A Call For Action.

In accordance with a resolution passed by the State Board of the State Farmers' Co-Operative Grain and Live Stock Association each director has charge of the organization in his congressional district. Farmers' Local organizations and every community that is interested in Co-Operative movements in THE BIG FIFTH is called to send delegates or come en masse to attend the meeting at the city of Holdrege, Neb., Sept. 12, 1903, at 1 o'clock p. m.

Ten reasons why I takes the liberty of calling such a meeting.

1. Because each farmer should be a member of some Farmer's Grain & Supply Company.
 2. Because the mere existence of an organization will have a stimulating effect on the local market.
 3. Because those who oppose us in this movement have not done what they should have done in the interest of the farmer.
 4. Because by banding together we can secure a better market for our farm products and better our condition.
 5. Because Co-Operation affords equality to all and special privileges to none.
 6. Because an organization has never failed, when properly managed.
 7. Because as director and president of the State association I feel it my duty to assist in building up the movement at every point where the farmers manifest an interest.
 8. Because the State Association wishes to put forth every effort to further the advancement and interest of every local in the state.
 9. Because the officers of the State Association wish to labor in the daylight of publicity.
 10. Because in Unity there is Strength.
- Papers throughout the Big Fifth are requested to copy. J. S. CANADAY, Director of the State Association. Minden, Neb., Sept. 1st, 1903.

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians who gave him little, if any, relief, when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by L. W. McConnell, druggist.

The dogs are still crossing the river Styx, by the strychnine route.

They are crossing the dark rolling river, But over there they'll have sausage and pie, While here they had nothing but liver—The dogs.

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and to begin to thrive at once, very much to the surprise and joy of the mother. 50c at A. McMillen's.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For Inspection Work.

Engine 26, which is being reconstructed for inspection work for the use of Superintendent Bignell, is undergoing some surprising changes. It already has a new set of 98-inch drivers under it. A cab is being built over the front of the engine. This cab will have the regulation coach roof and sloping end over the pilot. The roof will come within a foot of the top of the smoke-stack. The cab will be about 11 feet long and extend 6 feet back of the boiler head and 5 feet in front. A two-foot pilot will be in front of this. There will be seating arrangements for five occupants.

The engineer will have his seat in this front end cab and connections with the air, throttle and reverse will be there. The fireman will be the only occupant of the regular cab.

Entrance to this inspection cab will be on the side in front by means of a door 7 feet high and 1 foot 9 inches wide. There will be plenty of windows.

This inspection engine is a decidedly new departure and embodies mainly the ideas of Superintendent Bignell. There is nothing like it in this western country. Something similar is in use on the Pennsylvania railroad. It will present a very odd appearance, but will give the very best opportunity for road and a other kinds of inspection. In front of the boiler the floor of the cab is only 1 foot 3¾ inches above the rails. Two of the seats are located here.—Havelock Times.

21 Years a Dyspeptic.

R. H. Foster, 318 S. 2d St., Salt Lake City, writes: I have been bothered with dyspepsia or indigestion for 21 years; tried many doctors without relief; recently I got a bottle of Herbine. One bottle cured me, I am now tapering off on the second. I have recommended it to my friends; it is curing them, too." 50c at A. McMillen's.
