Birds Fly.

Interesting facts as to the flight of birds have resulted from a long series of observations, whose general results have recently been published. An eagle was observed by Hergessell, of Strasburg, to fly at a height of 9,000 feet. A lark was detected at an altitude of 1,000 feet. Aeronauts have encountered crows as high as 4,200 feet from the earth. These, however, are exceptional altitudes for birds to attain. As a rule, 1,300 feet seems to be the limit. The German Ornithological society has been conducting experiments with pigeons, and finds that when liberated at a height of 9,000 feet down to as little as 2,700 feet they drop rapidly to a much lower region of the atmosphere.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Constipation Makes Bad Blood.

MULL'S GRAPE TONIC CURES CONSTIPATION

Constipation is the rotting and decaying of undigested food in the alimentary canal. Disease germs arise from this festering mass, which find their way into the blood. The blood becomes impure and shortly the entire system gives way to the unhealthy condition. You cannot cure a case like this by taking pills or other common cathartics. Laxative will not do. A blood medicine is ineffective. Mull's Grape Tonic is a gentle and mild laxative in addition to being a blood-making and strengthening tonic which immediately builds up the wasted body and makes rich, red blood that carries its health-giving strength to every tissue at every heart beat. Mull's Grape Tonic is made of pure crushed fruit juices and is sold under a positive guarantee. All druggists sell it at 50 cents a bottle. Send 10c to Lightning Medicine Co., Rock, Island, Ill., to cover postage on large sample bottle.
