

A Beautiful Young Society Woman's Letter.

ST. PAUL, MINN. }
521 Wabasha St.
Dr. Hartman, Columbus, O.
Dear Sir:

"I took Peruna last summer when I was all run down, and had a headache and backache, and no ambition for anything. I now feel as well as I ever did in all my life, and all thanks is due to your excellent Peruna."—Bess F. Healy.

The symptoms of summer catarrh are quite unlike in different cases, but the most common ones are general lassitude, played-out, tired-out, used-up, run-down feelings, combined with more or less heavy, stupid, listless, mental condition. Relish for food and the ability to digest food seems to be lost.

Skin eruptions, sallow complexion, biliousness, coated tongue, fitful, irregular sleep, help to complete the picture which is so common at this season.

Peruna so exactly meets all these conditions that the demand is so great for this remedy at this season of the year that it is nearly impossible to supply it.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

AS TO THE NAVY.

President Roosevelt Talks on the Subject.

SAN FRANCISCO—Under a balmy sky and on the green sward of Union Square President Roosevelt Thursday morning participated in the dedication of the magnificent monument erected in commemoration of the victory of the American navy at Manila. The monument consists of a high shaft of white California granite, surmounted by a bronze figure of Victory, holding in one outstretched hand a wreath and in another a trident.

The president was escorted from the hotel to the square by all the marines of the warships in the harbor. On the stand from which he addressed the assembled multitude were the officers of the warships in San Francisco bay and vicinity, and the officers of the cruiser Grafton, the flagship of the British Pacific squadron.

Chairman James G. Phelan presented the monument to the city and it was accepted by Mayor Schmitz on behalf of the municipality.

President Roosevelt said San Francisco should glory in commemorating the navy's victory at Manila, as it had opened the Pacific ocean to American commerce and more than any other event had contributed to give the United States a high place among the naval powers. He dwelt on the necessity of preparing ships, armament and men for the navy. Naval battles, he said, are fought in advance and the Americans won at Manila because they had made ready for the strike. The necessity of improving the navy was first made apparent in 1882 and all the warships we now have were built since that time. Since the last war the naval strength of the United States has been rapidly increasing and under the wise provisions of the last congress has particularly advanced.

He urged practical work at sea, particularly in marksmanship, saying: "Remember that the shots that count in war are the ones that hit."

THE LIVE STOCK MARKET.

Latest Quotations From South Omaha and Kansas City.

SOUTH OMAHA.

CATTLE—There was a more moderate run of cattle and even though the supply for the week has been very liberal, buyers took hold freely, and a fully steady market was experienced. About the usual proportion of the offerings consisted of beef steers, and while the market was a little more active there was not much change in prices. Owing to the rapid fluctuations of the last few days prices are rather uneven so that while some salesmen thought they had a little better luck, others were calling the market no more than steady. There was also a little more snap to the cow trade. Prices, though showed very little improvement and the same as was the case with beef steers, the market could best be described by calling it fully steady. There were comparatively few stockers and feeders in the yards. Bulls, veal calves and stags did not show enough change to be worthy of mention. There were very few stockers and feeders on sale, and as the end of the week is at hand not many were wanted. The few cattle that did arrive sold at just about steady prices. The demand from the country has been insufficient this week to clean up practically all the desirable cattle that have arrived.

HOGS—There was another enormous run of hogs, which makes the receipts for the last two days by far the heaviest of any two days this year. Packers naturally took advantage of the heavy run to pound the market to a still lower level, but still they did not take off as much as might be expected. They seemed to want the hogs and the general market was only 2½¢ lower. The bulk of the hogs sold at \$6.22½ and \$6.35, with the choice loads selling largely from \$6.35 to \$6.40. The common loads went from \$6.20 down.

Morgan's Gold Dinner Service.
Pierpont Morgan has a gold dinner service, said to be worth \$80,000, which was presented to him by William H. Vanderbilt when he (Morgan) made an extensive sale of New York Central stock in Europe. It is a reproduction of a service in the British royal family, but the Morgans are not fond of display and seldom use it.

The Sultan's Shooting.
"Artistic workmanship" with the revolver, by the way, is one of the Sultan of Turkey's accomplishments; he is reputed to be one of the finest shots in the world, and practices daily. The reason of this is his constant dread of assassination, and he has always his weapon ready. It is stated that he once killed a gardener who stepped suddenly from behind a tree in the garden of the Yildiz palace, before the man had time to move a hand. He is, in fact, as the ranchmen of the wild West used to say, "some sudden with his artillery."

Dealers say that as soon as a customer tries Defiance Starch it is impossible to sell them any other cold water starch. It can be used cold or boiled.

Ignorance and conceit are twins.

An Old California Tree.
The age of a tree is determined by the number of rings of wood its trunk contains. The woody fiber is slower in growing in winter than in summer, and consequently distinct rings are formed, each representing a year. By means of these rings the gigantic cross section of a California tree, 1,341 years old, is used at the New York Museum of Natural History as a history chart, and as such it shows in a novel way the sequence of events in the last thousand years.

MANCHURIA IS OPEN TO ALL.

Russia Explains the Movements of Her Troops.

PEKIN—The Russian charge, M. Plancon, has given reassurances regarding Manchuria. He has issued an official notice that all Manchuria is open to foreign travel and adds that passports are no longer necessary.

There were 500 Russian soldiers at New Chwang, who were removed about the date fixed for the evacuation, and the same number returned to New Chwang. It appears that the Russian force which returned to the Lia forts merely used the forts as temporary resting places while journeying southward to their station on the peninsula.

A NATIONAL FEDERATION.

That is What the Contractors May Form.

NEW YORK—A national federation of employers, it is expected, will be one of the consequences of the movement begun by employers of labor in the building trades to organize for protection and aggressive purposes against the labor unions.

Telegrams and letters received from Chicago, Philadelphia and Boston and other cities state that the movement in this city is being watched with the keenest interest, and that if it is shown that unity of action by employers can be made perfect, organizations similar to that in this city will be formed in every large center of population.

Sea Gulls as Fog Signalers.
