NUMBER 47

Adopt Resolutions For Dr. Gage.
There was an interesting meeting of lodge 61, A. O. U. W., Monday evening, the same being well attended on account of the fact that delegates were chosen to the grand lodge meeting of the order in Grand Island, May 12th.

The friends of Dr. W. V. Gage, the present grand medical examiner, were enthusiastically in favor of his reelection and the delegates were all chosen in his favor besides resolutions were passed urging that all honorable means be used to further his candidacy.

The following delegates were elected to grand lodge of the A. O. U. W. to be held in Grand Island, May 12th: C. B. Gray, A. P. Wilcox, C. Cullen, J. H. Bennett, J. A. Welles, M. Griffin, J. J. Garrard, W. H. Harmon and Floyd Berry.

The following resolution was unanimously adopted:
Whereas, Brother William V. Gage, a member of McCook Lodge No. 61, and grand medical examiner of the jurisdiction of Nebraska, is a candidate for reelection; and
Whereas, Brother Gage has worked hard to increase the membership of McCook lodge and has been one of the important factors in pushing it to the front until today we stand in 4th place;
Be it Resolved, That it is the desire of the members of McCook lodge No. 61 that our representatives to the grand lodge use all honorable means to reelect Brother Gage to the position of grand medical examiner.

The Barnes-Jacobs Wedding.
Miss Fay, daughter of Mr. and Mrs. Charles H. Jacobs, was united in marriage with Mr. Frank L. Barnes, Tuesday evening, of this week, April 7th, at the home of the parents in Driftwood precinct. About forty relatives, neighbors and invited friends witnessed the union of these two sterling, estimable young people, Rev. Frank W. Dean of the Congregational church performing the ceremony.

The bride was prettily gowned in mousseline de soie.
A marriage feast was served after the ceremony.
The gifts were numerous, pretty and useful.
Mr. and Mrs. Barnes are among our most excellent young people, well and favorably known to a large circle of South Side people as well as in the city, and they enter their new estate with the heartiest wishes of many for their happiness and success.

The Largest of Them All.
W. H. Ferguson, who owns one of McCook's elevators among the 80 or more controlled by him in this part of Nebraska and adjacent Kansas, is to build in Lincoln the largest elevator and storage-house in the state—exceeding in capacity the one at Holdrege, which has hitherto held the belt for size. Besides being a large land owner in this vicinity and controlling the McCook irrigating ditch, Mr. Ferguson is largely interested in many other Nebraska enterprises. He is a heavy holder of stock in the Beatrice Creamery Co., the Lincoln Daily Star etc. It is understood that Ferguson will move from Hastings to Lincoln when the Lincoln plant is completed.

The Bishop Approves.
Bishop Bonacum of Lincoln met with the members of St. Patrick's Catholic church, Sunday evening, in the courtroom, and approved the plans submitted by the members of the church for their new \$8,000 brick church. The bishop also turned over to the building committee the insurance money derived from the old church property. The money is now in a local bank and will be used in connection with the amount subscribed by member of the congregation and others in the construction of the edifice.

District Fair Meeting, Next Tuesday.
On Tuesday afternoon of next week, April 14th, at 2 o'clock, a meeting of those interested will be held in the courtroom, for the purpose of taking final action in the matter of holding a district fair in McCook, this coming fall.
Of the many enterprises considered by the people of McCook, this spring, this seems to be the most practical and useful in all its possibilities, and the sentiment of the people is crystallizing on having a district fair. Next Tuesday's meeting is designed to settle the question definitely and we think in favor of holding the fair.
It is specially urged that the business men and all interested be present on this occasion, to assist in organizing for the enterprise, and that they come prepared to subscribe material assistance. McCook must, unquestionably, put up the bulk of the money to successfully carry out this enterprise—to absolutely guarantee in dollars and cents the fullest compliance with every promise made, therefore come to the meeting with your mind made up to give liberally.
THE TRIBUNE believes that the plan is practical and that those specially urging the matter are in earnest. It will be of distinct value to Red Willow county and to all this section of Nebraska, so it warmly urges our people to turn out, help organize and subscribe liberally to make a big successful district fair.
Don't expect anyone else to do your part; be present yourself and go down into your own pocket-book.
Next Tuesday afternoon.

A Strenuous Discussion.
Charles E. Elliott and Abram Peters, brother-in-laws, living on adjoining farms out in Grant precinct, this county, had a misunderstanding, Monday of this week, over the location of the dividing line between their farms, and in the discussion revolvers were used by both men, Elliott receiving a bullet through the fleshy part of one of his legs. Peters was arrested and the case was given a preliminary hearing before Squire Leflow, Thursday afternoon. The defendant was discharged.

Death of Mother and Child.
A telegram, Sunday, from Memphis, Tennessee, announced the death of Mrs. James Campbell and baby. Mr. Campbell will be remembered as a former citizen of McCook and a brother of Thomas B. of our city, and the visit of Mr. and Mrs. Campbell in our city, last summer, will be recalled with pleasure by all who met them. Mr. Campbell has the deepest and tenderest sympathy in this crushing blow—the death of his charming wife and their infant child.

More Hello Lines.
The telephone line to be built from Cambridge to Stockville, this spring, means the bringing most points between Curtis, Farnam, Bartley and Cambridge within hailing distance of any other point in that territory. As soon as the line is built, or possibly as it is built, stub lines will be run to Orafino and gradually extend to Earl and Farnam. Another line will branch off to Freedom and Bartley—Stockville Republican.

The March of Improvements.
Ed Reed's cottage on North Manchester street is well under way.

Quiet City Election.
Being but one ticket in the field the city election was very quiet—the entire straight Republican ticket being elected but the councilman in the First ward. J. E. Kelley and W. S. Perry each received 70 votes, with E. C. McKay second with 27 votes. The probabilities are that Councilman Perry will hold over. The votes will be canvassed by the city council, next Monday evening.

In a number of eastern states the farmers have organized to fight the collection of the "memorandum of agreement" given to steel range peddlers which turned out to be promissory notes. Why not profit by their experience? Don't sign one of their agreements and you won't have to pay one of their notes.

Do You Want the Band to Play?
Probably nothing has assisted more in making our town favorably known than the reputation the McCook band has. Many people who do not know where McCook is located know the band and the admiration of our land is not confined to this immediate territory or to the state, but it is favorably known in adjoining states and as the prize winner in Denver. All our citizens feel a pride in this musical organization and in a number of ways we have received benefits by its popularity.
I am afraid some of our people do not appreciate the advantage of having this musical organization in our town. The McCook band has paid for its instruments and uniforms and owns them and all the money it has received from our citizens or from our city has been in payment for entertainments the same as we would have paid any other company for. In this connection it is only justice to mention the time that has been given by the leader and a number of the members entirely without pay, and also to mention the assistance given by the B. & M. railway and several of its officials here to encourage and keep up the organization. It is possible some of our citizens feel that some of the members of the band have made money out of it, but this is a mistake; and there is no question but if they had used the same time and energy in doing something else or attending to their own lines of business, in a financial way, they would have been very much further ahead. Outside of the membership, very few people know how much work it takes to keep a musical organization of this kind together. There is probably no town in this western country that has had a band anything equal to the McCook band that has not donated liberally to its support. When the band has been away from home it has been the wonder of a great many how a town of this size would support an organization of such merit.
It has only been done through the self-sacrifice of the leader and a number of the prominent members and the assistance of the B. & M. officials, and now it probably remains with our citizens as to whether this organization can be kept up.
The most of the members of the band have been in the service of the railroad company, a number in the train service. Men employed this way are out of town a great part of the time and it is almost impossible to get them together for rehearsals or for concerts.
In order to have an organization of this kind it seems as though it will be necessary for the business men to take hold of the matter and furnish employment to musicians who can be procured by the band. If such positions can not be furnished, it can hardly be expected that new material can be taken and musicians made out of them. It takes too long to train beginners and it seems necessary to procure members who are good amateur players.
We will certainly have a summer Normal school, and owing to our fairly prosperous condition it seems that our business people can hardly afford to have no concerts during the summer. The band concerts have been the means of bringing people in from the surrounding country, as well as from the surrounding towns, and the enjoyment our own people has received from them has certainly been worth all they have cost the city or the citizens.
After talking with several in regard to open air concerts during the summer, it seems necessary that positions must be furnished by our business people for a number of musicians.
The matter of raising money to pay for the concerts does not seem to be the obstacle at present. Doubtless the city council would contribute and our business men would gladly raise any deficiency they might be called on for. In this case it is not a matter of money to pay for the concerts, but it is a question of positions among our business people for musicians. Shall we have band concerts?
