It was further recommended that the chair-lived to secure equitable, just assessment, but founded on selfishness and self-interbalderdash current touching this quesest alone. Nor is the question of assessment valuation one of ethics, but of strict, hard business. If an article sells for \$100 on the market, assess it on that basis. If another article sells for \$20, assess it accordingly. A bank with \$25,high a valuation as the bank with \$50,-\$20,000 worth of goods expects to pay 000 worth of merchandise. Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Re-peated attacks of indigestion inflames the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucin instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Gure relieves all inflammation of the mucous membranes lining the stomach, protects the

nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles. Kodol Digests What You Eat

By the retirement of Miss Rache Bering-prayer and sermon at 8. The third ry and Mr. C. H. Meeker from the membership of the board the library has suffered an inestimable loss. These two were responsible for the movement that culminated in the accomplishment, and have labored untiringly in behalf of the project that has become a fact. The gratifying success that has attended the establishment of the library is attributed largely to their unceasing efforts and self-sacrificing devotion. Others have aided, have responded freely to all calls, will spend his annual vacation of two but these two have been the prime movers in the cause, have supplied in full Rev. Frank W. The Scientific Germ Killer. t contains every antiseptic known to science.

The cholera bacteria finds its way into the animal through the drinking water or filth, passing into the stom ach and finally down along the intestines it sets up fermentation and from there filters through the blood, liver and other organs.

Hog cholera cannot be treated sucessfully unless treatment is commenced before the germ has reached the period of rapid multiplication. If taken in time it can be cured, and in all cases prevented by the use of Liquid Koal, because it is the only known germicide that will pass through the stomach into the intestines and from there into the blood, permeating the whole system, and still retain its germ killing properties. All other so-called cholera cures lose their potency by the acid reaction of the gastric juices of the stomach, hence have no value.
