There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incur-able. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. the care of students, and devotion to the best interests of all, are the distinguishing characteristics of the University of Notre Dame

Sixty years of active work in the cause of education have made this institution famous all over the country.

The number of murders per million population is 5.13 in England, 5.45 in Rea. German, 11.55 in France, 15.42 in Austria, 76.11 in tlaly, and 44.70 in Spain.

Hundreds of dealers say the extra quantity and superior quality of Defiance Starch is fast taking place of all other brands. Others say they cannot sell any other starch.

Is the Calkewalk French?

The French have found a reason for the popularity of the cakewalk in Paris. The thing is French! One of the negroes at the Nouveau Circue, interviewed by a Paris paper, says that the origin of the dance was French. According to this latest account, some of the French refugees from the court of Marie Antoinette introduced the minust into New Orleans about the time of the Revolution, and it was the native imitation of the most fashionable dance in Europe that was afterward developed into the cakewalk.

Wealth of the Pope.

Leo's fortune is immense. It is one of the great fortunes of the world. In the grand schism of the West popes were frequently supported on alms. Voltaire points out that the popes did not become rich till after the period when they dared not to exhibit themselves at Rome. According to Villani, Bertrand de Got, or Both, Clement V. of Bordeaux, who passed his life in France and was governed by King Philip, sold benefices publicly and died worth 25,000,000 gold florins, about \$37,500,000. "It appears," says Voltaire, "that the popes have been often treated like the gods of the Japanese, who are sometimes presented with offerings of gold, and sometimes thrown into the river."

Storekeepers report that the extra quantity, together with the superior quality of Defiance Starch makes it next to impossible to sell any other brand.
