A Pretty New York Woman's Recovery the Talk of Her Numerous Friends.

Mrs. J. E. Finn, 82 East High street, Buffalo, N. Y., writes:

Peruna Medicine Co., Columbus, Ohio.

Gentlemen:—"A few years ago I had to give up social life entirely, as my health was completely broken down. The doctor advised a complete rest for a year. As this was out of the question for a time, I began to look for some other means of restoring my health.

"I had often heard of Peruna as an excellent tonic, so I bought a bottle to see what it would do for me, and it certainly took hold of my system and rejuvenated me, and in less than two months I was in perfect health, and now when I feel worn out or tired a dose or two of Peruna is all that I need."—Mrs. J. E. Finn.

Catarth Causes Female Diseases.

America is the land of nervous women. The great majority of nervous women are so because they are suffering from some form of female disease. By far the greatest number of female troubles are caused directly by catarth. These women despair of recovery. Female trouble is so common, so prevalent, that they accept it as almost inevitable. The greatest obstacle in the way of recovery is that they do not understand that it is catarth which is the source of their illness.

In female complaint, ninety-nine cases out of one hundred are nothing but catarth. Peruna cures catarth wherever located.

SWEPT BY FLOOD

HUNDREDS OF PEOPLE RENDERED HOMELESS.

ENID, OKLAHOMA, IS VICTIM

Waters Rush Upon the People While They are Sleeping—Lose All Their Belongings and Are Glad to Escape With Their Lives.

ENID, Okla.—Hundreds of persons were rendered homeless and property damage estimated at \$300,000 was done in the Enid bottoms alone by the cloudburst that struck west of this city at midnight Saturday night. The aggregate damage will doubtless be raised much higher by losses sustained between Enid and the seat of the storm. At 12 o'clock a bank of water three feet high and 200 feet wide swept down through the bottoms, carrying houses and everything before it. It came down upon Enid without warning while most of its citizens were asleep. Within a few minutes 100 houses were partly or completely submerged. Rescuers went to work immediately and all night labored industriously saving persons from perilous positions and aiding those driven from their homes. It was found that several hundred were homeless.

Many pitiable scenes were witnessed as the people stood around waiting for the water to subside. Many had lost everything they possessed. The citizens are busily engaged relieving the distress but the means at hand are inadequate. The rainfall the past ten days has been the heaviest in the history of Oklahoma, and indications are that more will follow. Reports of losses in the country west of Enid are meagre, but it is believed that heavy damage was done.

GUTHRIE, Okla.—Early Sunday this vicinity was visited by another deluge, making the twenty-fourth consecutive day of rain. The Cimarron and Cottonwood rivers are now at the danger point. A tornado struck Poss, a town on the Choctaw, Oklahoma & Gulf railroad at 5 o'clock Sunday morning, completely destroyed thirteen residences and wrecking many outbuildings. Three persons were killed and a number injured, one R. P. Sall, seriously. The dead are F. M. Slagel, wife and daughter.

American Does Homage at Tomb.

ROME.—General Jacob Smith visited the tombs of King Victor Emmanuel and King Humbert in the pantheon Tuesday. He was received by a group of Italian veterans, to whom he said he wished to pay his tribute of respect to the two late kings, who were soldiers, like himself.

Disturbances in Russia.

BERLIN.—The Lokal Anzeiger's correspondent at St. Petersburg telegraphs that serious disturbances and rioting have broken out in the province of Saratoff and that the peasants are burning and sacking the residences of the land holders in many places.

Lieutenant Walker Killed.

MANILA.—Lieutenant Walker of the constabulary, who was reported missing after the recent fighting in the island of Cebu, was, it became known later, killed by a superior band of fanatics which surrounded the lieutenant's party. Two privates of the constabulary were also killed and three were captured. Two of these prisoners were murdered. One of them escaped.

WHAT THE TREATY CONTAINS.

Some of the Features of the Cuban Agreement.

WASHINGTON.—These provisions, among others, are succinctly stated in the Cuban contract:

"Cuba is never to enter into any treaty or other compact with any foreign power which will impair or tend to impair its independence. The government is not to assume nor contract any public debt to pay the interest upon which and to make reasonable sinking fund provision for the ultimate payment of which the revenue of the island, after paying the government expenses, shall be inadequate.

"Cuba consents that the United States may intervene for the preservation of the Cuban independence. Cuba ratifies all acts of the United States in Cuba during the military occupation. Cuba will make provision for the sanitation of the cities of the island to the end that a recurrence of epidemic and infectious diseases may be prevented."

MAY EFFECT CANAL TREATY.

Doubt About What Effect Ministerial Crisis Will Have.

WASHINGTON.—Whether the ministerial crisis in Colombia, as reported by United States Minister Beaubre, will have any important bearing on the ratification of the Isthmian canal treaty is not known here. Fernandez, the minister of government, (more specifically known locally as the minister of the interior), who resigned, was virtually the premier of the government. The office filled by him corresponds in many respects to that of secretary of state in the United States. Statements have been made to the effect that he was opposed to the official declaration of peace in Colombia, holding that it was still under martial law. If Colombia were under martial law its president could exercise the dictatorial powers vested in him by the constitution and if he chose ratify the canal treaty by his own act without submitting it to the consideration of congress, whose position on the subject is still doubtful.

Same Terms as United States.

WASHINGTON.—Great Britain has decided to accord China the same terms in the settlement in the Boxer indemnity as those accepted by the United States. The state department has been informed that the English chargé at Peking has signified the willingness of his government to accept payment on a silver basis for a term of years, serving of under bond the right to receive payment of any deficiency that might exist should it hereafter be decided that the payments should have been made on a gold basis. This very much strengthens the attitude of the United States.

Itch Grows on Kansas Stock.

TOPEKA, Kan.—The State Live Stock Sanitary commission is in session here to consider the best method of combating the Texas itch. As a result Governor Bailey will impose a still more rigid quarantine and an order will likely be made to dip all cattle coming into the state.

Modocs to Go Home.

WASHINGTON, D. C.—The commissioner of Indian affairs has been informed by the Indian agent at the Quapaw agency in Indian territory that most of the forty-seven Modoc Indians who constitute the remnant of the tribe which in 1876 perpetrated the massacre at the lava beds, are preparing to leave for their old home on the Klamath reservation in Oregon. The Indians give as a reason their preference for the Pacific coast.

SIGN THE TREATY

CUDA AND UNCLE SAM CONCLUDE COMPACT.

THEIR SIGNATURES ARE PLACED

All Provisions of Platt Amendment Are Incorporated—Objections Made Are All Overcome—An Urgent Message from President Palma.

HAVANA.—The permanent treaty between the United States and Cuba, in which is incorporated all the provisions of the Platt amendment, was signed Friday afternoon.

The signing of the treaty took place at 4:30 at the office of the secretary of state. The signers were Secretary of State Zaldo and United States Minister Squiers, who constituted special plenipotentiaries for that purpose. Senator Zaldo and Mr. Squiers simply met, accompanied by their secretaries, and the signing was accomplished and copies of the treaty exchanged within a few minutes.

The permanent treaty contains no provision for its abrogation and no extraneous conditions of any kind. It simply incorporates the entire Platt amendment into the form of a treaty. The length of time consumed by the negotiations was principally due to the fact that the Cuban government desired to include in the treaty various extraneous conditions, especially one to the effect that there should be no intervention into Cuban affairs by the United States, except through the intervention of the United States. All these conditions were rejected.

The Associated Press' correspondent saw a number of senators with respect to the ratification of the naval stations treaties during this session of congress, but they were not inclined to be communicative. It remains evident that there is a tendency to allow the treaties to go over this session.

An urgent message from President Palma, which will accompany the sending of the treaty to the senate, will have a strong effect.

Senator Sanguilly, the most active opponent of the treaties with the United States, said he would oppose the permanent treaty, because under it the United States, being the stronger power, could itself decide when intervention was desirable, regardless of the wishes of Cuba. Other senators say that the paragraph relating to the Isle of Pines should have been eliminated.

It is now expected that an agreement covering the details of the United States naval stations will be reached by President Palma and United States Minister Squiers within three weeks.

MEET DEATH IN THE FLOOD.

Three Persons Are Drowned at Sterling.

TECUMSEH, Neb.—Four inches of rain in two hours Friday night has thrown the Nemaha river out of its banks and the ruins of spring-planted crops are now rushing down the current.

At Sterling, a few miles above here, a family of three, consisting of a mother, brother and child, were drowned while attempting to ford a torrent from the hillsides. Two of the bodies have been recovered. The bottom lands are all under water, while the hill lands are washed bare and a large per cent of the corn will have to be replanted. The Burlington reports several small washouts, but not so serious as to impede traffic. The river is now falling, but another severe rain threatens to do more damage.

Death to Be the Penalty.

SAN JUAN, P. R.—In the Humacao district court of first degree Pedro Diaz was convicted of murder during a political riot at Humacao last August in killing a boy named Octavio Reyes. Diaz will be sentenced Saturday to be hanged sixty days later. This is the first conviction under the new code and the hanging will be the first to occur in Porto Rico. It is certain the governor will not interfere.

Kansas Swept by Cyclones.

CLAY CENTER, Kan.—A severe cyclone passed over Clay county Friday afternoon, striking the southeast part of the county, going just east of Brownson and west of Gatesville, Kan. As far as known no one was killed in Clay county but at Bala, a little town in Riley county, two little girls named Daub were killed and a number of persons injured. Five houses were blown away at Bala and many cattle killed.

Dogs Smell Death.

There's an old superstition that a howling dog in front of the house of an ill person portends death. One prominent physician believes absolutely in it. The physician has a wonderfully acute sense of smell. Frequently, he says, he can foretell the coming of death within twenty-four hours of the patient's demise. Within two days of death, he says, a peculiar earthy odor becomes noticeable about a person about to die. He tells of one case where he became aware of the peculiar odor while talking to an apparently healthy man. That night the man dropped dead of heart disease. The physician is far from attributing the peculiar manifestation to other than physiological reasons. His own sense of smell is abnormally acute.

How Mark Twain Proposed.

Mrs. Samuel Clemens was Miss Olivia Langdon. For some years before she met Mr. Clemens, she had been confined to her bed with what was believed to be an incurable disease; but she was at length miraculously restored to health. The cure was the sensation of Elmira, N. Y., and young Clemens, then a newspaper reporter, was sent there to interview Miss Langdon on her recovery. He obtained the interview for his newspaper, and brought back impressions of more value to himself. Miss Langdon's parents were at first strongly opposed to the young newspaper man, and, for his part, his timidity, so it is solemnly said, stood in the way of the progress of his suit. But finally he screwed up courage to speak to Mr. Langdon, and one morning timidly entered his future father-in-law's private office, where that man was seated at work. "Mr. Langdon—have you noticed anything—between your daughter—and me?" "No," shouted the objecting parent, who, like sharply around so as to get a full view of his visitor. "Well," said the young man, as he turned to the door, ready for instant flight, "if you—keep—a—sharp—lookout—you—WILL!"

Adage Judicially Affirmed.

In a lecture delivered to students of Columbia university, Judge Cox of the United States circuit court, told of a young lawyer who came before the supreme court to argue a case in which he was also defendant. Addressing the court, he referred to the old French adage declaring that he who argues his own case has a fool for a client. After the case had been heard he left for his home in St. Louis, asking a friend to notify him by wire when the decision was handed down. This was the pithy telegram he received: "Old French adage affirmed."

"Money" in Abyssinia.

The Emperor Menelik has had a curious experience in his efforts to replace barter by a metallic currency in Abyssinia. The Maria Theresa thaler has for generations been current, but for want of a smaller coinage salt blocks became the standard of exchange and resisted all efforts, even of the emperor, to replace them by a new currency coined in Paris some years ago. The salt blocks have given way, but not to the new coinage, which the people will not touch. The new standard of values is—the rills cart-ridge.
