It is to be regretted that Governor Mickey refused to sign H. R. 323 for the relief of Russell F. Loomis. While there seems to be constitutional obstacles, right and justice seems to be wholly on Loomis' side. The constitution has stood greater strains under less meritorious circumstances.

## PUBLIC FREE LIBRARY NOTES.

The librarian requires, to complete volumes of the Atlantic Monthly, the following numbers: 1897—August, September, October, December; 1898—January, May, October, November; 1899—February, August, September, October; 1900—January, February, March, May, June, September, October, November, December; 1892—January, June, July.

It has been suggested that the library is the proper repository for historical data of local interest, and that in addition to its other functions it shall be made the agency for the collection and classification not only of whatever exists in written and printed form concerning the events of the past, but that it shall also become the means by which the as yet unwritten experiences of the first settlers may be put into less perishable form. For newspaper clippings, scrap-books may be provided; documents and manuscripts may be bound, while those who have not reduced their adventures to writing may be seen and interviewed, and their stories may so be preserved and made available. To the generation that has lived this life, as to the generations that are to succeed, the facts that may thus be gathered will be of vital importance and concern.

As many of the pioneers are still here it should be a matter of no great difficulty to secure much that will be of permanent value and interest. Now, when the work may be so easily and so well accomplished, is the time for the undertaking. It is desirable to make it as complete and as comprehensive as possible. It need not—indeed it should not—be confined to the vicinity of McCook or Redwillow county, but it should embrace every portion of this western country: southwestern Nebraska, northwestern Kansas, eastern Colorado, the settlement of which was made simultaneously or successively and under similar conditions and circumstances.

Contributions of every sort to this cause will be gratefully received and scrupulously cared for. Anyone to whom suggestions occur is requested to communicate with the librarian.

## A Thoughtful Man.

M. M. Austin of Winchester, Indiana, knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. 25c at L. W. McConnell's drug store.

## Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflames the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

**Kodol Dyspepsia Cure** relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

**Kodol Digests What You Eat** Make the Stomach Sweet. Bottles only. Regular size, \$1.00, holding 2 1/2 times the trial size, which sells for 50 cents. Prepared by E. O. DeWitt & Co., Chicago, Ill.

## Lincoln Letter.

Lincoln, Neb., March 30, 1903.  
Special Correspondence.

The new revenue bill has at last passed both houses, and at this writing it seems certain to receive the governor's signature and become a law before the end of the week. It is drawn not to take effect until next year, which will give time for the officials to become familiar with its provisions. It will in some respects bring about a revolution in county elections, as it provides for a new official in each county in the person of the county assessor, who is to work in conjunction with the county commissioners in the appointment of deputy assessors, and in the supervision of the work. The county assessors will in turn work under the supervision of the secretary of the state board, who is expected to keep in touch with the work in all the counties.

One good effect of the revenue agitation is noticed in the reports of the meetings of precinct assessors now being held over the state. The usual practice has been for these officials to meet and under the old "full valuation" law agree to assess property at from one-fifth to one-twelfth of its cash value. The reports, this year, indicate a general tendency to an increase in the valuation of personal property. Should there also be an increase in the efforts to collect, the new revenue bill will have done a good work for the state funds before it really goes into effect as a law.

Now that the legislature is about to adjourn it is not out of place to mention the general character of the membership. It is apparent that last year the people of the state were aroused to the necessity of electing representatives of good habits and good character, and who would not trade off their work in the session for jobs and other perquisites. The result is that a better lot of men never came to the state house. There is no boozing and rowdiness such as has sometimes marked past sessions. Not one-half of the members even smoke and there is no suspicion of "hold-ups" or "hold-up" bills. The old-style lobbyists with their free whiskey and free lunch and dance tickets have met with a cold reception. The republican party has reasons to be proud of the men it has sent to Lincoln and of the conscientious work they have performed.

The house in a fit of generosity pushed the appropriation bill through, calling for expenditures amounting to a total of nearly \$4,000,000, as compared with the \$2,500,000 appropriated by the last legislature. A great many members voted for these large amounts with the full knowledge that the senate would not agree to such lavish expenditures. The upper house and the governor are now joining together in the pruning process, and it is believed that the bills will be cut down to reasonable limits.

It was expected that the adjournment would take place at the end of this week, but the unexpected delay of the revenue bill in the senate, and work now in sight in trimming the appropriation bills made it impossible to get through so soon, and the date fixed for next Tuesday by the conference committees is the earliest practical date. Interested lobbyists attempted to force an early adjournment in order that the prodigal appropriations and claims be rushed through, but were easily frustrated.

The interesting features this week will be the appropriation bills, the elevator bill, the militia, and the normal schools. Of course the liveliest skirmishes will be made by those who object to the plan of the senate to cut down the appropriations, and the interested lobbyists are expected to work overtime.

Tuesday is the date set for adjournment, but there is a probability that the clock will stop and that the session will go right on until about Thursday noon.

A disordered stomach may cause no end of trouble. When the stomach fails to perform its functions the bowels become deranged, the liver and kidneys congested, causing numerous diseases, the most fatal of which are painless and therefore the more to be dreaded. The important thing is to restore the stomach and liver to a healthy condition, and for this purpose no better preparation can be used than Chamberlain's Stomach and Liver Tablets. For sale by L. W. McConnell, druggist.

Nothing Like Experience.

"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy, and learn from his own experience how quickly it gives relief, and he will remember it all his life. For liver troubles and constipation There's nothing better in creation than Little Early Risers, the famous little pills.

They always effect a cure and save doctor bills.

Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by arousing the secretions and restoring the liver to the full performance of its functions naturally. L. W. McConnell.

Good For Children.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of coughs, croup and grippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. L. W. McConnell.

## Over 3,500 Acres Contracted.

It is very gratifying to those who have been urging the cultivation of sugar-beets upon the farmers of Southwestern Nebraska to be able to state that at this time over 3,500 acres have been contracted by the farmers of this part of the state. This may be increased slightly. Culbertson stands at the head with a contracted acreage of almost 1,500. McCook is next and Redwillow third in the list. The acreage contracted in the neighborhood of the several towns is as follows:

Alma and Oxford	150
Cambridge	50
Barley	70
Indianola	100
Redwillow	407
McCook and Perry	825
Culbertson	1463
Trenton	75
Stratton	100
Max	75
Haigler and Laird	260

This acreage for 1903, with fair success, seems to promise a sugar-beet factory in Southwestern Nebraska somewhere in 1904.

"In December, 1900, I had a severe cold and was so hoarse that I could not speak above a whisper," says Allen Davis of Freestone, N. Y. "I tried several remedies but got no relief until I used Chamberlain's Cough Remedy, one bottle of which cured me. I will always speak a good word for that medicine." For sale by L. W.
