### A Piano at a Nominal Price.

Chicago's largest music house, Lyon & Healy, announces a Clearing Sale of Pianos. This is owing to the fact that their warerooms are being entirely remodeled. Several hundred instruments are offered without reserve until all are sold. In this stock are a number of Steinway and Knabe pianos, and new and second-hand pianos including instruments of the following well-known makes: Miller, Mason & Hamlin, Hazeltine, McPhail, Sterling, Huntington, Vose, Fischer, Weber, Chickering, etc., etc. In Square Pianos there are fine-toned instruments at \$25, \$40, \$50, and upwards. In Upright Pianos neat instruments at \$100, \$120, \$140, \$160, \$185, \$190, \$200. In Baby Grands some nice specimens at \$250 and upwards. Nearly all these pianos were intended to sell for much more than these clearing sale prices. Lyon & Healy will send a list and full particulars upon application. Any piano not proving entirely satisfactory may be returned at their expense. Address: Lyon & Healy, 1 Adams St., Chicago. Distance is no obstacle in taking advantage of this remarkable chance to obtain a piano, for in proportion to the saving to be made the freight charges are insignificant. If you do not already know Lyon & Healy by reputation, any banker will assure you of their entire responsibility and record of forty years of honorable dealing. Write at your early convenience to us to avoid disappointment.

### Milk Attracts Disease Germs.

Place a jug of milk near fish for a few hours and there will be a fishy flavor about it. In this same way that milk is susceptible to odors, so it attracts disease germs; diphtheria, typhoid fever, etc., are often contracted in this manner. This is not always due to carelessness, for these bacilli are in the very air we breathe. The only true safeguard when contagious disease is about to sterilize the milk.
